AUDITOR'S TRANSMITTAL

The Honorable Roy Cooper, Governor
The General Assembly of North Carolina
Board of Trustees, North Carolina School of Science and Mathematics

We have completed a financial statement audit of the North Carolina School of Science and Mathematics for the year ended June 30, 2018, and our audit results are included in this report. You will note from the independent auditor's report that we determined that the financial statements are presented fairly in all material respects.

The results of our tests disclosed no deficiencies in internal control over financial reporting that we consider to be material weaknesses in relation to our audit scope or any instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

North Carolina General Statutes require the State Auditor to make audit reports available to the public. Copies of audit reports issued by the Office of the State Auditor may be obtained through one of the options listed in the back of this report.

A handwritten signature in cursive script that reads "Beth A. Wood".

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
North Carolina School of Science and Mathematics
Durham, North Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of the North Carolina School of Science and Mathematics (School), a constituent institution of the multi-campus University of North Carolina System, which is a component unit of the State of North Carolina, and its discretely presented component unit, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the School's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the North Carolina School of Science and Mathematics Foundation and Subsidiary (Foundation), the School's discretely presented component unit. Those statements were audited by other auditors, whose report has been furnished to us, and our opinions, insofar as they relate to the amounts included for the Foundation, are based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the Foundation were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's

judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the School's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the North Carolina School of Science and Mathematics, and its discretely presented component unit, as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 16 to the financial statements, during the year ended June 30, 2018, the North Carolina School of Science and Mathematics adopted new accounting guidance, Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, as amended by Governmental Accounting Standards Board Statement No. 85, *Omnibus 2017*. Our opinion is not modified with respect to this matter.

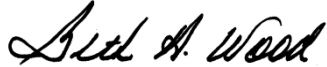

Other Matters – Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and other required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 26, 2019 on our consideration of the School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and

grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Introduction

The North Carolina School of Science and Mathematics (School) provides this overview and Management's Discussion and Analysis to assist in understanding the financial statements and notes to the financial statements presented herewith for the year ended June 30, 2018. This discussion describes important trends and events that have impacted the fiscal health of the School and that may continue to exert influence in future years. This discussion has been prepared by and is the responsibility of the School's management along with the financial statements and the notes to the financial statements thereto. The report should be read and considered in its entirety.

Using the Annual Report

This annual report consists of a series of financial statements, notes to the financial statements, and other information prepared in accordance with the Governmental Accounting Standards Board (GASB). The GASB establishes standards for external financial reporting for public colleges and universities and requires that financial statements be presented on a consolidated basis for the School as a whole. These standards were used in the preparation of this document. The statements are prepared under the accrual basis of accounting, whereby revenues and assets are recognized when the service is provided and expenses and liabilities are recognized when others provide the service, regardless of when cash is exchanged. Comparative information for the prior fiscal year is also presented in the condensed financial statements.

The basic financial statements include the Statement of Net Position; the Statement of Revenues, Expenses, and Changes in Net Position; the Statement of Cash Flows; and the Notes to the Financial Statements. The Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Net Position are discussed in later sections of this discussion and analysis.

The Statement of Cash Flows provides information relative to the School's sources and uses of cash for operating activities, noncapital financing activities, capital and related financing activities, and investing activities. The statement provides a reconciliation of beginning cash balances to ending cash balances and is representative of the activity reported on the Statement of Revenues, Expenses, and Changes in Net Position as adjusted for changes in the beginning and ending balances of noncash accounts on the Statement of Net Position.

The Notes to the Financial Statements should be read in conjunction with the financial statements. Overall, these disclosures provide information to better understand details, risk, and uncertainty associated with amounts reported in the financial statements.

Reporting Entity

The financial statements report information about the School as a whole using accounting methods similar to those used in the private sector. The financial reporting entity for the financial statements is comprised of the School and two component units. The North Carolina School of Science and Mathematics Student and Constituent Support Services, Inc. (SCSSI), a blended component unit, is a legally separate, nonprofit corporation and is reported as if it were part of the School. The North Carolina School of Science and Mathematics Foundation and Subsidiary (Foundation) is a legally separate, nonprofit corporation and is reported as a discretely presented component unit based on the nature and significance of its relationship to the School. This discussion and analysis excludes the Foundation.

Financial Highlights

The School's financial position increased mainly due to the Connect NC Bond funding for the Western Campus. See below for additional information regarding current year activity.

Statement of Net Position

The Statement of Net Position presents the assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position of the School as of the end of the fiscal year. The statement is a point-in-time statement presenting a fiscal snapshot of the School. From the data presented, readers of the Statement of Net Position are able to determine the assets available to continue the operations of the School. They are also able to determine how much the School owes to vendors and others and how much is held for future use by the School. Finally, the Statement of Net Position provides a picture of the net position and its availability for expenditure by the School.

Net position is divided into categories to show the availability to meet the School's obligations. The first category, net investment in capital assets, provides the School's equity in property, plant, and equipment. The next category is restricted net position and includes resources which the School is obligated to spend on capital projects and other postemployment benefits. The final category is unrestricted net position. Unrestricted net position is available to the School for any lawful purpose. Although unrestricted net position is not subject to externally imposed stipulations, substantially all of the School's unrestricted net position has been designated for various programs and initiatives. As a result of recording the net pension liability, net other postemployment benefits liability, and compensated absences liabilities, the School has an overall deficit in unrestricted net position.

Condensed Statement of Net Position

	2018	2017 (as Restated)	Increase/ (Decrease)	Percent Change
Assets:				
Current Assets	\$ 1,965,464.85	\$ 1,803,596.25	\$ 161,868.60	8.97%

Other Noncurrent Liabilities	55,162.62	55,162.62		
Total Liabilities	32,880,037.72	43,215,303.77	(10,335,266.05)	-23.92%
Deferred Inflows of Resources:				
Deferred Inflows for OPEB	9,193,409.00		9,193,409.00	
Deferred Inflows for Pensions	179,687.00	296,031.00	(116,344.00)	-39.30%
Total Deferred Inflows of Resources	9,373,096.00	296,031.00	9,077,065.00	3,066.25%
Net Position:				
Net Investment in Capital Assets	43,488,772.55	40,711,885.07	2,776,887.48	6.82%
Restricted:				
Expendable	1,098,424.01	2,094,016.67	(995,592.66)	-47.54%
Unrestricted	(35,931,989.63)	(35,306,086.40)	(625,903.23)	1.77%
Total Net Position	\$ 8,655,206.93	\$ 7,499,815.34	\$ 1,155,391.59	15.41%

Net position categories are defined in Note 1 (L) of the notes to the financial statements.

The condensed Statement of Net Position shows the School's total net position at June 30, 2018 was \$8,655,206.93, representing an increase of \$1,155,391.59. This increase was primarily caused by capital grants and capital gift revenues as discussed below.

The School's assets totaled \$47,142,203.33 at June 30, 2018, and increased \$1,352,402.54, or 2.95%. The net increase was due to an increase in capital assets of \$2,181,171.95, or 5.20%, and a decrease in other noncurrent assets of \$990,638.01, or 48.43%. The increases in capital assets and net investment in capital assets were due to the assets that were transferred from the School of the Deaf for the Morganton Campus, costs associated with building the Morganton campus that are in construction in progress, and the 4th floor physics lab renovation that cost \$1,153,889.39. See the Capital Assets section below for more details. Other noncurrent assets decreased due to a reduction in noncurrent restricted cash that was expended during the current year for capital projects.

The School's net pension liability, net other postemployment benefits (OPEB) liability, deferred outflows of resources, and deferred inflows of resources are caused by allocations of the State's cost-sharing pension and OPEB plan balances to participating entities as required by GASB. Deferred inflows of resources increased \$9,077,065.00, or 3,066.25%, and deferred outflows of resources decreased \$1,455,212.00, or 27.87%, due to changes in the actuarial valuations of the State's pension and OPEB plans. For more detailed information regarding pension and OPEB plans, see Notes 11 and 12.

The School's liabilities totaled \$32,880,037.72 at June 30, 2018, and decreased \$10,335,266.05, or 23.92%, primarily due to a decrease in long-term liabilities of \$9,955,302.86. This change is mainly due to decreases in the net pension and net OPEB liabilities, as discussed in the Long-Term Liability section below. Other current liabilities decreased by \$298,800.59, or 17.78%, primarily due to a reduction in outstanding payables on construction projects as compared to the prior year.

During the current fiscal year, the School implemented GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. As a result of this new accounting and reporting change, participants in the State's OPEB plans, including the School, were allocated a proportionate share of the OPEB plan's net OPEB liabilities/assets, deferred outflows of resources, deferred inflows of resources, and OPEB benefits expense, specifically for the Disability Income Plan of North Carolina (DIPNC) and the Retiree Health Benefit Fund (RHBF). For the purpose of reporting actuarially determined OPEB benefits expense for fiscal year 2018, the Statement of Net Position was restated as of June 30, 2017. The amounts for the restatement as well as the amounts for June 30, 2018 were based on the allocated proportionate shares from the State's plans as determined by actuarial valuation and the deferred outflows of resources for current contributions as determined by the participating entity.

Significant to this reporting change was the impact of the RHBF on unrestricted net position. To understand the effect of the RHBF as well as the School's proportionate share of the State's pension plan, Note 8 (Net Position) has been added to the notes to the financial statements. See Note 8 for more information.

Restricted net position decreased by \$995,592.66, or 47.54%, due to a decrease in cash restricted for capital projects that was expended during the current year.

Statement of Revenues, Expenses, and Changes in Net Position

The Statement of Revenues, Expenses, and Changes in Net Position presents the revenues earned and expenses incurred during the year. Activities are reported as either operating or nonoperating. The School's dependency on state appropriations and noncapital grants and gifts results in operating deficits since the GASB requires these captions be classified as nonoperating revenues. The utilization of long-lived assets, referred to as capital assets, is reflected in the financial statements as depreciation, which amortizes the cost of an asset over its expected useful life.

Generally speaking, operating revenues are received for providing goods and services to the various customers and constituencies of the School. Operating expenses are those expenses paid to acquire or produce the goods and services provided in return for the operating revenues and to carry out the mission of the School. Nonoperating revenues are revenues received for which goods and services are not provided. Capital appropriations, capital grants, and capital

gifts are considered neither operating nor nonoperating and are reported after "Loss Before Other Revenues".

Condensed Statement of Revenues, Expenses, and Changes in Net Position

	2018	2017*	Increase/ (Decrease)	Percent Change
Operating Revenues:				
Student Tuition and Fees	\$ 640,316.62	\$ 467,355.88	\$ 172,960.74	37.01%
Sales and Services, Net	199,455.28	113,674.66	85,780.62	75.46%
Other Operating Revenues	158,630.25	270,625.37	(111,995.12)	-41.38%

Interest and Fees on Debt	(10,675.97)	(13,853.45)	3,177.48	-22.94%
Other Nonoperating Revenues	17,875.00	15,800.55	2,074.45	13.13%
Net Nonoperating Revenues	23,021,037.57	22,852,701.99	168,335.58	0.74%
Loss Before Other Revenues	(1,892,732.52)	(1,114,991.98)	(777,740.54)	69.75%
Capital Appropriations	1,010,000.00	1,108,639.69	(98,639.69)	-8.90%
Capital Grants	1,579,484.11		1,579,484.11	
Capital Gifts	458,640.00		458,640.00	
Increase (Decrease) in Net Position	1,155,391.59	(6,352.29)	1,161,743.88	18,288.58%
Net Position:				
Beginning of Year	7,499,815.34	39,311,290.63		
Restatement		(31,805,123.00)		
End of Year	\$ 8,655,206.93	\$ 7,499,815.34		
Total Revenues	\$ 27,078,239.80	\$ 24,826,851.04	\$ 2,251,388.76	9.07%
Total Expenses	\$ 25,922,848.21	\$ 24,833,203.33	\$ 1,089,644.88	4.39%

* Note - The year ended June 30, 2017 column is not presented "as restated" above because actuarial calculations performed relative to the implementation of GASB 75 do not provide sufficient information to restate these amounts.

The condensed Statement of Revenues, Expenses, and Changes in Net Position shows the total operating loss for fiscal year 2018 was \$24,913,770.09, an increase of \$946,076.12, or 3.95%, over the previous year.

Operating revenues were \$998,402.15, or 3.69%, of the School's total revenues. Operating revenues include student tuition and fees (from the summer camp programs), net sales and services, and other operating revenues. Student tuition and fees increased \$172,960.74, or

37.01%, due to the increase in summer camps offered. Net sales and services increased \$85,780.62, or 75.46%, due to an increase in facilities rentals and workshop registration fees. Other operating revenues decreased \$111,995.12, or 41.38%, mainly due to a decrease of funds from Burke County for distance education services provided.

Operating expenses increased \$1,092,822.36, or 4.40%, remaining relatively consistent with the prior year. The major increases in operating expenses included increases in salaries and benefits of \$963,210.06, or 5.18%, and services of \$436,157.03, or 17.00%. Salaries and benefits changes were due primarily to the legislative salary increases. Additional services were for contracting with the Friday Institute for Educational Innovation at North Carolina State University to assist in developing a strategic plan for the Western Campus project. Supplies and materials expense decreased by \$466,200.88, or 33.63%, due to a decrease in spending in operations and maintenance of plant.

Net nonoperating revenues increased \$168,335.58, or 0.74%, over the prior year. The increase is due primarily to an increase in noncapital gifts of \$218,453.25, or 26.43%, over the previous year. Noncapital gifts primarily increased due to the increased funding from the School's Foundation and a gift left to the School from an estate.

Capital grants and capital gifts were new captions reported in fiscal year 2018. Capital grants of \$1,579,484.11 related to Connect NC Bond money spent on the School's Western Campus in Morganton, NC. See the Factors Impacting Future Periods section below for more information. Capital gifts of \$458,640.00 related to the transfer of assets from the School of the Deaf, as discussed in the Capital Assets section below.

One of the School's weaknesses is the lack of diverse streams of revenues. Approximately 91.42% of the School's total revenues comes from state appropriations, capital appropriations, capital grants, and capital gifts, 4.89% from other nonoperating revenues, and 3.69% from operating revenues. The School will continue to seek funding aggressively from all possible sources consistent with its mission and prudently manage the financial resources realized from these efforts to fund its operating activities.

Capital Assets

As shown in the following chart, net capital assets increased by \$2,181,171.95 during the current year due to various increases discussed below.

	2018	2017	Increase/ (Decrease)
Land	\$ 1,687,173.66	\$ 1,337,173.66	\$ 350,000.00
Construction in Progress	1,761,197.75	2,452,884.58	(691,686.83)
Art	10,092.76	10,092.76	
Buildings	58,027,193.31	53,605,755.96	4,421,437.35
Machinery and Equipment	5,287,720.67	2,936,841.51	2,350,879.16
General Infrastructure	2,476,542.41	2,450,236.01	26,306.40
Total Capital Assets	69,249,920.56	62,792,984.48	6,456,936.08
Less: Accumulated Depreciation	(25,128,202.09)	(20,852,437.96)	(4,275,764.13)
Net Capital Assets	<u>\$ 44,121,718.47</u>	<u>\$ 41,940,546.52</u>	<u>\$ 2,181,171.95</u>

Construction in progress (CIP) decreased mainly due to capitalizing the cabling and 4th floor physics lab projects and reducing CIP in the amounts of \$1,967,724.58 and \$1,153,889.39,

respectively. Buildings also increased due to the transfer of property from the North Carolina Department of Public Instruction (DPI) and School of the Deaf to the School for the Morganton Campus of \$2,983,150.96. Machinery and equipment increased primarily due to capitalization of the cabling project noted above.

For more detailed information about capital asset holdings, see Note 4.

Long-Term Liability Activity

As shown in the following chart, long-term liabilities decreased \$10,036,465.46 during the current year primarily due to the \$8,946,220.00 decrease in the net other postemployment benefits liability and \$1,007,122.00 decrease in the net pension liability. These decreases are due to changes in the actuarial valuations of the State's pension and OPEB plans.

	2018	2017 (as Restated)	Increase/ (Decrease)
Net Pension Liability	\$ 5,256,567.00	\$ 6,263,689.00	\$ (1,007,122.00)
Net Other Postemployment Benefits Liability	23,690,030.00	32,636,250.00	(8,946,220.00)
Notes Payable	528,277.07	627,214.58	(98,937.51)
Capital Leases Payable		5,659.95	(5,659.95)
Compensated Absences	1,968,197.00	1,946,723.00	21,474.00
Total Long-Term Liabilities	<u>\$ 31,443,071.07</u>	<u>\$ 41,479,536.53</u>	<u>\$ (10,036,465.46)</u>

For detailed information about long-term liabilities, see Note 6.

Factors Impacting Future Periods

The School is the nation's first public residential high school focused on science, technology, engineering, and math (STEM). The School challenges and inspires talented students from across North Carolina through a residential campus, online programs, summer STEM enrichment programs, and distance offerings for schools and educators.

Discussions about expanding the School's programs to meet growing demand have been ongoing for more than a decade. The School's residential program reached capacity in 2011 due to physical space constraints on the Durham campus. The School has attempted to meet demand by growing enrollment in online programs.

In 2013, the North Carolina General Assembly (NCGA) commissioned a study on the feasibility of expanding the School by establishing a new campus in the western region of the State, specifically in facilities on state-owned land in Morganton, NC. The feasibility study concluded that approximately 300 residential students could be accommodated for an initial capital investment of \$60 million.

In order to address the expansion needs of the School, the NCGA included \$58 million in funding for a Western Campus of the School to be located in Morganton, NC (the NC School for Engineering and Technology) in the Connect NC Bond proposal and an additional capital appropriation of \$15 million. North Carolina voters approved the bond referendum in March 2016. The concept of expanding the School's services to more NC students has also been considered and endorsed in the School's strategic planning process involving trustees, faculty, students, alumni, and others.

The budget of \$73 million incorporates advanced planning, design, construction, testing surveys, and fees. As of January 25, 2018 the School was deeded 62.74 acres along with 10 buildings in Morganton, NC from DPI to be used as the site for constructing the new campus. The projected opening of the Western Campus is Fall 2021.

In addition to the expansion efforts discussed above, the School also continues to make improvements to its Durham campus. In September 2018, the School entered into a financing agreement to fund the installation of energy conservation measures and other related improvements across campus. See Note 18 for additional information.

Management believes that the School is well positioned to continue its level of excellence in service to students, the community, and governmental agencies. The School's ongoing efforts toward maximizing the State's resources with efficiency and effectiveness measures, along with UNC Tomorrow initiatives and the expansion plans for a Western Campus to address the needs of the State will enable it to provide the necessary resources to support this level of excellence.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

- A. Financial Reporting Entity** - The concept underlying the definition of the financial reporting entity is that elected officials are accountable to their constituents for their actions. As required by accounting principles generally accepted in the United States of America (GAAP), the financial reporting entity includes both the primary government and all of its component units. An organization other than a primary government serves as a nucleus for a reporting entity when it issues separate financial statements. The North Carolina School of Science and Mathematics (School) is a constituent institution of the multi-campus University of North Carolina System, which is a component unit of the State of North Carolina and an integral part of the State's *Comprehensive Annual Financial Report*.

The accompanying financial statements present all funds belonging to the School and its component units. While the Board of Governors of the University of North Carolina System has ultimate responsibility, the Chancellor and the Board of Trustees have delegated responsibilities for financial accountability of the School's funds. The School's component units are either blended or discretely presented in the School's financial statements. See below for further discussion of the School's component units. Other related foundations and similar nonprofit corporations for which the School is not financially accountable are not part of the accompanying financial statements.

Blended Component Unit - Although legally separate, NCSSM Student and Constituent Support Services, Inc. (SCSSI), a component unit of the School, is reported as if it were part of the School.

The SCSSI is governed by a seven-member Board of Directors consisting of two ex-officio directors. All directors are employees of the School. The ex-officio directors consist of the Chancellor and the Vice Chancellor for Student Life. The SCSSI's purpose is to receive, administer, and advance funds for the support of student services and program operations of the School. Because the members of the Board of Directors of the SCSSI are employees of the School and the SCSSI's sole purpose is to benefit the School, its financial statements have been blended with those of the School.

Separate financial statements for the SCSSI may be obtained from Terry Lynch, Executive Director, North Carolina School of Science and Mathematics, SCSSI, Post Office Box 2418, Durham, NC 27715-2418, or by calling (919) 416-2801.

Condensed combining information regarding the blended component unit is provided in Note 15.

Discretely Presented Component Unit - The North Carolina School of Science and Mathematics Foundation and Subsidiary (Foundation) is a

legally separate, nonprofit corporation and is reported as a discretely presented component unit based on the nature and significance of its relationship to the School. SSM Holdings, LLC is the wholly owned subsidiary of the Foundation.

The Foundation acts primarily as a fundraising organization to supplement the resources that are available to the School in support of its programs. The Foundation operates exclusively for charitable and education purposes including, but not limited to, receiving, administering, and obtaining funds for the support of the academic and educational programs of the School. The Foundation board consists of 26 members. Although the School does not control the timing or amount of receipts from the Foundation, the majority of resources, or income thereon, that the Foundation holds and invests are restricted to the activities of the School by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of the School, the Foundation is considered a component unit of the School and is reported in separate financial statements because of the difference in its reporting model, as described below.

The Foundation is a private nonprofit organization that reports its financial results under the Financial Accounting Standards Board (FASB) Codification. As such, certain revenue recognition criteria and presentation features are different from the Governmental Accounting Standards Board (GASB) revenue recognition criteria and presentation features. No modifications have been made to the Foundation's financial information in the School's financial reporting entity for these differences.

During the year ended June 30, 2018, the Foundation provided \$1,336,670.27 in support directly to the School and an additional \$716,520.73 on behalf of the School. Payments for program support included both restricted and unrestricted purposes. Complete financial statements for the Foundation can be obtained from Katie Wagstaff, President, North Carolina School of Science and Mathematics Foundation and Subsidiary, Post Office Box 2418, Durham, NC 27715-2418, or by calling (919) 416-2866.

- B. Basis of Presentation** - The accompanying financial statements are presented in accordance with accounting principles generally accepted in the United States of America as prescribed by the GASB.

Pursuant to the provisions of GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, as amended by GASB Statement No. 35, *Basic Financial Statements - and Management's Discussion and Analysis - for Public Colleges and Universities*, the full scope of the School's activities is considered to be a single business-type activity and accordingly, is reported within a single column in the basic financial statements.

- C. Basis of Accounting** - The financial statements of the School have been prepared using the economic resource measurement focus and the

accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred, regardless of the timing of the cash flows.

Nonexchange transactions, in which the School receives (or gives) value without directly giving (or receiving) equal value in exchange, include state appropriations, certain grants, and donations. Revenues are recognized, net of estimated uncollectible amounts, as soon as all eligibility requirements imposed by the provider have been met, if probable of collection.

- D. Cash and Cash Equivalents** - This classification includes undeposited receipts, petty cash, cash on deposit with private bank accounts, and deposits held by the State Treasurer in the Short-Term Investment Fund (STIF). The STIF maintained by the State Treasurer has the general characteristics of a demand deposit account in that participants may deposit and withdraw cash at any time without prior notice or penalty. The School's equity position in the STIF is recorded at fair value. Additional information regarding the fair value measurement of deposits held by the State Treasurer in the STIF is disclosed in Note 3.
- E. Receivables** - Receivables consist of amounts due from former employees and amounts due from the federal government in connection with reimbursement of allowable expenditures made pursuant to contracts and grants. Receivables are considered fully collectible and therefore, no allowance for doubtful accounts is recorded.
- F. Inventories** - Inventories, consisting of expendable supplies and merchandise for resale, are valued at cost using the last invoice cost method.
- G. Capital Assets** - Capital assets are stated at cost at date of acquisition or acquisition value at date of donation in the case of gifts. Donated capital assets acquired prior to July 1, 2015 are stated at fair value as of the date of donation. The value of assets constructed includes all material direct and indirect construction costs.

The School capitalizes assets that have a value or cost of \$5,000 or greater at the date of acquisition and an estimated useful life of more than one year.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets in the following manner:

<u>Asset Class</u>	<u>Estimated Useful Life</u>
Buildings	10-75 years
Machinery & Equipment	2-25 years
General Infrastructure	10-75 years

The art collection is capitalized at cost or acquisition value at the date of donation. This collection is considered inexhaustible and is therefore not depreciated.

- H. **Restricted Assets** - Certain resources are reported as restricted assets because restrictions on asset use change the nature or normal understanding of the availability of the asset. Resources that are not available for current operations and are reported as restricted include resources restricted for the acquisition or construction of capital assets and resources whose use is limited by external parties or statute.
- I. **Noncurrent Long-Term Liabilities** - Noncurrent long-term liabilities include principal amounts of long-term debt and other long-term liabilities that will not be paid within the next fiscal year. Long-term debt includes notes payable. Other long-term liabilities include: compensated absences, net pension liability, and net other postemployment benefits (OPEB) liability.

The net pension liability represents the School's proportionate share of the collective net pension liability reported in the State of North Carolina's 2017 *Comprehensive Annual Financial Report*. This liability represents the School's portion of the collective total pension liability less the fiduciary net position of the Teachers' and State Employees' Retirement System. See Note 11 for further information regarding the School's policies for recognizing liabilities, expenses, deferred outflows of resources, and deferred inflows of resources related to pensions.

The net OPEB liability represents the School's proportionate share of the collective net OPEB liability reported in the State of North Carolina's 2017 *Comprehensive Annual Financial Report*. This liability represents the School's portion of the collective total OPEB liability less the fiduciary net position of the Retiree Health Benefit Fund. See Note 12 for further information regarding the School's policy for recognizing liabilities, expenses, deferred outflows of resources, and deferred inflows of resources related to OPEB.

- J. **Compensated Absences** - The School's policy is to record the cost of vacation leave when earned. The policy provides for a maximum accumulation of unused vacation leave of 30 days which can be carried forward each January 1 or for which an employee can be paid upon termination of employment. When classifying compensated absences into current and noncurrent, leave is considered taken using a last-in, first-out (LIFO) method. Also, any accumulated vacation leave in excess of 30 days at year-end is converted to sick leave. Under this policy, the accumulated vacation leave for each employee at June 30 equals the leave carried forward at the previous December 31 plus the leave earned, less the leave taken between January 1 and June 30.

In addition to the vacation leave described above, compensated absences include the accumulated unused portion of the special annual leave bonuses awarded by the North Carolina General Assembly. The bonus

leave balance on December 31 is retained by employees and transferred into the next calendar year. It is not subject to the limitation on annual leave carried forward described above and is not subject to conversion to sick leave.

There is no liability for unpaid accumulated sick leave because the School has no obligation to pay sick leave upon termination or retirement. However, additional service credit for retirement pension benefits is given for accumulated sick leave upon retirement.

- K. Deferred Outflows/Inflows of Resources** - In addition to assets, the Statement of Net Position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The School has the following items that qualify for reporting in this category: deferred outflows related to pensions and deferred outflows related to other postemployment benefits.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until then. The School has the following items that qualify for reporting in this category: deferred inflows related to pensions and deferred inflows related to other postemployment benefits.

- L. Net Position** - The School's net position is classified as follows:

Net Investment in Capital Assets - This represents the School's total investment in capital assets, net of outstanding liabilities related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.

Restricted Net Position - Expendable - Expendable restricted net position includes resources for which the School is legally or contractually obligated to spend in accordance with restrictions imposed by external parties.

Unrestricted Net Position - Unrestricted net position includes resources derived from student tuition and fees, sales and services, unrestricted gifts, royalties, and interest income. It also includes the net position of accrued employee benefits such as compensated absences, pension plans, and other postemployment benefits.

Restricted and unrestricted resources are tracked using a fund accounting system and are spent in accordance with established fund authorities. Fund authorities provide rules for the fund activity and are separately established for restricted and unrestricted activities. When both restricted and unrestricted funds are available for expenditure, the decision for

funding is transactional based within the departmental management system in place at the School. Both restricted and unrestricted net position include consideration of deferred outflows of resources and deferred inflows of resources. See Note 8 for further information regarding deferred outflows of resources and deferred inflows of resources that had a significant effect on unrestricted net position.

- M. Revenue and Expense Recognition** - The School classifies its revenues and expenses as operating or nonoperating in the accompanying Statement of Revenues, Expenses, and Changes in Net Position. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the School's principal ongoing operations. Operating revenues include activities that have characteristics of exchange transactions, such as student tuition and fees and sales and services. Operating expenses are all expense transactions incurred other than those related to capital and noncapital financing or investing activities as defined by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*.

Nonoperating revenues include activities that have the characteristics of nonexchange transactions. Revenues from nonexchange transactions that represent subsidies or gifts to the School are considered nonoperating since these are either investing, capital, or noncapital financing activities. Capital contributions are presented separately after nonoperating revenues and expenses.

- N. Internal Sales Activities** - Certain institutional sales and services units provide goods and services to School departments, as well as to its customers. These institutional sales and services units include activities such as central stores, copy centers, and postal services. In addition, the School has other miscellaneous sales and service units that operated either on a reimbursement or charge basis. All internal sales activities to School departments from auxiliary operations and sales and service units have been eliminated in the accompanying financial statements. These eliminations are recorded by removing the revenue and expense in the auxiliary operations and sales and service units and, if significant, allocating any residual balances to those departments receiving the goods and services during the year.

NOTE 2 - DEPOSITS AND INVESTMENTS

School - Unless specifically exempt, the School is required by *North Carolina General Statute 147-77* to deposit moneys received with the State Treasurer or with a depository institution in the name of the State Treasurer. However, the University of North Carolina Board of Governors, pursuant to G.S. 116-36.1, may authorize the School to deposit its institutional trust funds in interest-bearing accounts and other investments authorized by the Board of Governors, without regard to any statute or rule of law relating to the investment of funds by fiduciaries. Although specifically exempted, the School may

voluntarily deposit institutional trust funds and special funds with the State Treasurer. Special funds consist of moneys for athletics and agency funds held directly by the School.

At June 30, 2018, the amount shown on the School's Statement of Net Position as cash and cash equivalents includes \$2,386,838.62, which represents the School's equity position in the State Treasurer's Short-Term Investment Fund (STIF). The STIF (a portfolio within the State Treasurer's Investment Pool, an external investment pool that is not registered with the Securities and Exchange Commission or subject to any other regulatory oversight and does not have a credit rating) had a weighted average maturity of 1.4 years as of June 30, 2018. Assets and shares of the STIF are valued at fair value. Deposit and investment risks associated with the State Treasurer's Investment Pool (which includes the State Treasurer's STIF) are included in the North Carolina Department of State Treasurer Investment Programs' separately issued audit report. This separately issued report can be obtained from the Department of State Treasurer, 3200 Atlantic Avenue, Raleigh, NC 27604 or can be accessed from the Department of State Treasurer's website at <https://www.nctreasurer.com> in the Audited Financial Statements section.

Cash on hand at June 30, 2018 was \$600.00. The carrying amount of the School's deposits not with the State Treasurer was \$202,936.67 and the bank balance was \$217,273.99. Custodial credit risk is the risk that in the event of a bank failure, the School's deposits may not be returned to it. The School does not have a deposit policy for custodial credit risk. As of June 30, 2018, the School's bank balance was fully insured by federal depository insurance and was not exposed to custodial credit risk.

Foundation - Investments of the School's discretely presented component unit, the Foundation, are subject to and restricted by G.S. 36E "Uniform Prudent Management of Institutional Funds Act" (UPMIFA) and any requirements placed on them by contract or donor agreements. Because the Foundation reports under the FASB reporting model, disclosures of the various investment risks are not required. The following is an analysis of investments by type:

Investment Type	Fair Value
Short-Term Investment Fund	\$ 3,930,711
UNC Investment Fund	11,991,668
Total Investments	<u>\$ 15,922,379</u>

NOTE 3 - FAIR VALUE MEASUREMENTS

School - To the extent available, the School's investments are recorded at fair value as of June 30, 2018. GASB Statement No. 72, *Fair Value Measurement and Application*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This statement establishes a hierarchy

of valuation inputs based on the extent to which the inputs are observable in the marketplace. Inputs are used in applying the various valuation techniques and take into account the assumptions that market participants use to make valuation decisions. Inputs may include price information, credit data, interest and yield curve data, and other factors specific to the financial instrument. Observable inputs reflect market data obtained from independent sources. In contrast, unobservable inputs reflect the entity's assumptions about how market participants would value the financial instrument. Valuation techniques should maximize the use of observable inputs to the extent available.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used for financial instruments measured at fair value on a recurring basis:

Level 1	Investments whose values are based on quoted prices (unadjusted) for identical assets in active markets that a government can access at the measurement date.
Level 2	Investments with inputs - other than quoted prices included within Level 1 - that are observable for an asset, either directly or indirectly.
Level 3	Investments classified as Level 3 have unobservable inputs for an asset and may require a degree of professional judgment.

Short-Term Investment Fund - At year-end, all of the School's investments valued at \$2,386,838.62 were held in the STIF. Ownership interest of the STIF is determined on a fair market valuation basis as of fiscal year end in accordance with the STIF operating procedures. Valuation of the underlying assets is performed by the custodian. Pool investments are measured at fair value in accordance with GASB 72. The School's position in the pool is measured and reported at fair value and the STIF is not required to be categorized within the fair value hierarchy.

Foundation - Foundation investments with the UNC Investment Fund and STIF, which were valued at \$11,991,668 and \$3,930,711 at June 30, 2018, respectively, are stated at fair value determined in accordance with Topic 820, *Fair Value Measurement*, of the Financial Accounting Standards Board (FASB) Accounting Standards Codification. Guidance provided by the FASB defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with FASB ASU 2015-07, investments that are measured at fair value using the net asset value (NAV) per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. For the year ended June 30, 2018, this includes all investments.

The following table presents redemption features and other related information for the Foundation's investments with the UNC Investment Fund, which are reported at fair value:

Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Monthly and Quarterly	Spending distributions up to 7% of the beginning market value in any fiscal year; complete withdrawals are subject to a 5% holdback pending completion of the fiscal year audit.	30-day notice prior to the 1st day of the month (spending distributions and withdrawals less than \$10 million)

Investment risks associated with the UNC Investment Fund are included in the audited financial statements of the UNC Investment Fund, LLC, which may be obtained from the UNC Chapel Hill Controller's Office, Campus Box 1270, Chapel Hill, NC 27599-1270.

The investments in the STIF have no redemption features limiting the Foundation's ability to fully withdraw its investment. The STIF is similar to a nonexchange traded mutual fund. The underlying securities have readily determinable fair values at the measurement date.

NOTE 4 - CAPITAL ASSETS

A summary of changes in the capital assets for the year ended June 30, 2018, is presented as follows:

	Balance July 1, 2017	Increases	Decreases	Balance June 30, 2018
Capital Assets, Nondepreciable:				
Land	\$ 1,337,173.66	\$ 350,000.00	\$ 0.00	\$ 1,687,173.66
Art	10,092.76			10,092.76
Construction in Progress	2,452,884.58	2,859,929.33	3,551,616.16	1,761,197.75
Total Capital Assets, Nondepreciable	3,800,151.00	3,209,929.33	3,551,616.16	3,458,464.17
Capital Assets, Depreciable:				
Buildings	53,605,755.96	4,421,437.35		58,027,193.31
Machinery and Equipment	2,936,841.51	2,350,879.16		5,287,720.67
General Infrastructure	2,450,236.01	26,306.40		2,476,542.41
Total Capital Assets, Depreciable	58,992,833.48	6,798,622.91		65,791,456.39
Less Accumulated Depreciation for:				
Buildings	18,564,019.34	3,993,764.31		22,557,783.65
Machinery and Equipment	1,363,701.76	195,974.21		1,559,675.97
General Infrastructure	924,716.86	86,025.61		1,010,742.47
Total Accumulated Depreciation	20,852,437.96	4,275,764.13		25,128,202.09
Total Capital Assets, Depreciable, Net	38,140,395.52	2,522,858.78		40,663,254.30
Capital Assets, Net	\$ 41,940,546.52	\$ 5,732,788.11	\$ 3,551,616.16	\$ 44,121,718.47

During the year ended June 30, 2018, the School incurred \$10,675.97 in interest costs related to the acquisition and construction of capital assets, all of which was charged in interest expense.

The School has pledged the energy savings improvements installed in its buildings and other structures financed through the UNC System Guaranteed Energy Savings Installment Financing Agreement (Agreement) dated September 1, 2014. The value of the energy savings improvement assets associated with the Agreement is \$638,430.78 and is subject to security provisions in the Agreement to ensure timely debt service payments. Additional information regarding the Agreement can be found in Note 6.

On November 28, 2017, the School was gifted land and buildings from the North Carolina Department of Public Instruction in connection with the Western Campus project. This transfer represents the entirety of the increase to land shown above. The buildings obtained from this transfer were recorded at their current carrying value which represents \$2,983,150.96 of the increase to buildings and \$2,874,510.96 of the increase to accumulated depreciation for buildings.

NOTE 5 - ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Accounts payable and accrued liabilities at June 30, 2018, were as follows:

	Amount
Accounts Payable and Accrued Liabilities	
Accounts Payable	\$ 350,093.70
Accounts Payable - Capital Assets	103,857.94
Accrued Payroll	164,348.76
Total Accounts Payable and Accrued Liabilities	<u>\$ 618,300.40</u>

NOTE 6 - LONG-TERM LIABILITIES

A. **Changes in Long-Term Liabilities** - A summary of changes in the long-term liabilities for the year ended June 30, 2018, is presented as follows:

	Balance July 1, 2017 (as Restated)	Additions	Reductions	Balance June 30, 2018	Current Portion
Long-Term Debt					
Notes Payable	\$ 627,214.58	\$ 0.00	\$ 98,937.51	\$ 528,277.07	\$ 103,069.76
Capital Leases Payable	5,659.95		5,659.95		
Total Long-Term Debt	<u>632,874.53</u>		<u>104,597.46</u>	<u>528,277.07</u>	<u>103,069.76</u>
Other Long-Term Liabilities					
Compensated Absences	1,946,723.00	1,197,435.00	1,175,961.00	1,968,197.00	97,426.00
Net Pension Liability	6,263,689.00		1,007,122.00	5,256,567.00	
Net Other Postemployment Benefits Liability	32,636,250.00		8,946,220.00	23,690,030.00	
Total Other Long-Term Liabilities	<u>40,846,662.00</u>	<u>1,197,435.00</u>	<u>11,129,303.00</u>	<u>30,914,794.00</u>	<u>97,426.00</u>
Total Long-Term Liabilities	<u>\$ 41,479,536.53</u>	<u>\$ 1,197,435.00</u>	<u>\$ 11,233,900.46</u>	<u>\$ 31,443,071.07</u>	<u>\$ 200,495.76</u>

Additional information regarding the net pension liability is included in Note 11.

Additional information regarding the net other postemployment benefits liability is included in Note 12.

- B. Annual Requirements** - The annual requirements to pay principal and interest on the long-term obligations at June 30, 2018, are as follows:

Fiscal Year	Annual Requirements Notes Payable	
	Principal	Interest
2019	\$ 103,069.76	\$ 9,025.62
2020	107,324.48	7,097.87
2021	111,704.78	5,090.89
2022	116,213.90	3,002.35
2023	89,964.15	829.83
Total Requirements	\$ 528,277.07	\$ 25,046.56

- C. Notes Payable** - The School was indebted for notes payable for the purpose shown in the following table:

Purpose	Financial Institution	Interest Rate	Final Maturity Date	Original Amount of Issue	Principal Paid Through June 30, 2018	Principal Outstanding June 30, 2018
UNC-ESCO Project	Banc of America Public Capital Corp	1.84%	02/14/2023	\$ 746,248.00	\$ 217,970.93	\$ 528,277.07

NOTE 7 - OPERATING LEASE OBLIGATIONS

The School entered into operating leases for equipment and housing. Future minimum lease payments under noncancelable operating leases consist of the following at June 30, 2018:

Fiscal Year	Amount
2019	\$ 73,200.40
2020	66,989.96
2021	54,702.79
2022	53,300.00
Total Minimum Lease Payments	\$ 248,193.15

Rental expense for all operating leases during the year was \$77,733.42.

NOTE 8 - NET POSITION

The deficit in unrestricted net position of \$35,931,989.63 has been significantly affected by transactions that resulted in the recognition of deferred outflows of resources and deferred inflows of resources. A summary of the balances reported within unrestricted net position relating to the reporting of net pension liability and net other postemployment benefits (OPEB) liability, and the related

deferred outflows of resources and deferred inflows of resources is presented as follows:

	TSERS	Retiree Health Benefit Fund	Total
Deferred Outflows Related to Pensions	\$ 2,926,484.32	\$ 0.00	\$ 2,926,484.32
Deferred Outflows Related to OPEB		796,249.00	796,249.00
Noncurrent Liabilities:			
Long-Term Liabilities:			
Net Pension Liability	5,256,567.00		5,256,567.00
Net OPEB Liability		23,690,030.00	23,690,030.00
Deferred Inflows Related to Pensions	179,687.00		179,687.00
Deferred Inflows Related to OPEB		9,193,409.00	9,193,409.00
Net Effect on Unrestricted Net Position	<u>\$ (2,509,769.68)</u>	<u>\$ (32,087,190.00)</u>	<u>\$ (34,596,959.68)</u>

See Notes 11 and 12 for detailed information regarding the amortization of the deferred outflows of resources and deferred inflows of resources relating to pensions and OPEB, respectively.

NOTE 9 - REVENUES

A summary of eliminations by revenue classification is presented as follows:

	Gross Revenues	Internal Sales Eliminations	Net Revenues
Operating Revenues:			
Sales and Services, Net	<u>\$ 293,687.97</u>	<u>\$ 94,232.69</u>	<u>\$ 199,455.28</u>

NOTE 10 - OPERATING EXPENSES BY FUNCTION

The School's operating expenses by functional classification are presented as follows:

	Salaries and Benefits	Supplies and Materials	Services	Utilities	Depreciation	Total
Instruction	\$ 9,988,443.45	\$ 409,600.24	\$ 402,497.68	\$ 0.00	\$ 0.00	\$ 10,800,541.37
Academic Support	292,251.82	33,124.93	35,881.82			361,258.57
Student Services	3,468,443.44	183,098.87	1,460,004.10			5,111,546.41
Institutional Support	4,708,724.77	158,956.59	707,875.33			5,575,556.69
Operations and Maintenance of Plant	1,114,450.46	135,209.29	396,137.44	1,016,218.84		2,662,016.03
Depreciation					1,401,253.17	1,401,253.17
Total Operating Expenses	<u>\$ 19,572,313.94</u>	<u>\$ 919,989.92</u>	<u>\$ 3,002,396.37</u>	<u>\$ 1,016,218.84</u>	<u>\$ 1,401,253.17</u>	<u>\$ 25,912,172.24</u>

NOTE 11 - PENSION PLANS

A. Defined Benefit Plan

Plan Administration: The State of North Carolina administers the Teachers' and State Employees' Retirement System (TSERS) plan. This plan is a cost-sharing, multiple-employer, defined benefit pension plan established by the State to provide pension benefits for general employees and law enforcement officers (LEOs) of the State, general employees and LEOs of its component units, and employees of Local Education Agencies (LEAs) and charter schools not in the reporting entity. Membership is comprised of employees of the State (state agencies and institutions), universities, community colleges, and certain proprietary component units along with the LEAs and charter schools that elect to join the Retirement System. Benefit provisions are established by General Statute 135-5 and may be amended only by the North Carolina General Assembly.

Benefits Provided: TSERS provides retirement and survivor benefits. Retirement benefits are determined as 1.82% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. General employee plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service, at age 60 with 25 years of creditable service, or at any age with 30 years of creditable service. General employee plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of creditable service. Survivor benefits are available to eligible beneficiaries of general members who die while in active service or within 180 days of their last day of service and who also have either completed 20 years of creditable service regardless of age, or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

Contributions: Contribution provisions are established by General Statute 135-8 and may be amended only by the North Carolina General Assembly. Employees are required to contribute 6% of their annual pay. The contribution rate for employers is set each year by the North Carolina General Assembly in the Appropriations Act based on the actuarially-determined rate recommended by the actuary. The School's contractually-required contribution rate for the year ended June 30, 2018 was 10.78% of covered payroll. Employee contributions to the pension plan were \$625,386.78 and the School's contributions were \$1,123,611.58 for the year ended June 30, 2018.

The TSERS plan's financial information, including all information about the plan's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fiduciary net position, is included in the State of North Carolina's fiscal year 2017 *Comprehensive Annual Financial Report*. An

electronic version of this report is available on the North Carolina Office of the State Controller's website at <https://www.osc.nc.gov/> or by calling the State Controller's Financial Reporting Section at (919) 717-0500.

TSERS Basis of Accounting: The financial statements of the TSERS plan were prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan. The plan's fiduciary net position was determined on the same basis used by the pension plan.

Methods Used to Value TSERS Investment: Pursuant to *North Carolina General Statutes*, the State Treasurer is the custodian and administrator of the retirement systems. The State Treasurer maintains various investment portfolios in its External Investment Pool. TSERS and other pension plans of the State of North Carolina are the sole participants in the Long-Term Investment, Fixed Income Investment, Equity Investment, Real Estate Investment, Alternative Investment, Opportunistic Fixed Income Investment, and Inflation Sensitive Investment Portfolios. The Fixed Income Asset Class includes the Long-Term Investment and Fixed Income Investment Portfolios. The Global Equity Asset Class includes the Equity Investment Portfolio. The investment balance of each pension trust fund represents its share of the fair market value of the net position of the various portfolios within the External Investment Pool. Detailed descriptions of the methods and significant assumptions regarding investments of the State Treasurer are provided in the 2017 *Comprehensive Annual Financial Report*.

Net Pension Liability: At June 30, 2018, the School reported a liability of \$5,256,567.00 for its proportionate share of the collective net pension liability. The net pension liability was measured as of June 30, 2017. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2016, and update procedures were used to roll forward the total pension liability to June 30, 2017. The School's proportion of the net pension liability was based on the present value of future salaries for the School relative to the present value of future salaries for all participating employers, actuarially-determined. As of June 30, 2017, the School's proportion was 0.06625%, which was a decrease of 0.00190 from its proportion measured as of June 30, 2016, which was 0.06815%.

Actuarial Assumptions: The following table presents the actuarial assumptions used to determine the total pension liability for the TSERS plan at the actuarial valuation date:

Valuation Date	12/31/2016
Inflation	3%
Salary Increases*	3.50% - 8.10%
Investment Rate of Return**	7.20%

* Salary increases include 3.5% inflation and productivity factor.

** Investment rate of return includes inflation assumption and is net of pension plan investment expense.

TSERS currently uses mortality tables that vary by age, gender, employee group (i.e. teacher, general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2016 valuations were based on the results of an actuarial experience review for the period January 1, 2010 through December 31, 2014.

Future ad hoc Cost of Living Adjustment amounts are not considered to be substantively automatic and are therefore not included in the measurement.

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2017 (the valuation date) are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return
Fixed Income	1.4%
Global Equity	5.3%
Real Estate	4.3%
Alternatives	8.9%
Opportunistic Fixed Income	6.0%
Inflation Sensitive	4.0%

The information in the preceding table is based on 30-year expectations developed with the consulting actuary and is part of the asset, liability, and investment policy of the North Carolina Retirement Systems. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.05%. Return projections do not include any excess return expectations over benchmark averages. All rates of return and inflation are annualized. The long-term expected real rate of return for the Bond Index Investment Pool as of June 30, 2017 is 1.3%.

Discount Rate: The discount rate used to measure the total pension liability was lowered from 7.25% to 7.20% for the December 31, 2016 valuation. The discount rate is in line with the long-term nominal expected return on pension plan investments. The calculation of the net pension liability is a present value calculation of the future net pension payments. These net pension payments assume that contributions from plan members will be made at the current statutory contribution rate and that contributions from employers will be made at the contractually required rates, actuarially determined. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate: The following presents the net pension liability of the plan at June 30, 2017, calculated using the discount rate of 7.20%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.20%) or 1-percentage point higher (8.20%) than the current rate:

Net Pension Liability		
1% Decrease (6.20%)	Current Discount Rate (7.20%)	1% Increase (8.20%)
\$ 10,820,191.15	\$ 5,256,567.00	\$ 594,959.45

Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: For the year ended June 30, 2018, the School recognized pension expense of \$1,524,132.00. At June 30, 2018, the School reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Employer Balances of Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions by Classification:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference Between Actual and Expected Experience	\$ 113,953.00	\$ 171,970.00
Changes of Assumptions	830,458.32	
Net Difference Between Projected and Actual Earnings on Plan Investments	711,392.00	
Change in Proportion and Differences Between Employer's Contributions and Proportionate Share of Contributions	147,069.00	7,717.00
Contributions Subsequent to the Measurement Date	1,123,612.00	
Total	\$ 2,926,484.32	\$ 179,687.00

The amount of \$1,123,612.00 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be included as a reduction of the net pension liability in the fiscal year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Schedule of the Net Amount of the Employer's Balances of Deferred Outflows of Resources and Deferred Inflows of Resources That will be Recognized in Pension Expense:

Year Ended June 30:	Amount
2019	\$ 383,840.32
2020	1,034,624.00
2021	489,428.00
2022	(284,707.00)
Total	\$ 1,623,185.32

- B. Defined Contribution Plan - The Optional Retirement Program (ORP)** is a defined contribution pension plan that provides retirement benefits with options for payments to beneficiaries in the event of the participant's death. Faculty and staff of the School may join ORP instead of the TSERS. The Board of Governors of the University of North Carolina is responsible for the administration of ORP and designates the companies authorized to offer investment products or the trustee responsible for the investment of contributions under the Program and approves the form and contents of the contracts and trust agreements.

Participants in ORP are immediately vested in the value of employee contributions. The value of employer contributions is vested after five years of participation in ORP. Participants become eligible to receive distributions when they terminate employment or retire.

Participant eligibility and contributory requirements are established by General Statute 135-5.1. Member and employer contribution rates are set each year by the North Carolina General Assembly. For the year ended June 30, 2018, these rates were set at 6% of covered payroll for members and 6.84% of covered payroll for employers. The School assumes no liability other than its contribution.

For the current fiscal year, the School had a total payroll of \$13,161,136.39 of which \$2,738,023.36 was covered under ORP. Total employee and employer contributions for pension benefits for the year were \$164,281.40 and \$187,280.80, respectively. The amount of pension expense recognized in the current year related to ORP is equal to the employer contributions.

NOTE 12 - OTHER POSTEMPLOYMENT BENEFITS

The School participates in two postemployment benefit plans, the Retiree Health Benefit Fund and the Disability Income Plan of North Carolina, that are administered by the State of North Carolina as pension and other employee benefit trust funds. Each plan's financial information, including all information about the plans' assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fiduciary net position, is included in the State of North Carolina's fiscal year 2017 *Comprehensive Annual Financial Report*. An electronic version of this report is available on the North Carolina Office of the State Controller's website at <https://www.osc.nc.gov/> or by calling the State Controller's Financial Reporting Section at (919) 707-0500.

A. Summary of Significant Accounting Policies and Plan Asset Matters

Basis of Accounting: The financial statements of these plans were prepared using the accrual basis of accounting. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits are recognized when due and payable in accordance with the terms of each plan. The fiduciary net position of each plan was determined using the same basis as the other postemployment benefit (OPEB) plans.

Methods Used to Value Plan Investments: Pursuant to *North Carolina General Statutes*, the State Treasurer is the custodian and administrator of the other postemployment benefits funds. The State Treasurer maintains various investment portfolios in its External Investment Pool. The Retiree Health Benefit Fund participates in the External Investment Pool. The Disability Income Plan of North Carolina is invested in the Short-Term Investment Portfolio of the External Investment Pool and the Bond Index External Investment Pool. The investment balance of each

other employee benefit trust fund represents its share of the fair market value of the net position of the various portfolios within the pool. Detailed descriptions of the methods and significant assumptions regarding investments of the State Treasurer are provided in the 2017 *Comprehensive Annual Financial Report*.

B. Plan Descriptions

1. Health Benefits

Plan Administration: The State of North Carolina administers the North Carolina State Health Plan for Teachers and State Employees, referred to as the State Health Plan (the Plan), a healthcare plan exclusively for the benefit of employees of the State, the University of North Carolina System, community colleges, and certain other component units. In addition, Local Education Agencies (LEAs), charter schools, and some select local governments that are not part of the State's financial reporting entity also participate. Health benefit programs and premium rates are determined by the State Treasurer upon approval of the Plan Board of Trustees.

The Retiree Health Benefit Fund (RHBF) has been established as a fund to provide health benefits to retired and disabled employees and their applicable beneficiaries. RHBF is established by General Statute 135-7, Article 1. RHBF is a cost-sharing, multiple-employer, defined benefit healthcare plan, exclusively for the benefit of eligible former employees of the State, the University of North Carolina System, and community colleges. In addition, LEAs, charter schools, and some select local governments that are not part of the State's financial reporting entity also participate.

By statute, RHBF is administered by the Board of Trustees of the Teachers' and State Employees' Retirement System (TSERS). RHBF is supported by a percent of payroll contribution from participating employing units. Each year the percentage is set in legislation, as are the maximum per retiree contributions from RHBF to the Plan. The State Treasurer, with the approval of the Plan Board of Trustees, then sets the employer contributions (subject to the legislative cap) and the premiums to be paid by retirees, as well as the health benefits to be provided through the Plan.

Benefits Provided: Plan benefits received by retired employees and disabled employees from RHBF are OPEB. The healthcare benefits for retired and disabled employees who are not eligible for Medicare are the same as for active employees as described in Note 13. The plan options change when former employees become eligible for Medicare. Medicare retirees have the option of selecting one of two fully-insured Medicare Advantage/Prescription Drug Plan options or the self-funded Traditional 70/30 Preferred Provider Organization plan option that is also offered to non-Medicare members. If the Traditional

70/30 Plan is selected by a Medicare retiree, the self-funded State Health Plan coverage is secondary to Medicare.

Those former employees who are eligible to receive medical benefits from RHBF are long-term disability beneficiaries of the Disability Income Plan of North Carolina and retirees of TSERS, the Consolidated Judicial Retirement System, the Legislative Retirement System, the University Employees' Optional Retirement Program (ORP), and a small number of local governments, with five or more years of contributory membership service in their retirement system prior to disability or retirement, with the following exceptions: for employees first hired on or after October 1, 2006, and members of the General Assembly first taking office on or after February 1, 2007, future coverage as retired employees and retired members of the General Assembly is subject to the requirement that the future retiree have 20 or more years of retirement service credit in order to receive coverage on a noncontributory basis. Employees first hired on or after October 1, 2006 and members of the General Assembly first taking office on or after February 1, 2007 with 10 but less than 20 years of retirement service credit are eligible for coverage on a partially contributory basis. For such future retirees, the State will pay 50% of the State Health Plan's total noncontributory premium.

The Plan's and RHBF's benefit and contribution provisions are established by Chapter 135-7, Article 1, and Chapter 135, Article 3B of the General Statutes and may be amended only by the North Carolina General Assembly. RHBF does not provide for automatic post-retirement benefit increases.

Contributions: Contribution rates to RHBF, which are intended to finance benefits and administrative expenses on a pay-as-you-go basis, are determined by the General Assembly in the Appropriations Bill. The School's contractually-required contribution rate for the year ended June 30, 2018 was 6.05% of covered payroll. The School's contributions to the RHBF were \$796,248.75 for the year ended June 30, 2018.

2. Disability Income

Plan Administration: As discussed in Note 13, short-term and long-term disability benefits are provided through the Disability Income Plan of North Carolina (DIPNC), a cost-sharing, multiple-employer defined benefit plan, to the eligible members of TSERS which includes employees of the State, the University of North Carolina System, community colleges, certain participating component units, LEAs which are not part of the reporting entity, and the University Employees' ORP. By statute, DIPNC is administered by the Department of State Treasurer and the Board of Trustees of TSERS.

Benefits Provided: Long-term disability benefits are payable as an OPEB from DIPNC after the conclusion of the short-term disability

period or after salary continuation payments cease, whichever is later, for as long as an employee is disabled. An employee is eligible to receive long-term disability benefits provided the following requirements are met: (1) the employee has five or more years of contributing membership service in TSERS or the University Employees' ORP, earned within 96 months prior to the end of the short-term disability period or cessation of salary continuation payments, whichever is later; (2) the employee must make application to receive long-term benefits within 180 days after the conclusion of the short-term disability period or after salary continuation payments cease or after monthly payments for Workers' Compensation cease (excluding monthly payments for permanent partial benefits), whichever is later; (3) the employee must be certified by the Medical Board to be mentally or physically disabled for the further performance of his/her usual occupation; (4) the disability must have been continuous, likely to be permanent, and incurred at the time of active employment; (5) the employee must not be eligible to receive an unreduced retirement benefit from TSERS; and (6) the employee must terminate employment as a permanent, full-time employee. An employee is eligible to receive an unreduced retirement benefit from TSERS after (1) reaching the age of 65 and completing five years of membership service, or (2) reaching the age of 60 and completing 25 years of creditable service, or (3) completing 30 years of creditable service, at any age.

For employees who had five or more years of membership service as of July 31, 2007, during the first 36 months of the long-term disability period, the monthly long-term disability benefit is equal to 65% of one-twelfth of an employee's annual base rate of compensation last payable to the participant or beneficiary prior to the beginning of the short-term disability period, plus the like percentage of one-twelfth of the annual longevity payment and local supplements to which the participant or beneficiary would be eligible. The monthly benefits are subject to a maximum of \$3,900 per month reduced by any primary Social Security disability benefits and by monthly payments for Workers' Compensation to which the participant or beneficiary may be entitled, but the benefits payable shall be no less than \$10 a month. After the first 36 months of the long-term disability, the long-term benefit is calculated in the same manner as described above except the monthly benefit is reduced by an amount equal to a monthly primary Social Security disability benefit to which the participant or beneficiary might be entitled had Social Security disability benefits been awarded. When an employee qualifies for an unreduced service retirement allowance from TSERS, the benefits payable from DIPNC will cease, and the employee will commence retirement under TSERS or the University Employees' ORP.

For employees who had less than five years of membership service as of July 31, 2007, and meet the requirements for long-term disability on or after August 1, 2007, during the first 36 months of the long-term disability period, the monthly long-term benefit shall be reduced by an

amount equal to the monthly primary Social Security retirement benefit to which the employee might be entitled should the employee become age 62 during the first 36 months. This reduction becomes effective as of the first day of the month following the month of initial entitlement to Social Security benefits. After the first 36 months of the long-term disability, no further benefits are payable under the terms of this section unless the employee has been approved and is in receipt of primary Social Security disability benefits.

Contributions: Although DIPNC operates on a calendar year, disability income benefits are funded by actuarially determined employer contributions that are established in the Appropriations Bill by the General Assembly and coincide with the State's fiscal year. The School's contractually-required contribution rate for the year ended June 30, 2018 was 0.14% of covered payroll. The School's contributions to DIPNC were \$18,425.59 for the year ended June 30, 2018.

C. Net OPEB Liability (Asset)

Net OPEB Liability: At June 30, 2018, the School reported a liability of \$23,690,030.00 for its proportionate share of the collective net OPEB liability for RHBF. The net OPEB liability was measured as of June 30, 2017. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2016, and update procedures were used to roll forward the total OPEB liability to June 30, 2017. The School's proportion of the net OPEB liability was based on the present value of future salaries for the School relative to the present value of future salaries for all participating employers, actuarially-determined. As of June 30, 2017, the School's proportion was 0.07226%, which was a decrease of 0.00276 from its proportion measured as of June 30, 2016, which was 0.07502%.

Net OPEB Asset: At June 30, 2018, the School reported an asset of \$45,993.00 for its proportionate share of the collective net OPEB asset for DIPNC. The net OPEB asset was measured as of June 30, 2017. The total OPEB asset used to calculate the net OPEB asset was determined by an actuarial valuation as of December 31, 2016, and update procedures were used to roll forward the total OPEB asset to June 30, 2017. The School's proportion of the net OPEB asset was based on the present value of future salaries for the School relative to the present value of future salaries for all participating employers, actuarially-determined. As of June 30, 2017, the School's proportion was 0.07525%, which was a decrease of 0.00211 from its proportion measured as of June 30, 2016, which was 0.07736%.

Actuarial Assumptions: The total OPEB liabilities (assets) for RHBF and DIPNC were determined by actuarial valuations as of December 31, 2016, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified. The total OPEB liabilities

(assets) were then rolled forward to June 30, 2017 utilizing update procedures incorporating the actuarial assumptions.

	Retiree Health Benefit Fund	Disability Income Plan of N.C.
Valuation Date	12/31/2016	12/31/2016
Inflation	2.75%	3.00%
Salary Increases*	3.50% - 8.10%	3.50% - 8.10%
Investment Rate of Return**	7.20%	3.75%
Healthcare Cost Trend Rate - Medical	5.00% - 6.50%	N/A
Healthcare Cost Trend Rate - Prescription Drug	5.00% - 7.25%	N/A
Healthcare Cost Trend Rate - Medicare Advantage	4.00% - 5.00%	N/A
Healthcare Cost Trend Rate - Administrative	3.00%	N/A

* Salary increases include 3.5% inflation and productivity factor.

** Investment rate of return is net of pension plan investment expense, including inflation.

N/A - Not Applicable

The OPEB plans currently use mortality tables that vary by age, gender, employee group (i.e. teacher, general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The projected long-term investment returns and inflation assumptions are developed through a review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projects are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. DIPNC is primarily invested in the Bond Index Investment Pool as of June 30, 2017.

Best estimates of real rates of return for each major asset class included in RHBF's target asset allocation as of June 30, 2017 (the valuation date) are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return
Fixed Income	1.4%
Global Equity	5.3%
Real Estate	4.3%
Alternatives	8.9%
Opportunistic Fixed Income	6.0%
Inflation Sensitive	4.0%

The information in the preceding table is based on 30-year expectations developed with the consulting actuary and is part of the asset, liability, and investment policy of the North Carolina Retirement Systems. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.05%. Return projections do not include any excess return expectations over benchmark averages. All rates of return and inflation are annualized. The long-term expected real rate of return for the Bond Index Investment Pool as of June 30, 2017 is 1.3%.

Actuarial valuations of the plans involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

The actuarial assumptions used for RHBF are consistent with those used to value the pension benefits of TSERS where appropriate. These assumptions are based on the most recent pension valuations available. The discount rate used for RHBF reflects a pay-as-you-go approach.

Projections of benefits for financial reporting purposes of the plans are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and historical pattern of sharing of benefit costs between the employer and plan members to that point. Historically, the benefits funded solely by employer contributions applied equally to all retirees. Currently, as described earlier in the note, benefits are dependent on membership requirements.

The actuarial methods and assumptions used for DIPNC include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The actuarial assumptions used in the December 31, 2016 valuations were based on the results of an actuarial experience study prepared as of December 31, 2014.

Discount Rate: The discount rate used to measure the total OPEB liability for RHBF was 3.58%. The projection of cash flows used to determine the discount rate assumed that contributions from employers will be made at the current statutorily determined contribution rate. Based on the above assumptions, the plan's fiduciary net position was not projected to be available to make projected future benefit payments of current plan members. As a result, a municipal bond rate of 3.58% was used as the discount rate used to measure the total OPEB liability. The 3.58% rate is

based on the Bond Buyer 20-year General Obligation Index as of June 30, 2017.

The discount rate used to measure the total OPEB asset for DIPNC was 3.75%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total OPEB asset.

Sensitivity of the Net OPEB Liability (Asset) to Changes in the Discount Rate: The following presents the School's proportionate share of the net OPEB liability (asset) of the plans, as well as what the plans' net OPEB liability (asset) would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current discount rate:

Net OPEB Liability (Asset)					
	1% Decrease (2.58%)		Current Discount Rate (3.58%)		1% Increase (4.58%)
RHBF	\$ 28,262,735.86	\$	23,690,030.00	\$	20,066,067.28
	1% Decrease (2.75%)		Current Discount Rate (3.75%)		1% Increase (4.75%)
DIPNC	\$ (39,100.65)	\$	(45,993.00)	\$	(52,900.75)

Sensitivity of the Net OPEB Liability (Asset) to Changes in the Healthcare Cost Trend Rates: The following presents the net OPEB liability (asset) of the plans, as well as what the plans' net OPEB liability (asset) would be if it were calculated using healthcare cost trend rates that are 1-percentage point lower or 1-percentage point higher than the current healthcare cost trend rates:

	1% Decrease (Medical - 4.00 - 5.50%, Pharmacy - 4.00 - 6.25%, Med. Advantage - 3.00 - 4.00%, Administrative - 2.00%)	Current Healthcare Cost Trend Rates (Medical - 5.00 - 6.50%, Pharmacy - 5.00 - 7.25%, Med. Advantage - 4.00 - 5.00%, Administrative - 3.00%)	1% Increase (Medical - 6.00 - 7.50%, Pharmacy - 6.00 - 8.25%, Med. Advantage - 5.00 - 6.00%, Administrative - 4.00%)
RHBF Net OPEB Liability	\$ 19,353,867.66	\$ 23,690,030.00	\$ 29,457,035.41
DIPNC Net OPEB Asset	N/A	N/A	N/A

Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB: For the year ended June 30, 2018, the School recognized OPEB expense of \$982,147.00 for RHBF and \$25,198.00 for DIPNC. At June 30, 2018, the School reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Employer Balances of Deferred Outflows of Resources
Related to OPEB by Classification:

	RHBF	DIPNC	Total
Differences Between Actual and Expected Experience	\$ 0.00	\$ 12,610.00	\$ 12,610.00
Changes of Assumptions			
Net Difference Between Projected and Actual Earnings on Plan Investments		10,081.00	10,081.00
Changes in Proportion and Differences Between Employer's Contributions and Proportionate Share of Contributions		2,287.00	2,287.00
Contributions Subsequent to the Measurement Date	796,249.00	18,426.00	814,675.00
Total	\$ 796,249.00	\$ 43,404.00	\$ 839,653.00

Employer Balances of Deferred Inflows of Resources
Related to OPEB by Classification:

	RHBF	DIPNC	Total
Differences Between Actual and Expected Experience	\$ 1,698,619.00	\$ 0.00	\$ 1,698,619.00
Changes of Assumptions	6,524,126.00		6,524,126.00
Net Difference Between Projected and Actual Earnings on Plan Investments	8,804.00		8,804.00
Changes in Proportion and Differences Between Employer's Contributions and Proportionate Share of Contributions	961,860.00		961,860.00
Total	\$ 9,193,409.00	\$ 0.00	\$ 9,193,409.00

Amounts reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability related to RHBF and an increase of the net OPEB asset related to DIPNC in the fiscal year ended June 30, 2019. Other amounts reported as deferred outflows of resources

and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Schedule of the Net Amount of the Employer's Balances of Deferred Outflows of Resources and Deferred Inflows of Resources That will be Recognized in OPEB Expense:

<u>Year Ended June 30:</u>	<u>RHBF</u>	<u>DIPNC</u>
2019	\$ (1,839,122.00)	\$ 7,487.00
2020	(1,839,122.00)	7,487.00
2021	(1,839,122.00)	7,485.00
2022	(1,839,122.00)	2,519.00
2023	(1,836,921.00)	
Total	<u>\$ (9,193,409.00)</u>	<u>\$ 24,978.00</u>

NOTE 13 - RISK MANAGEMENT

The School is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These exposures to loss are handled via a combination of methods, including participation in state-administered insurance programs, purchase of commercial insurance, and self-retention of certain risks. There have been no significant reductions in insurance coverage from the previous year and settled claims have not exceeded coverage in any of the past three fiscal years.

A. Employee Benefit Plans

1. State Health Plan

School employees are provided comprehensive major medical care benefits. Coverage is funded by contributions to the State Health Plan (Plan), a discretely presented component unit of the State of North Carolina. The Plan is funded by employer contributions. Certain plans also require contributions from employees. The Plan has contracted with third parties to process claims. See Note 12, Other Postemployment Benefits, for additional information regarding retiree health benefits.

2. Death Benefit Plan of North Carolina

Term life insurance (death benefits) of \$25,000 to \$50,000 is provided to eligible workers. This Death Benefit Plan is administered by the State Treasurer and funded via employer contributions. The employer contribution rate was 0.16% for the current fiscal year.

3. Disability Income Plan

Short-term and long-term disability benefits are provided to School employees through the Disability Income Plan of North Carolina (DIPNC), part of the State's Pension and Other Employee Benefit Trust Funds. Short-term benefits are paid by the School up to the first six months of benefits and reimbursed by DIPNC for any additional short-term benefits. As discussed in Note 12, long-term disability benefits are payable as other postemployment benefits from DIPNC after the conclusion of the short-term disability period or after salary continuation payments cease, whichever is later, for as long as an employee is disabled.

B. Other Risk Management and Insurance Activities

1. Automobile, Fire, and Other Property Losses

The School is required to maintain fire and lightning coverage on all state-owned buildings and contents through the State Property Fire Insurance Fund (Fund), an internal service fund of the State. Such coverage is provided at no cost to the School for operations supported by the State's General Fund. Other operations not supported by the State's General Fund are charged for the coverage. Losses covered by the Fund are subject to a \$5,000 per occurrence deductible. However, some agencies have chosen a higher deductible for a reduction in premium.

All state-owned vehicles are covered by liability insurance through a private insurance company and handled by the North Carolina Department of Insurance. The liability limits for losses are \$1,000,000 per claim and \$10,000,000 per occurrence. The School pays premiums to the North Carolina Department of Insurance for the coverage.

2. Public Officers' and Employees' Liability Insurance

The risk of tort claims of up to \$1,000,000 per claimant is retained under the authority of the State Tort Claims Act. In addition, the State provides excess public officers' and employees' liability insurance up to \$10,000,000 via contract with a private insurance company. The School pays the premium, based on a composite rate, directly to the private insurer.

3. Employee Dishonesty and Computer Fraud

The School is protected for losses from employee dishonesty and computer fraud. This coverage is with a private insurance company and is handled by the North Carolina Department of Insurance. The School is charged a premium by the private insurance company. Coverage limit is \$5,000,000 per occurrence. The private insurance company pays 90% of each loss less a \$100,000 deductible.

4. Statewide Workers' Compensation Program

The North Carolina Workers' Compensation Program provides benefits to workers injured on the job. All employees of the State and its component units are included in the program. When an employee is injured, the School's primary responsibility is to arrange for and provide the necessary treatment for work related injury. The School is responsible for paying medical benefits and compensation in accordance with the North Carolina Workers' Compensation Act. The School retains the risk for workers' compensation.

Additional details on the state-administered risk management programs are disclosed in the State's *Comprehensive Annual Financial Report*, issued by the Office of the State Controller.

NOTE 14 - COMMITMENTS

The School has established an encumbrance system to track its outstanding commitments on purchases. Outstanding commitments on purchases were \$784,464.70 at June 30, 2018.

NOTE 15 - BLENDED COMPONENT UNIT

Condensed combining information for the School's blended component unit for the year ended June 30, 2018, is presented as follows:

*Condensed Statement of Net Position
June 30, 2018*

NOTE 16 - CHANGES IN FINANCIAL ACCOUNTING AND REPORTING

For the fiscal year ended June 30, 2018, the School implemented the following pronouncements issued by the Governmental Accounting Standards Board (GASB):

GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions

GASB Statement No. 85, Omnibus 2017

GASB Statement No. 75 improves accounting and financial reporting requirements by state and local governments for postemployment benefits other than pensions (OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This Statement replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, for OPEB. In addition, this Statement details the recognition and disclosure requirements for employers with payables to defined benefit OPEB plans that are administered through trusts that meet the specified criteria and for employers whose employees are provided with defined contribution OPEB.

GASB Statement No. 85 addresses practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and OPEB).

NOTE 17 - NET POSITION RESTATEMENT

As of July 1, 2017, net position as previously reported was restated as follows:

	Amount
July 1, 2017 Net Position as Previously Reported	\$ 39,304,938.34
Restatement:	
Record the School's Net OPEB Asset and Liability and OPEB Related Deferred Outflows and Inflows of Resources Per GASB 75 Requirements.	(31,805,123.00)
July 1, 2017 Net Position as Restated	<u>\$ 7,499,815.34</u>

NOTE 18 - SUBSEQUENT EVENT

On September 18, 2018, the School entered into a financing agreement with Banc of America Public Capital Corp in the amount of \$2,523,616.00. Funds from this agreement will be used to purchase and install energy conservation measures across the School's campus.

Changes of assumptions. In 2015, the actuarial assumptions were updated to more closely reflect actual experience. In 2015, the North Carolina Retirement Systems' consulting actuaries performed the quinquennial investigation of each retirement systems' actual demographic and economic experience (known as the "Experience Review"). The Experience Review provides the basis for selecting the actuarial assumptions and methods used to determine plan liabilities and funding requirements. The most recent Experience Review examined each plan's experience during the period between January 1, 2010, and December 31, 2014. Based on the findings, the Board of Trustees of the Teachers' and State Employees' Retirement System adopted a number of new actuarial assumptions and methods. The most notable changes to the assumptions include updates to the mortality tables and the mortality improvement projection scales to reflect reduced rates of mortality and significant increases in mortality improvements. These assumptions were adjusted to reflect the mortality projection scale MP-2015, released by the Society of Actuaries in 2015. In addition, the assumed rates of retirement, salary increases, and rates of termination from active employment were reduced to more closely reflect actual experience. The discount rate for Teachers' and State Employees' Retirement System was lowered from 7.25% to 7.20% for the December 31, 2016 valuation.

The Board of Trustees also adopted a new asset valuation method for the Teachers' and State Employees' Retirement System. For determining plan funding requirements, these plans now use a five-year smoothing method with a reset of the actuarial value of assets to market value as of December 31, 2014.

Cost-Sharing, Multiple-Employer, Defined Benefit OPEB Plans
Last Ten Fiscal Years

Changes of Benefit Terms: Effective January 1, 2016, benefit terms related to copays, out-of-pocket maximums, and deductibles were changed for three of four options of the Retiree Health Benefit Fund. Most of the changes were an increase in the amount from the previous year.

Effective January 1, 2017, benefit terms related to copays, coinsurance maximums, out-of-pocket maximums, and deductibles were changed for two of four options of the Retiree Health Benefit Fund. Most of the changes were an increase in the amount from the previous year.

Method and Assumptions Used in Calculations of Actuarially Determined Contributions: An actuarial valuation is performed for each plan each year. The actuarially determined contribution rates in the Schedule of Employer Contributions are calculated by the actuary as a projection of the required employer contribution for the fiscal year beginning six months following the date of the valuation results for the Retiree Health Benefit Fund. The actuarially determined contribution rates in the Schedule of Employer Contributions are calculated by the actuary as a projection of the required employer contribution for the fiscal year beginning 18 months following the date of the valuation results for the Disability Income Plan of North Carolina. See Note 12 for more information on the specific assumptions for each plan. The actuarially determined contributions for those items with covered payroll were determined using the actuarially determined contribution rate from the actuary and covered payroll as adjusted for timing differences and other factors such as differences in employee class. Other actuarially determined contributions are disclosed in the schedule as expressed by the actuary in reports to the plans.

Changes of assumptions: In 2015, the North Carolina Retirement Systems' consulting actuaries performed the quinquennial investigation of each retirement system's actual demographic and economic experience (known as the "Experience Review"). The Experience Review provides the basis for selecting the actuarial assumptions and methods used to determine plan liabilities and funding requirements. The most recent experience review examined each plan's experience during the period between January 1, 2010, and December 31, 2014. Based on the findings, the Boards of Trustees of the Teachers' and State Employees' Retirement System and the State Health Plan adopted a number of new actuarial assumptions and methods for the Retiree Health Benefit Fund and the Disability Income Plan of North Carolina. The most notable changes to the assumptions include updates to the mortality tables and the mortality improvement projection scales to reflect reduced rates of mortality and significant increases in mortality improvements. These assumptions were adjusted to reflect the mortality projection scale MP-2015, released by the Society of Actuaries in 2015. In addition, the assumed rates of retirement and rates of termination from active employment were reduced to more closely reflect actual experience.

In 2017, the medical and prescription health trend rates used in the December 31, 2016 actuarial valuation of the Retiree Health Benefit Fund were reduced based upon the plan's most recent experience.

The Notes to Required Supplementary Information reflects information included in the State of North Carolina's 2017 *Comprehensive Annual Financial Report*.

**INDEPENDENT AUDITOR'S REPORT
ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Board of Trustees
North Carolina School of Science and Mathematics
Durham, North Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the North Carolina School of Science and Mathematics (School), a constituent institution of the multi-campus University of North Carolina System, which is a component unit of the State of North Carolina, and its discretely presented component unit, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the School's basic financial statements, and have issued our report thereon dated February 26, 2019. Our report includes a reference to other auditors who audited the financial statements of the North Carolina School of Science and Mathematics Foundation and Subsidiary (Foundation), the School's discretely presented component unit, as described in our report on the School's financial statements. The financial statements of the Foundation were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with the Foundation.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, we do not express an opinion on the effectiveness of the School's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable

possibility that a material misstatement of the School's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
