AUDITOR'S TRANSMITTAL

The Honorable Roy Cooper, Governor
The General Assembly of North Carolina
Board of Trustees, Nash Community College

We have completed a financial statement audit of Nash Community College for the year ended June 30, 2019, and our audit results are included in this report. You will note from the independent auditor's report that we determined that the financial statements are presented fairly in all material respects.

The results of our tests disclosed no deficiencies in internal control over financial reporting that we consider to be material weaknesses in relation to our audit scope or any instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

North Carolina General Statutes require the State Auditor to make audit reports available to the public. Copies of audit reports issued by the Office of the State Auditor may be obtained through one of the options listed in the back of this report.

A handwritten signature in black ink that reads "Beth A. Wood".

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Nash Community College
Rocky Mount, North Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of Nash Community College (College), a component unit of the State of North Carolina, and its discretely presented component unit, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of Nash Community College Foundation, Inc., the College's discretely presented component unit. Those statements were audited by other auditors, whose report has been furnished to us, and our opinions, insofar as they relate to the amounts included for Nash Community College Foundation, Inc., are based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of Nash Community College Foundation, Inc. were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the College's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances,

but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of Nash Community College, and its discretely presented component unit, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters – Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and other required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 12, 2019 on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

Beth A. Wood, CPA
State Auditor

Raleigh, North Carolina

December 12, 2019

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of Nash Community College's financial statements presents Management's Discussion and Analysis of the College's financial activity during the fiscal years ended June 30, 2019 and June 30, 2018. This Management's Discussion and Analysis focuses on current activities, resulting changes, and currently known facts. Please read it in conjunction with the College's basic financial statements and the notes to the financial statements.

Using This Annual Report

The financial statements focus on the College as a whole. The College's basic financial statements are designed to emulate corporate presentation models whereby all College activities are consolidated into one total. The Statement of Net Position is similar to bottom line results for the College, combining and consolidating current financial resources with capital assets. The Statement of Revenues, Expenses, and Changes in Net Position focuses on both the gross and the net costs of College activities, which are supported by state funds, county appropriations, and other revenues. This approach summarizes and simplifies the user's analysis of costs of various College services to students and the public. The Statement of Cash Flows provides detail on the College's cash activity for the year. The direct method is used to present cash flows. The Notes to the Financial Statements provide additional information that is essential to a full understanding of the data provided.

The financial statements also include a Statement of Financial Position, Statement of Activities, and certain note disclosures for the College's discretely presented component unit, the Nash Community College Foundation, Inc. (Foundation); however, the Foundation is not included in management's discussion and analysis. More information describing the relationship between the College and Foundation can be found in Note 1A.

Financial Highlights

Statement of Net Position

The Statement of Net Position provides information regarding the College's assets, liabilities, deferred inflows and outflows of resources, and net position as of June 30, 2019.

Total Net Position	\$ (2,050,593.45)	\$ (2,031,973.32)	\$ (18,620.13)

*Other Postemployment Benefits

The total assets recorded by the College as of June 30, 2019 were \$38.3 million. Current assets decreased by \$143 thousand which was largely related to reduced bookstore credits receivable from vendors for book returns.

As of June 30, 2019, the College had recorded \$1.9 million in nondepreciable capital assets, \$51.9 million in depreciable capital assets, \$18.4 million in accumulated depreciation, totaling \$35.4 million in net capital assets. Nondepreciable capital assets decreased by \$4.6 million related to the completion and capitalization of the Cosmetology and Advanced Manufacturing buildings. Depreciable capital assets increased by \$5.5 million. This change is the result of the capitalization of the two new buildings totaling \$4.8 million, machinery and equipment additions of \$750 thousand, and asset disposals of \$107 thousand. Annual depreciation totaled \$1.5 million. The additions of machinery and equipment include machinery purchased from a \$250 thousand Golden Leaf Foundation grant for advanced manufacturing equipment, donated machinery and equipment totaling \$83 thousand, and equipment for the new Veterinary Medical Technology program funded through a \$137 thousand grant from the Tobacco Trust Fund Commission.

Changes in deferred outflows related to pensions and other postemployment benefits (OPEB), long-term liabilities, and deferred inflows related to pensions and OPEB are a result of the College's participation in the Teachers' and State Employees' Retirement System, Disability Income Plan of North Carolina, and Retiree Health Benefit Fund and changes in the actuarial valuations for these plans. Further information about the plans can be found in Notes 12 and 13 (Pension Plans and Other Postemployment Benefits, respectively).

Current liabilities decreased by \$397 thousand due to a \$239 thousand decrease in accounts payable and accrued liabilities and a \$195 thousand decrease in the current portion of long-term liabilities. The decrease in the current portion of long-term liabilities for compensated absences is due to fewer retirees in the current year which reduced the amount of leave taken. The accounts payable and accrued liabilities decrease is due to accrued payables related to the construction of the new Cosmetology and Advanced Manufacturing buildings in the previous year.

Statement of Revenues, Expenses, and Changes in Net Position

The Statement of Revenues, Expenses, and Changes in Net Position provides information regarding the College's activities for the year ended June 30, 2019.

Condensed Financial Statements Statement of Revenues, Expenses, and Changes in Net Position

	2019	2018	Increase/ (Decrease)
Operating Revenues and Expenses:			
Total Operating Revenues	\$ 4,934,425.47	\$ 4,738,271.34	\$ 196,154.13

Increase (Decrease) in Net Position	(18,620.13)	1,785,090.71	(1,803,710.84)
Net Position, July 1	(2,031,973.32)	(3,817,064.03)	1,785,090.71
Net Position, June 30	\$ (2,050,593.45)	\$ (2,031,973.32)	\$ (18,620.13)
Reconciliation of Change in Net Position			
Total Revenues	\$ 30,669,329.25	\$ 32,592,437.55	\$ (1,923,108.30)
Less: Total Expenses	30,687,949.38	30,807,346.84	(119,397.46)
Increase (Decrease) in Net Position	\$ (18,620.13)	\$ 1,785,090.71	\$ (1,803,710.84)

Operating revenues for the fiscal year ended June 30, 2019 increased by \$196 thousand. Student tuition and fees increased by \$203 thousand because of increased curriculum and continuing education enrollment. State and local grants and contracts decreased by approximately \$106 thousand due to grants that ended in the prior year. Sales and services revenue increased by \$92 thousand related to the campus bookstore sales. The following table charts operating revenues by source.

	2019	2018	Increase/ (Decrease)
Student Tuition and Fees, Net	\$ 3,091,375.65	\$ 2,888,018.85	\$ 203,356.80
Federal Grants and Contracts	48,658.59	41,601.03	7,057.56
State and Local Grants and Contracts	127,636.59	234,096.87	(106,460.28)
Sales and Services, Net	1,645,044.64	1,552,864.59	92,180.05
Other Operating Revenues	21,710.00	21,690.00	20.00
Total Operating Revenues	\$ 4,934,425.47	\$ 4,738,271.34	\$ 196,154.13

Total operating expenses for the fiscal year ended June 30, 2019 were \$30.7 million, a decrease of \$119 thousand over the prior year. Salaries and benefits decreased by \$1.3 million related to a decrease in OPEB and pension expense recognized during this fiscal year as compared to the previous year. These expenses are due to the implementation of Governmental Accounting Standards Board (GASB) Statement No. 68 in fiscal year 2015 and GASB 75 in fiscal year 2018. Supplies and materials increased by \$860 thousand due to the completion of several building renovation, roof replacement, and HVAC replacement projects funded through Connect NC bond funds. Scholarships and fellowships increased by \$86 thousand due to additional student scholarships funded through the Nash Community College Foundation, Inc., the North Carolina Community College grant, and Project Skill-Up. Depreciation expense increased by \$172 thousand mostly due to the capitalization of two new campus buildings during the 2019 fiscal year.

	2019	2018	Increase/ (Decrease)
Salaries and Benefits	\$ 19,841,164.21	\$ 21,136,894.27	\$ (1,295,730.06)
Supplies and Materials	4,145,861.57	3,285,458.24	860,403.33
Services	2,318,211.29	2,277,290.81	40,920.48
Scholarships and Fellowships	2,251,294.97	2,165,727.79	85,567.18
Utilities	658,594.32	641,291.57	17,302.75
Depreciation	1,472,823.02	1,300,684.16	172,138.86
Total Operating Expenses	\$ 30,687,949.38	\$ 30,807,346.84	\$ (119,397.46)

Total nonoperating revenues for the fiscal year ended June 30, 2019 increased by \$260 thousand. State aid decreased by \$263 thousand, due predominantly to a decrease in special funding allocations received in the prior year related to Hurricane Matthew. County appropriations increased by \$105 thousand, due to approval for another full-time maintenance position and increased utilities due to additional buildings capitalized in fiscal year 2019. Noncapital grants related to federal student financial aid decreased by \$199 thousand related to a reduction in Pell awards. There has been a decrease in the number of students eligible for Pell Grants, as many students have reached their lifetime Pell award due to a recent change in federal regulations. Other noncapital grants increased by \$590 thousand due to increased nonoperating grant revenue, specifically from federal pass-through funds. Capital aid, gifts, and grants decreased by \$2.4 million due to funds received in the previous fiscal year from Connect NC bond funds for the construction of the new Cosmetology and Advanced Manufacturing buildings.

Additional Information

On March 15, 2016, the State of North Carolina voted to issue \$2 billion in general obligation bonds of the State for the purpose of providing funds to update the State's public facilities for the 21st century. Funds are to be used for the construction and furnishing of new facilities, and the repair and renovation of existing facilities, to enhance the economic development efforts of the State, and attract new and assist existing industry, business, technology, and tourism for the benefit of the State and its citizens. The College was allotted \$7.7 million of the Connect NC bond funds. During the summer of 2018, construction was completed on two new buildings that house the Advanced Manufacturing and Cosmetology instructional programs. Construction cost totaled \$4.8 million. The Advanced Manufacturing facility, totaling approximately 16,000 square-feet, provides academic and training space for students enrolled in Computer-Integrated Machining, Electrical Systems Technology, Industrial Systems Technology, and Electronics Engineering Technology programs. The Cosmetology building, totaling approximately 10,000 square-feet, includes instructional salon lab areas, academic classrooms, lab instructional areas for manicure and pedicure, and general program support spaces. Other completed projects include HVAC replacements (\$597 thousand), building and classroom renovations (\$897 thousand), roof replacements (\$430 thousand), and a Fire and EMS Program vehicle shelter (\$43 thousand). Current projects include a building addition for additional clinical and instructional areas for the Veterinary Medical Technology program (\$470 thousand) and a HVAC control system platform replacement for Buildings A, B, and D (\$350 thousand).

Nash Community College has been awarded a Duke Energy Workforce Development Grant for \$100 thousand to enhance the Electric Line Construction Technology program offerings. Equipment funded by the grant will ensure the program continues to provide high-quality training opportunities, resulting in highly qualified program graduates. The new equipment provided by the grant will allow the College to launch a night academy for the Electric Line Construction Technology program providing greater availability for underemployed individuals to prepare for a career.

The Cannon Foundation awarded \$150 thousand to Nash Community College for the College's new Associate of Applied Science degree in Veterinary Medical Technology (VMT) program to purchase instructional supplies and equipment. The program began in the fall 2018 semester as one of only six VMT programs offered in North Carolina and this region of the state. The curriculum is designed to prepare individuals to assist veterinarians in preparing animals, equipment, and medications for examination and surgery; collecting specimens; performing laboratory, radiographic, anesthetic, and dental procedures; assisting in surgery; and providing proper husbandry of animals and their environment. Graduates may be employed in veterinary clinics, diagnostic, research, or pharmaceutical laboratories, zoos, academic institutions, and other areas associated with animal care. Additionally, the College signed an agreement with Martin Community College which allows the shared use of College facilities and instructional resources and supports the transition of Martin Community College Equine Technology graduates into Nash Community College's Veterinary Medical Technology program. Nash Community College students will gain hands-on experience with large animals through Martin Community College's Equine Technology program, and Martin Community College students will benefit from specific Veterinary Medical Technology programming.

Nash Community College launched a new Associate of Applied Science program in the Broadcasting Production Technology program in the fall 2018 semester. The program focuses on audio and video editing, broadcast writing, radio production and performance, video

production and performance, live broadcast production, post-production, and modern media delivery methods. Students learn broadcasting fundamentals through hands-on learning, gaining experience in contemporary studio operations, script and broadcast writing, performance in media, broadcast/media history, methodology, sales, and ethics. The Nash Community College Broadcasting Production Technology program will prepare students for employment as announcers, music directors, news staff, promotions and sales representatives, station managers, broadcast editors, camera operators, field audio engineers, associate producers, control engineers, production managers, floor directors, multimedia producers, effects operations, and other broadcast technician duties.

Nash Community College also recently launched a new Associate in Engineering degree program. Students who complete the program have the opportunity to transfer to four-year engineering technology programs at East Carolina University, North Carolina State University, North Carolina A&T, UNC-Charlotte, and Western Carolina University.

The accompanying notes to the financial statements are an integral part of this statement.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

- A. Financial Reporting Entity** - The concept underlying the definition of the financial reporting entity is that elected officials are accountable to their constituents for their actions. As required by accounting principles generally accepted in the United States of America (GAAP), the financial reporting entity includes both the primary government and all of its component units. An organization other than a primary government serves as a nucleus for a reporting entity when it issues separate financial statements. Nash Community College (College) is a component unit of the State of North Carolina and an integral part of the State's *Comprehensive Annual Financial Report*.

The accompanying financial statements present all funds of the College and its component unit for which the College's Board of Trustees is financially accountable. The College's component unit is discretely presented in the College's financial statements. See below for further discussion of the College's component unit. Other related foundations and similar nonprofit corporations for which the College is not financially accountable are not part of the accompanying financial statements.

Discretely Presented Component Unit - Nash Community College Foundation, Inc. (Foundation) is a legally separate, tax exempt nonprofit corporation and is reported as a discretely presented component unit based on the nature and significance of its relationship to the College.

The Foundation acts primarily as a fundraising organization to supplement the resources that are available to the College in support of its programs. The bylaws of the Foundation indicate the Board of Directors shall consist of no fewer than 20 and no more than 35 members. As of June 30, 2019, the Foundation board consisted of 22 members. Although the College does not control the timing or amount of receipts from the Foundation, the majority of resources, or income thereon, that the Foundation holds and invests are restricted to the activities of the College by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of the College, the Foundation is considered a component unit of the College and is reported in separate financial statements because of the difference in its reporting model, as described below.

The Foundation is a private nonprofit organization that reports its financial results under the Financial Accounting Standards Board (FASB) Codification. As such, certain revenue recognition criteria and presentation features are different from the Governmental Accounting Standards Board (GASB) revenue recognition criteria and presentation features. No modifications have been made to the Foundation's financial information in the College's financial reporting entity for these differences.

During the year ended June 30, 2019, the Foundation distributed \$454,891.37 to the College for both restricted and unrestricted purposes. Complete financial statements for the Foundation can be obtained from

Nash Community College Foundation, Inc., 522 North Old Carriage Road, Rocky Mount, North Carolina 27804 or by calling (252) 451-8329.

- B. Basis of Presentation** - The accompanying financial statements are presented in accordance with accounting principles generally accepted in the United States of America as prescribed by the GASB.

Pursuant to the provisions of GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, as amended by GASB Statement No. 35, *Basic Financial Statements - and Management's Discussion and Analysis - for Public Colleges and Universities*, the full scope of the College's activities is considered to be a single business-type activity and accordingly, is reported within a single column in the basic financial statements.

- C. Basis of Accounting** - The financial statements of the College have been prepared using the economic resource measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred, regardless of the timing of the cash flows.

Nonexchange transactions, in which the College receives (or gives) value without directly giving (or receiving) equal value in exchange, include state aid, certain grants, and donations. Revenues are recognized, net of estimated uncollectible amounts, as soon as all eligibility requirements imposed by the provider have been met, if probable of collection.

- D. Cash and Cash Equivalents** - This classification includes petty cash, cash on deposit with private bank accounts, and deposits held by the State Treasurer in the Short-Term Investment Fund (STIF). The STIF maintained by the State Treasurer has the general characteristics of a demand deposit account in that participants may deposit and withdraw cash at any time without prior notice or penalty.
- E. Investments** - This classification includes a mutual fund holding by the College through the North Carolina Capital Management Trust. Investments in the Trust are recorded at the net asset value (NAV) per share. Additional information regarding the fair value measurement of investments is disclosed in Note 3. Because of the inherent uncertainty in the use of estimates, values that are based on estimates may differ from the values that would have been used had a ready market existed for the investments. The net change in the value of investments is recognized as a component of investment income.
- F. Receivables** - Receivables consist of tuition and fees charged to students and charges for auxiliary enterprises' sales and services. Receivables also include amounts due from the federal government, state and local governments, and private sources in connection with reimbursement of allowable expenditures made pursuant to contracts and grants. Receivables are recorded net of estimated uncollectible amounts.

- G. Inventories** - Inventories, consisting of expendable supplies, are valued at cost using the first-in, first-out method. Merchandise for resale is valued at the average cost inventory method.
- H. Capital Assets** - Capital assets are stated at cost at date of acquisition or acquisition value at date of donation in the case of gifts. Donated capital assets acquired prior to July 1, 2015 are stated at fair value as of the date of donation. The value of assets constructed includes all material direct and indirect construction costs. Interest costs incurred are capitalized during the period of construction.

The College capitalizes assets that have a value or cost of \$5,000 or greater at the date of acquisition and an estimated useful life of more than one year.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets in the following manner:

<u>Asset Class</u>	<u>Estimated Useful Life</u>
Buildings	10-100 years
Machinery and Equipment	2-30 years
General Infrastructure	10-75 years

- I. Restricted Assets** - Certain resources are reported as restricted assets because restrictions on asset use change the nature or normal understanding of the availability of the asset. Resources that are not available for current operations and are reported as restricted include resources restricted for the acquisition or construction of capital assets, resources whose use is limited by external parties or statute, and restricted investments.
- J. Noncurrent Long-Term Liabilities** - Noncurrent long-term liabilities include long-term liabilities that will not be paid within the next fiscal year. Long-term liabilities include: compensated absences, net pension liability, and net other postemployment benefits (OPEB) liability.

The net pension liability represents the College's proportionate share of the collective net pension liability reported in the State of North Carolina's 2018 *Comprehensive Annual Financial Report*. This liability represents the College's portion of the collective total pension liability less the fiduciary net position of the Teachers' and State Employees' Retirement System. See Note 12 for further information regarding the College's policies for recognizing liabilities, expenses, deferred outflows of resources, and deferred inflows of resources related to pensions

The net OPEB liability represents the College's proportionate share of the collective net OPEB liability reported in the State of North Carolina's 2018 *Comprehensive Annual Financial Report*. This liability represents the College's portion of the collective total OPEB liability less the fiduciary net position of the Retiree Health Benefit Fund. See Note 13 for further

information regarding the College's policies for recognizing liabilities, expenses, deferred outflows of resources, and deferred inflows of resources related to OPEB.

- K. Compensated Absences** - The College's policy is to record the cost of vacation leave when earned. The policy provides for a maximum accumulation of unused vacation leave of 30 days which can be carried forward each July 1 or for which an employee can be paid upon termination of employment. When classifying compensated absences into current and noncurrent, leave is considered taken using a last-in, first-out (LIFO) method. Also, any accumulated vacation leave in excess of 30 days at year-end is converted to sick leave. Under this policy, the accumulated vacation leave for each employee at June 30 equals the leave carried forward at the previous June 30 plus the leave earned, less the leave taken between July 1 and June 30.

In addition to the vacation leave described above, compensated absences include the accumulated unused portion of the special annual leave bonuses awarded by the North Carolina General Assembly. The bonus leave balance on June 30 is retained by employees and transferred into the next calendar year. It is not subject to the limitation on annual leave carried forward described above and is not subject to conversion to sick leave.

There is no liability for unpaid accumulated sick leave because the College has no obligation to pay sick leave upon termination or retirement. However, additional service credit for retirement pension benefits is given for accumulated sick leave upon retirement.

- L. Deferred Outflows/Inflows of Resources** - In addition to assets, the Statement of Net Position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The College has the following items that qualify for reporting in this category: deferred outflows related to pensions and deferred outflows related to other postemployment benefits.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then. The College has the following items that qualify for reporting in this category: deferred inflows related to pensions and deferred inflows related to other postemployment benefits.

- M. Net Position** - The College's net position is classified as follows:

Net Investment in Capital Assets - This represents the College's total investment in capital assets, net of outstanding liabilities related to those capital assets.

Restricted Net Position - Expendable - Expendable restricted net position includes resources for which the College is legally or contractually obligated to spend in accordance with restrictions imposed by external parties.

Unrestricted Net Position - Unrestricted net position includes resources derived from student tuition and fees, sales and services, unrestricted gifts, and interest income. It also includes the net position of accrued employee benefits such as compensated absences, pension plans, and other postemployment benefits.

Restricted and unrestricted resources are tracked using a fund accounting system and are spent in accordance with established fund authorities. Fund authorities provide rules for the fund activity and are separately established for restricted and unrestricted activities. When both restricted and unrestricted funds are available for expenditure, the decision for funding is transactional based within the departmental management system in place at the College. Both restricted and unrestricted net position include consideration of deferred outflows of resources and deferred inflows of resources. See Note 9 for further information regarding deferred outflows of resources and deferred inflows of resources that had a significant effect on unrestricted net position.

- N. Scholarship Discounts** - Student tuition and fees revenues and certain other revenues from College charges are reported net of scholarship discounts in the accompanying Statement of Revenues, Expenses, and Changes in Net Position. The scholarship discount is the difference between the actual charge for goods and services provided by the College and the amount that is paid by students or by third parties on the students' behalf. Student financial assistance grants, such as Pell grants, and other federal, state, or nongovernmental programs, are recorded as nonoperating revenues in the accompanying Statement of Revenues, Expenses, and Changes in Net Position. To the extent that revenues from these programs are used to satisfy tuition, fees, and other charges, the College has recorded a scholarship discount.
- O. Revenue and Expense Recognition** - The College classifies its revenues and expenses as operating or nonoperating in the accompanying Statement of Revenues, Expenses, and Changes in Net Position. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the College's principal ongoing operations. Operating revenues include activities that have characteristics of exchange transactions, such as (1) student tuition and fees, (2) sales and services of auxiliary enterprises, and (3) certain federal, state, and local grants and contracts. Operating expenses are all expense transactions incurred other than those related to capital and noncapital financing or investing activities as defined by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*.

Nonoperating revenues include activities that have the characteristics of nonexchange transactions. Revenues from nonexchange transactions that represent subsidies or gifts to the College, as well as investment income, are considered nonoperating since these are either investing, capital, or noncapital financing activities. Capital contributions are presented separately after nonoperating revenues and expenses.

- P. Internal Sales Activities** - Certain institutional auxiliary operations provide goods and services to College departments, as well as to its customers. These institutional auxiliary operations include activities such as the bookstore. In addition, the College has other miscellaneous sales and service units that operated either on a reimbursement or charge basis. All internal sales activities to College departments from auxiliary operations and sales and service units have been eliminated in the accompanying financial statements. These eliminations are recorded by removing the revenue and expense in the auxiliary operations and sales and service units and, if significant, allocating any residual balances to those departments receiving the goods and services during the year.
- Q. County Appropriations** - County appropriations are provided to the College primarily to fund its plant operation and maintenance function and to fund construction projects, motor vehicle purchases, and maintenance of equipment. Unexpended county current appropriations and county capital appropriations do not revert and are available for future use by the College.

NOTE 2 - DEPOSITS AND INVESTMENTS

- A. Deposits** - The College is required by *North Carolina General Statute 147-77* to deposit any funds collected or received that belong to the State of North Carolina with the State Treasurer or with a depository institution in the name of the State Treasurer. All funds of the College, other than those required to be deposited with the State Treasurer, are deposited in board-designated official depositories and are required to be collateralized in accordance with *North Carolina General Statute 115D-58.7*. Official depositories may be established with any bank, savings and loan association, or trust company whose principal office is located in North Carolina. Also, the College may establish time deposit accounts, money market accounts, and certificates of deposit. Cash on hand at June 30, 2019 was \$3,890.00. The carrying amount of the College's deposits not with the State Treasurer was \$313,452.81, and the bank balance was \$819,607.83.

The North Carolina Administrative Code (20 NCAC 7) requires all depositories to collateralize public deposits in excess of federal depository insurance coverage by using one of two methods, dedicated or pooled. Under the dedicated method, a separate escrow account is established by each depository in the name of each local governmental unit and the responsibility of monitoring collateralization rests with the local unit. Under the pooling method, each depository establishes an escrow account in the

name of the State Treasurer to secure all of its public deposits. This method shifts the monitoring responsibility from the local unit to the State Treasurer.

Custodial credit risk is the risk that in the event of a bank failure, the College's deposits may not be returned to it. As of June 30, 2019, the College's bank balance in excess of federal depository insurance coverage was covered under the pooling method.

B. Investments

College - The College is authorized to invest idle funds as provided by G.S. 115D-58.6. In accordance with this statute, the College and the Board of Trustees manage investments to ensure they can be converted into cash when needed.

Generally, funds belonging to the College may be invested in any form of investment established or managed by certain investment advisors pursuant to G.S. 115D-58.6(d1) or in the form of investments pursuant to G.S. 159-30(c), as follows: a commingled investment pool established and administered by the State Treasurer pursuant to G.S. 147-69.3 (STIF); obligations of or fully guaranteed by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain nonguaranteed federal agencies; prime quality commercial paper bearing specified ratings; specified bills of exchange; certain savings certificates; The North Carolina Capital Management Trust, an SEC registered mutual fund; repurchase agreements; and evidences of ownership of, or fractional undivided interests in, future interest and principal payments on either direct obligations of or fully guaranteed by the United States government, which are held by a specified bank or trust company or any state in the capacity of custodian.

At June 30, 2019, the amount shown on the Statement of Net Position as cash and cash equivalents includes \$1,018,684.14, which represents the College's equity position in the State Treasurer's Short-Term Investment Fund (STIF). The STIF (a portfolio within the State Treasurer's Investment Pool, an external investment pool that is not registered with the Securities and Exchange Commission or subject to any other regulatory oversight and does not have a credit rating) had a weighted average maturity of 1.3 years as of June 30, 2019. Assets and shares of the STIF are valued at fair value. Deposit and investment risks associated with the State Treasurer's Investment Pool (which includes the State Treasurer's STIF) are included in the North Carolina Department of State Treasurer Investment Programs' separately issued audit report. This separately issued report can be obtained from the Department of State Treasurer, 3200 Atlantic Avenue, Raleigh, NC 27604 or can be accessed from the Department of State Treasurer's website at <https://www.nctreasurer.com/> in the Audited Financial Statements section.

At June 30, 2019, the College's investment outside of the STIF consisted of \$22,655.70 in the North Carolina Capital Management Trust Fund (NCCMT), an SEC registered mutual fund. This investment is subject to the following risks:

Interest Rate Risk: Interest rate risk is defined by GASB Statement No. 40, *Deposit and Investment Risk Disclosures – An Amendment of GASB Statement No. 3*, as the risk a government may face should interest rate variances affect the fair value of investments. The College does not have a formal investment policy that addresses interest rate risk. The NCCMT had a maturity of one year or less at June 30, 2019.

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The College does not have a formal policy that addresses credit risk. As of June 30, 2019, the NCCMT carried a credit rating of AAA by Standard & Poor's.

Component Unit - Investments of the College's discretely presented component unit, the Foundation, are subject to and restricted by G.S. 36E "Uniform Prudent Management of Institutional Funds Act" (UPMIFA) and any requirements placed on them by contract or donor agreements. Because the Foundation reports under the FASB reporting model, disclosures of the various investment risks are not required. The following is an analysis of investments by type:

Investment Type	Amount
Cash and Money Market Funds	\$ 162,029
Domestic Equity Mutual Funds	2,920,035
Fixed Income Mutual Funds	2,766,740
International Equity Mutual Funds	299,156
Total Investments	\$ 6,147,960

NOTE 3 - FAIR VALUE MEASUREMENTS

College - To the extent available, the College's investments are recorded at fair value as of June 30, 2019. GASB Statement No. 72, *Fair Value Measurement and Application*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This statement establishes a hierarchy of valuation inputs based on the extent to which the inputs are observable in the marketplace. Inputs are used in applying the various valuation techniques and take into account the assumptions that market participants use to make valuation decisions. Inputs may include price information, credit data, interest and yield curve data, and other factors specific to the financial instrument. Observable inputs reflect market data obtained from independent sources. In contrast, unobservable inputs reflect the entity's assumptions about how market participants would value the financial instrument. Valuation techniques should maximize the use of observable inputs to the extent available.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used for financial instruments measured at fair value on a recurring basis:

Level 1	Investments whose values are based on quoted prices (unadjusted) for identical assets in active markets that a government can access at the measurement date.
Level 2	Investments with inputs – other than quoted prices included within Level 1 – that are observable for an asset, either directly or indirectly.
Level 3	Investments classified as Level 3 have unobservable inputs and may require a degree of professional judgment.

Short-Term Investment Fund - At year-end, the College's investments held in the STIF were valued at \$1,018,684.14. Ownership interests of the STIF are determined on a fair market valuation basis as of fiscal year end in accordance with the STIF operating procedures. Valuation of the underlying assets is performed by the custodian. Pool investments are measured at fair value in accordance with GASB 72. The College's position in the pool is measured and reported at fair value and the STIF is not required to be categorized within the fair value hierarchy.

North Carolina Capital Management Trust - This fund seeks to obtain as high a level of current income as is consistent with the preservation of capital and liquidity and to maintain a constant NAV of \$1.00 per share. Management of the fund normally invests at least 99.5% of the fund's total in cash, U.S. government securities, and/or repurchase agreements that are fully collateralized. At year-end, the College's investments held in the NCCMT were valued at \$22,655.70. The College's investment is measured and reported at NAV and therefore not required to be categorized within the fair value hierarchy.

Component Unit - In accordance with guidance on fair value measurements for financial statements measured at fair value, fair value is defined as the price that the Foundation would receive to sell an investment or pay to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market, the most advantageous market for the investment or liability. The fair value guidance establishes a three-tier hierarchy to distinguish between 1) inputs that reflect the assumptions that market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the reported entity (observable inputs), and 2) inputs that reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the fair value of the Foundation's financial statements. The inputs are summarized in the three broad levels listed below:

- Level 1: Quoted prices (unadjusted) in active markets for identical securities and liabilities the Foundation has access to on the measurement date. The quoted prices provide the most reliable evidence, except when a significant event occurs that may affect the fair value measurement. Level 1 assets include fixed income mutual funds, equity mutual funds, and money market funds.
- Level 2: Quoted prices for similar assets and liabilities in active markets; and inputs other than quoted prices that are observable, such as models or other valuation methodologies. Valuations in this category are inherently less reliable than quoted market prices due to the degree of subjectivity involved in determining appropriate methodologies and the applicable underlying assumptions. The Foundation has no Level 2 investments.
- Level 3: Unobservable inputs for the valuation of the asset or liability. Level 3 assets include investments for which there is little, if any, market activity. These inputs require significant management judgement or estimation. These financial instruments have inputs that cannot be validated by readily determinable market data and generally involve considerable judgement by management. The Foundation has no Level 3 investments.

At June 30, 2019, the Foundation reported the following investment assets:

	Fair Value Measurements at June 30, 2019 Using			Total
	Level 1	Level 2	Level 3	
Cash and Money Market Funds	\$ 162,029	\$ 0	\$ 0	\$ 162,029
Domestic Equity Mutual Funds	2,920,035			2,920,035
Fixed Income Mutual Funds	2,766,740			2,766,740
International Equity Mutual Funds	299,156			299,156
Total Investments at Fair Value	\$ 6,147,960	\$ 0	\$ 0	\$ 6,147,960

Professional investment advisors manage the investments with periodic review by the Foundation's management and Board of Directors. This group does not believe these investments pose unusual market or credit risks.

NOTE 4 - RECEIVABLES

Receivables at June 30, 2019, were as follows:

	Gross Receivables	Less Allowance for Doubtful Accounts	Net Receivables
Receivables:			
Students	\$ 543,653.26	\$ 74,131.18	\$ 469,522.08
Student Sponsors	241,048.43		241,048.43
Private/Grants	18,867.71		18,867.71
Employee	4,072.24		4,072.24
Intergovernmental	87,656.48		87,656.48
Vendor	58,746.61		58,746.61
Other	81.00		81.00
Total Receivables	<u>\$ 954,125.73</u>	<u>\$ 74,131.18</u>	<u>\$ 879,994.55</u>

NOTE 5 - CAPITAL ASSETS

A summary of changes in the capital assets for the year ended June 30, 2019, is presented as follows:

	Balance July 1, 2018	Increases	Decreases	Balance June 30, 2019
Capital Assets, Nondepreciable:				
Land	\$ 1,845,937.70	\$ 0.00	\$ 0.00	\$ 1,845,937.70
Construction in Progress	4,636,860.13	280,321.28	4,833,688.25	83,493.16
Total Capital Assets, Nondepreciable	<u>6,482,797.83</u>	<u>280,321.28</u>	<u>4,833,688.25</u>	<u>1,929,430.86</u>
Capital Assets, Depreciable:				
Buildings	34,373,730.95	4,813,603.30		39,187,334.25
Machinery and Equipment	8,938,810.91	749,867.17	107,339.59	9,581,338.49
General Infrastructure	3,165,722.12			3,165,722.12
Total Capital Assets, Depreciable	<u>46,478,263.98</u>	<u>5,563,470.47</u>	<u>107,339.59</u>	<u>51,934,394.86</u>
Less Accumulated Depreciation for:				
Buildings	11,924,355.20	934,691.52		12,859,046.72
Machinery and Equipment	3,385,768.66	481,747.10	103,505.33	3,764,010.43
General Infrastructure	1,766,071.82	56,384.40		1,822,456.22
Total Accumulated Depreciation	<u>17,076,195.68</u>	<u>1,472,823.02</u>	<u>103,505.33</u>	<u>18,445,513.37</u>
Total Capital Assets, Depreciable, Net	<u>29,402,068.30</u>	<u>4,090,647.45</u>	<u>3,834.26</u>	<u>33,488,881.49</u>
Capital Assets, Net	<u>\$ 35,884,866.13</u>	<u>\$ 4,370,968.73</u>	<u>\$ 4,837,522.51</u>	<u>\$ 35,418,312.35</u>

NOTE 6 - ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Accounts payable and accrued liabilities at June 30, 2019, were as follows:

	Amount
Accounts Payable and Accrued Liabilities:	
Accounts Payable	\$ 347,967.32
Accounts Payable - Capital Assets	9,743.75
Accrued Payroll	293,256.83
Other	8,765.20
Total Accounts Payable and Accrued Liabilities	\$ 659,733.10

NOTE 7 - LONG-TERM LIABILITIES

A. Changes in Long-Term Liabilities - A summary of changes in the long-term liabilities for the year ended June 30, 2019, is presented as follows:

	Balance July 1, 2018	Additions	Reductions	Balance June 30, 2019	Current Portion
Long-Term Debt					
Capital Lease Payable	\$ 124,571.46	\$ 0.00	\$ 62,285.73	\$ 62,285.73	\$ 62,285.73
Other Long-Term Liabilities					
Compensated Absences	1,505,732.84	1,537,383.99	1,287,209.67	1,755,907.16	208,426.19
Net Pension Liability	7,726,559.00	1,246,864.00		8,973,423.00	
Net Other Postemployment Benefits Liability	25,818,414.00		2,742,078.00	23,076,336.00	
Total Other Long-Term Liabilities	35,050,705.84	2,784,247.99	4,029,287.67	33,805,666.16	208,426.19
Total Long-Term Liabilities	\$ 35,175,277.30	\$ 2,784,247.99	\$ 4,091,573.40	\$ 33,867,951.89	\$ 270,711.92

Additional information regarding capital lease obligations is included in Note 8.

Additional information regarding the net pension liability is included in Note 12.

Additional information regarding the net other postemployment benefits liability is included in Note 13.

B. Terms of Debt Agreement - The College's debt agreement is subject to the following collateral requirements and terms with finance-related consequences:

Capital Lease Payable - On March 1, 2018 the College entered into a capital lease with Dell Financial Services to finance data processing equipment. Lease terms call for a 36-month capital lease with advance annual lease payments, and a \$1.00 purchase option at the end of the lease. No collateral was pledged, but the lease agreement contains an event of default provision that if the College is unable to make any payment when due, the leased equipment would revert back to the lessor.

NOTE 8 - LEASE OBLIGATIONS

- A. Capital Lease Obligations** - Capital lease obligations relating to the Data Center equipment are recorded at the present value of the minimum lease payments. Future minimum lease payments under capital lease obligations consist of the following at June 30, 2019:

<u>Fiscal Year</u>	<u>Amount</u>
2020	\$ 65,605.02
Amount Representing Interest (13.82% Rate of Interest)	<u>3,319.29</u>
Present Value of Future Lease Payments	<u>\$ 62,285.73</u>

Machinery and equipment acquired under the capital lease amounted to \$176,227.17 at June 30, 2019.

Depreciation for the capital assets associated with capital leases is included in depreciation expense, and accumulated depreciation for assets acquired under capital lease totaled \$44,056.80 at June 30, 2019.

- B. Operating Lease Obligations** - The College entered into operating leases for a phone system and copiers. Future minimum lease payments under noncancelable operating leases consist of the following at June 30, 2019:

<u>Fiscal Year</u>	<u>Amount</u>
2020	\$ 82,872.00
2021	<u>16,445.46</u>
Total Minimum Lease Payments	<u>\$ 99,317.46</u>

Rental expense for all operating leases during the year was \$116,426.57.

NOTE 9 - NET POSITION

The deficit in unrestricted net position of \$38,011,514.68 has been significantly affected by transactions that resulted in the recognition of deferred outflows of resources and deferred inflows of resources. A summary of the balances reported within unrestricted net position relating to the reporting of net pension liability and net other postemployment benefits (OPEB) liability, and the related deferred outflows of resources and deferred inflows of resources is presented as follows:

NOTES TO THE FINANCIAL STATEMENTS

	TSERS	Retiree Health Benefit Fund	Total
Deferred Outflows Related to Pensions	\$ 5,013,332.74	\$ 0.00	\$ 5,013,332.74
Deferred Outflows Related to OPEB		1,615,814.01	1,615,814.01
Noncurrent Liabilities:			
Long-Term Liabilities:			
Net Pension Liability	8,973,423.00		8,973,423.00
Net OPEB Liability		23,076,336.00	23,076,336.00
Deferred Inflows Related to Pensions	421,440.00		421,440.00
Deferred Inflows Related to OPEB		11,835,699.00	11,835,699.00
Net Effect on Unrestricted Net Position	<u>\$ (4,381,530.26)</u>	<u>\$ (33,296,220.99)</u>	<u>\$ (37,677,751.25)</u>

See Notes 12 and 13 for detailed information regarding the amortization of the deferred outflows of resources and deferred inflows of resources relating to pensions and OPEB, respectively.

NOTE 10 - REVENUES

A summary of eliminations, discounts, and allowances by revenue classification is presented as follows:

	Gross Revenues	Internal Sales Eliminations	Less Scholarship Discounts	Less Allowance for Uncollectibles	Net Revenues
Operating Revenues:					
Student Tuition and Fees, Net	<u>\$ 5,391,385.79</u>	<u>\$ 0.00</u>	<u>\$ 2,233,259.84</u>	<u>\$ 66,750.30</u>	<u>\$ 3,091,375.65</u>
Sales and Services:					
Sales and Services of Auxiliary Enterprises:					
Food Services	\$ 195,030.90	\$ 0.00	\$ 0.00	\$ 0.00	\$ 195,030.90
Vending	37,477.13				37,477.13
Bookstore	2,088,524.98	28,436.34	1,081,199.51		978,889.13
Child Development Center	251,027.81				251,027.81
Brown Auditorium	159,750.03				159,750.03
Other	7,423.48				7,423.48
Sales and Services of Education and Related Activities - Cosmetology	<u>15,446.16</u>				<u>15,446.16</u>
Total Sales and Services, Net	<u>\$ 2,754,680.49</u>	<u>\$ 28,436.34</u>	<u>\$ 1,081,199.51</u>	<u>\$ 0.00</u>	<u>\$ 1,645,044.64</u>

NOTE 11 - OPERATING EXPENSES BY FUNCTION

The College's operating expenses by functional classification are presented as follows:

	Salaries and Benefits	Supplies and Materials	Services	Scholarships and Fellowships	Utilities	Depreciation	Total
Instruction	\$ 12,413,530.59	\$ 834,593.39	\$ 849,924.84	\$ 16,405.29	\$ 0.00	\$ 0.00	\$ 14,114,454.11
Academic Support	1,736,989.56	45,808.09	101,976.94				1,884,774.59
Student Services	1,146,430.41	34,257.71	94,753.31	31,471.00			1,306,912.43
Institutional Support	2,730,071.21	151,361.64	654,491.96	3,399.01			3,539,323.82
Operations and Maintenance of Plant	873,215.39	1,142,277.04	384,235.44		658,594.32		3,058,322.19
Student Financial Aid			937.50	2,200,019.67			2,200,957.17
Auxiliary Enterprises	940,927.05	1,937,563.70	231,891.30				3,110,382.05
Depreciation						1,472,823.02	1,472,823.02
Total Operating Expenses	\$ 19,841,164.21	\$ 4,145,861.57	\$ 2,318,211.29	\$ 2,251,294.97	\$ 658,594.32	\$ 1,472,823.02	\$ 30,687,949.38

NOTE 12 - PENSION PLANS**Defined Benefit Plan**

Plan Administration: The State of North Carolina administers the Teachers' and State Employees' Retirement System (TSERS) plan. This plan is a cost-sharing, multiple-employer, defined benefit pension plan established by the State to provide pension benefits for general employees and law enforcement officers (LEOs) of the State, general employees and LEOs of its component units, and employees of Local Education Agencies (LEAs) and charter schools not in the reporting entity. Membership is comprised of employees of the State (state agencies and institutions), universities, community colleges, and certain proprietary component units along with the LEAs and charter schools that elect to join the Retirement System. Benefit provisions are established by General Statute 135-5 and may be amended only by the North Carolina General Assembly.

Benefits Provided: TSERS provides retirement and survivor benefits. Retirement benefits are determined as 1.82% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. General employee plan members are eligible to retire with full retirement benefits at age 65 with five years of creditable service, at age 60 with 25 years of creditable service, or at any age with 30 years of creditable service. General employee plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of creditable service. Survivor benefits are available to eligible beneficiaries of general members who die while in active service or within 180 days of their last day of service and who also have either completed 20 years of creditable service regardless of age, or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases. Increases are contingent upon actuarial gains of the plan.

Contributions: Contribution provisions are established by General Statute 135-8 and may be amended only by the North Carolina General Assembly. Employees are required to contribute 6% of their annual pay. The contribution rate for employers is set each year by the North Carolina General Assembly in the Appropriations Act based on the actuarially-determined rate recommended by the actuary. The College's contractually-required contribution rate for the year ended June 30, 2019 was 12.29% of covered payroll. Employee contributions to the pension plan were \$776,934.85, and the College's contributions were \$1,591,421.54 for the year ended June 30, 2019.

The TSERS plan's financial information, including all information about the plan's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fiduciary net position, is included in the State of North Carolina's fiscal year 2018 *Comprehensive Annual Financial Report*. An electronic version of this report is available on the North Carolina Office of the State Controller's website at <https://www.osc.nc.gov/> or by calling the State Controller's Financial Reporting Section at (919) 707-0500.

TSERS Basis of Accounting: The financial statements of the TSERS plan were prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the TSERS plan, and additions to/deductions from the TSERS plan's fiduciary net position have been determined on the same basis as they are reported by TSERS.

Methods Used to Value TSERS Investment: Pursuant to *North Carolina General Statutes*, the State Treasurer is the custodian and administrator of the retirement systems. The State Treasurer maintains various investment portfolios in its External Investment Pool. TSERS and other pension plans of the State of North Carolina are the sole participants in the Long-Term Investment, Fixed Income Investment, Equity Investment, Real Estate Investment, Alternative Investment, Opportunistic Fixed Income Investment, and Inflation Sensitive Investment Portfolios. The Fixed Income Asset Class includes the Long-Term Investment and Fixed Income Investment Portfolios. The Global Equity Asset Class includes the Equity Investment Portfolio. The investment balance of each pension trust fund represents its share of the fair value of the net position of the various portfolios within the External Investment Pool. Detailed descriptions of the methods and significant assumptions regarding investments of the State Treasurer are provided in the 2018 *Comprehensive Annual Financial Report*.

Net Pension Liability: At June 30, 2019, the College reported a liability of \$8,973,423.00 for its proportionate share of the collective net pension liability. The net pension liability was measured as of June 30, 2018. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2017, and update procedures were used to roll

forward the total pension liability to June 30, 2018. The College's proportion of the net pension liability was based on the present value of future salaries for the College relative to the present value of future salaries for all participating employers, actuarially-determined. As of June 30, 2018, the College's proportion was 0.09013%, which was a decrease of 0.00725 from its proportion measured as of June 30, 2017, which was 0.09738%.

Actuarial Assumptions: The following table presents the actuarial assumptions used to determine the total pension liability for the TSERS plan at the actuarial valuation date:

Valuation Date	12/31/2017
Inflation	3%
Salary Increases*	3.50% - 8.10%
Investment Rate of Return**	7.00%

* Salary increases include 3.5% inflation and productivity factor.

** Investment rate of return includes inflation assumption and is net of pension plan investment expense.

TSERS currently uses mortality tables that vary by age, gender, employee group (i.e. teacher, general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2017 valuations were based on the results of an actuarial experience review for the period January 1, 2010 through December 31, 2014.

Future ad hoc Cost of Living Adjustment amounts are not considered to be substantively automatic and are therefore not included in the measurement.

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2018 (the valuation date) are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	1.4%
Global Equity	5.3%
Real Estate	4.3%
Alternatives	8.9%
Opportunistic Fixed Income	6.0%
Inflation Sensitive	4.0%

The information in the preceding table is based on 30-year expectations developed with the consulting actuary and is part of the asset, liability, and investment policy of the North Carolina Retirement Systems. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.05%. Return projections do not include any excess return expectations over benchmark averages. All rates of return and inflation are annualized. The long-term expected real rate of return for the Bond Index Investment Pool as of June 30, 2018 is 1.5%.

Discount Rate: The discount rate used to measure the total pension liability was lowered from 7.20% to 7.00% for the December 31, 2017 valuation. This discount rate is in line with the long-term nominal expected return on pension plan investments. The calculation of the net pension liability is a present value calculation of the future net pension payments. These net pension payments assume that contributions from plan members will be made at the current statutory contribution rate and that contributions from employers will be made at the contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate: The following presents the net pension liability of the plan at June 30, 2018 calculated using the discount rate of 7.00%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.00%) or 1-percentage point higher (8.00%) than the current rate:

<u>Net Pension Liability</u>		
<u>1% Decrease (6.00%)</u>	<u>Current Discount Rate (7.00%)</u>	<u>1% Increase (8.00%)</u>
\$ 17,113,838.00	\$ 8,973,423.00	\$ 2,142,808.00

Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: For the year ended June 30, 2019, the College recognized pension expense of \$2,087,120.00. At June 30, 2019, the College reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Employer Balances of Deferred Outflows of Resources and Deferred Inflows of
Resources Related to Pensions by Classification:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference Between Actual and Expected Experience	\$ 654,886.00	\$ 90,054.00
Changes of Assumptions	1,800,735.00	
Net Difference Between Projected and Actual Earnings on Plan Investments	855,169.00	
Change in Proportion and Differences Between Employer's Contributions and Proportionate Share of Contributions	111,121.20	331,386.00
Contributions Subsequent to the Measurement Date	1,591,421.54	
Total	\$ 5,013,332.74	\$ 421,440.00

The amount of \$1,591,421.54 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be included as a reduction of the net pension liability in the fiscal year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Schedule of the Net Amount of the Employer's Balances of
Deferred Outflows of Resources and Deferred Inflows of
Resources That will be Recognized in Pension Expense:

<u>Year Ended June 30:</u>	<u>Amount</u>
2020	\$ 1,854,564.00
2021	1,122,247.00
2022	39,364.00
2023	(15,703.80)
Total	\$ 3,000,471.20

NOTE 13 - OTHER POSTEMPLOYMENT BENEFITS

The College participates in two postemployment benefit plans, the Retiree Health Benefit Fund and the Disability Income Plan of North Carolina, that are administered by the State of North Carolina as pension and other employee benefit trust funds. Each plan's financial information, including all information about the plans' assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fiduciary net position, is included in the State of North Carolina's fiscal year 2018 *Comprehensive Annual Financial Report*. An electronic version of this report is available on the North Carolina Office of the State Controller's website at <https://www.osc.gov/> or by calling the State Controller's Financial Reporting Section at (919) 707-0500.

A. Summary of Significant Accounting Policies and Plan Asset Matters

Basis of Accounting: The financial statements of these plans were prepared using the accrual basis of accounting. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits are recognized when due and payable in accordance with the terms of each plan. For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of each plan, and additions to/deductions from each plans' fiduciary net position have been determined on the same basis as they are reported by the plans.

Methods Used to Value Plan Investments: Pursuant to *North Carolina General Statutes*, the State Treasurer is the custodian and administrator of the other postemployment benefits funds. The State Treasurer maintains various investment portfolios in its External Investment Pool. The Retiree Health Benefit Fund participates in the External Investment Pool. The Disability Income Plan of North Carolina is invested in the Short-Term Investment Portfolio of the External Investment Pool and the Bond Index External Investment Pool. The investment balance of each other employee benefit trust fund represents its share of the fair value of the net position of the various portfolios within the pool. Detailed descriptions of the methods and significant assumptions regarding investments of the State Treasurer are provided in the 2018 *Comprehensive Annual Financial Report*.

B. Plan Descriptions**1. Health Benefits**

Plan Administration: The State of North Carolina administers the North Carolina State Health Plan for Teachers and State Employees, referred to as the State Health Plan (the Plan), a healthcare plan exclusively for the benefit of employees of the State, the University of North Carolina System, community colleges, and certain other component units. In addition, Local Education Agencies (LEAs), charter schools, and some select local governments that are not part of the State's financial reporting entity also participate. Health benefit programs and premium rates are determined by the State Treasurer upon approval of the Plan Board of Trustees.

The Retiree Health Benefit Fund (RHBF) has been established as a fund to provide health benefits to retired and disabled employees and their applicable beneficiaries. RHBF is established by General Statute 135-7, Article 1. RHBF is a cost-sharing, multiple-employer, defined benefit healthcare plan, exclusively for the benefit of eligible former employees of the State, the University of North Carolina System, and community colleges. In addition, LEAs, charter schools, and some select local governments that are not part of the State's financial reporting entity also participate.

By statute, RHBF is administered by the Board of Trustees of the Teachers' and State Employees' Retirement System (TSERS). RHBF is supported by a percent of payroll contribution from participating employing units. Each year the percentage is set in legislation, as are the maximum per retiree contributions from RHBF to the Plan. The State Treasurer, with the approval of the Plan Board of Trustees, then sets the employer contributions (subject to the legislative cap) and the premiums to be paid by retirees, as well as the health benefits to be provided through the Plan.

Benefits Provided: Plan benefits received by retired employees and disabled employees from RHBF are OPEB. The healthcare benefits for retired and disabled employees who are not eligible for Medicare are the same as for active employees as described in Note 16. The plan options change when former employees become eligible for Medicare. Medicare retirees have the option of selecting one of two fully-insured Medicare Advantage/Prescription Drug Plan options or the self-funded Traditional 70/30 Preferred Provider Organization plan option that is also offered to non-Medicare members. If the Traditional 70/30 Plan is selected by a Medicare retiree, the self-funded State Health Plan coverage is secondary to Medicare.

Those former employees who are eligible to receive medical benefits from RHBF are long-term disability beneficiaries of the Disability Income Plan of North Carolina and retirees of TSERS, the Consolidated Judicial Retirement System, the Legislative Retirement System, the Optional Retirement Program (ORP), and a small number of local governments, with five or more years of contributory membership service in their retirement system prior to disability or retirement, with the following exceptions: for employees first hired on or after October 1, 2006, and members of the North Carolina General Assembly first taking office on or after February 1, 2007, future coverage as retired employees and retired members of the North Carolina General Assembly is subject to the requirement that the future retiree have 20 or more years of retirement service credit in order to receive coverage on a noncontributory basis. Employees first hired on or after October 1, 2006 and members of the North Carolina General Assembly first taking office on or after February 1, 2007 with 10 but less than 20 years of retirement service credit are eligible for coverage on a partially contributory basis. For such future retirees, the State will pay 50% of the State Health Plan's total noncontributory premium.

The Plan's and RHBF's benefit and contribution provisions are established by Chapter 135-7, Article 1, and Chapter 135, Article 3B of the General Statutes and may be amended only by the North Carolina General Assembly. RHBF does not provide for automatic post-retirement benefit increases.

Contributions: Contribution rates to RHBF, which are intended to finance benefits and administrative expenses on a pay-as-you-go

basis, are determined by the North Carolina General Assembly in the Appropriations Bill. The College's contractually-required contribution rate for the year ended June 30, 2019 was 6.27% of covered payroll. The College's contributions to the RHBF were \$811,896.91 for the year ended June 30, 2019.

2. Disability Income

Plan Administration: As discussed in Note 14, short-term and long-term disability benefits are provided through the Disability Income Plan of North Carolina (DIPNC), a cost-sharing, multiple-employer, defined benefit plan, to the eligible members of TSERS which includes employees of the State, the University of North Carolina System, community colleges, certain participating component units, LEAs which are not part of the reporting entity, and the ORP. By statute, DIPNC is administered by the Department of State Treasurer and the Board of Trustees of TSERS.

Benefits Provided: Long-term disability benefits are payable as an OPEB from DIPNC after the conclusion of the short-term disability period or after salary continuation payments cease, whichever is later, for as long as an employee is disabled. An employee is eligible to receive long-term disability benefits provided the following requirements are met: (1) the employee has five or more years of contributing membership service in TSERS or the ORP, earned within 96 months prior to the end of the short-term disability period or cessation of salary continuation payments, whichever is later; (2) the employee must make application to receive long-term benefits within 180 days after the conclusion of the short-term disability period or after salary continuation payments cease or after monthly payments for Workers' Compensation cease (excluding monthly payments for permanent partial benefits), whichever is later; (3) the employee must be certified by the Medical Board to be mentally or physically disabled for the further performance of his/her usual occupation; (4) the disability must have been continuous, likely to be permanent, and incurred at the time of active employment; (5) the employee must not be eligible to receive an unreduced retirement benefit from TSERS; and (6) the employee must terminate employment as a permanent, full-time employee. An employee is eligible to receive an unreduced retirement benefit from TSERS after (1) reaching the age of 65 and completing five years of membership service, or (2) reaching the age of 60 and completing 25 years of creditable service, or (3) completing 30 years of creditable service, at any age.

For employees who had five or more years of membership service as of July 31, 2007, during the first 36 months of the long-term disability period, the monthly long-term disability benefit is equal to 65% of one-twelfth of an employee's annual base rate of compensation last payable to the participant or beneficiary prior to the beginning of the short-term disability period, plus the like percentage of one-twelfth of the annual longevity payment and local supplements to which the

participant or beneficiary would be eligible. The monthly benefits are subject to a maximum of \$3,900 per month reduced by any primary Social Security disability benefits and by monthly payments for Workers' Compensation to which the participant or beneficiary may be entitled, but the benefits payable shall be no less than \$10 a month. After the first 36 months of the long-term disability, the long-term benefit is calculated in the same manner as described above except the monthly benefit is reduced by an amount equal to a monthly primary Social Security disability benefit to which the participant or beneficiary might be entitled had Social Security disability benefits been awarded. When an employee qualifies for an unreduced service retirement allowance from TSERS, the benefits payable from DIPNC will cease, and the employee will commence retirement under TSERS or the ORP.

For employees who had less than five years of membership service as of July 31, 2007, and meet the requirements for long-term disability on or after August 1, 2007, during the first 36 months of the long-term disability period, the monthly long-term benefit shall be reduced by an amount equal to the monthly primary Social Security retirement benefit to which the employee might be entitled should the employee become age 62 during the first 36 months. This reduction becomes effective as of the first day of the month following the month of initial entitlement to Social Security benefits. After the first 36 months of the long-term disability, no further benefits are payable under the terms of this section unless the employee has been approved and is in receipt of primary Social Security disability benefits.

Contributions: Although DIPNC operates on a calendar year, disability income benefits are funded by actuarially determined employer contributions that are established in the Appropriations Bill by the North Carolina General Assembly and coincide with the State's fiscal year. The College's contractually-required contribution rate for the year ended June 30, 2019 was 0.14% of covered payroll. The College's contributions to DIPNC were \$18,128.48 for the year ended June 30, 2019.

C. Net OPEB Liability (Asset)

Net OPEB Liability: At June 30, 2019, the College reported a liability of \$23,076,336.00 for its proportionate share of the collective net OPEB liability for RHBF. The net OPEB liability was measured as of June 30, 2018. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2017, and update procedures were used to roll forward the total OPEB liability to June 30, 2018. The College's proportion of the net OPEB liability was based on the present value of future salaries for the College relative to the present value of future salaries for all participating employers, actuarially-determined. As of June 30, 2018, the College's proportion was 0.08100%, which was an increase of 0.00225 from its proportion measured as of June 30, 2017, which was 0.07875%.

Net OPEB Asset: At June 30, 2019, the College reported an asset of \$24,073.00 for its proportionate share of the collective net OPEB asset for DIPNC. The net OPEB asset was measured as of June 30, 2018. The total OPEB asset used to calculate the net OPEB asset was determined by an actuarial valuation as of December 31, 2017, and update procedures were used to roll forward the total OPEB asset to June 30, 2018. The College's proportion of the net OPEB asset was based on the present value of future salaries for the College relative to the present value of future salaries for all participating employers, actuarially-determined. As of June 30, 2018, the College's proportion was 0.07925%, which was a decrease of 0.00690 from its proportion measured as of June 30, 2017, which was 0.08615%.

Actuarial Assumptions: The total OPEB liabilities (assets) for RHBF and DIPNC were determined by actuarial valuations as of December 31, 2017, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified. The total OPEB liabilities (assets) were then rolled forward to June 30, 2018 utilizing update procedures incorporating the actuarial assumptions.

	Retiree Health Benefit Fund	Disability Income Plan of N. C.
Valuation Date	12/31/2017	12/31/2017
Inflation	3.00%	3.00%
Salary Increases*	8.10% grading down to 3.50% depending on employee class	3.50% - 8.10%
Investment Rate of Return**	7.00%	3.75%
Healthcare Cost Trend Rate - Medical	6.50% grading down to 5.00% by 2024	6.50% grading down to 5.00% by 2024
Healthcare Cost Trend Rate - Prescription Drug	7.25% grading down to 5.00% by 2027	N/A
Healthcare Cost Trend Rate - Medicare Advantage	5.00%	N/A
Healthcare Cost Trend Rate - Administrative	3.00%	N/A

* Salary increases include 3.5% inflation and productivity factor.

** Investment rate of return is net of pension plan investment expense, including inflation.

N/A - Not Applicable

The OPEB plans currently use mortality tables that vary by age, gender, employee group (i.e. teacher, general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The projected long-term investment returns and inflation assumptions are developed through a review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple

tenors and over multiple year horizons. Global public equity return projects are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. DIPNC is primarily invested in the Bond Index Investment Pool as of June 30, 2018.

Best estimates of real rates of return for each major asset class included in RHBF's target asset allocation as of June 30, 2018 (the valuation date) are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return
Fixed Income	1.4%
Global Equity	5.3%
Real Estate	4.3%
Alternatives	8.9%
Opportunistic Fixed Income	6.0%
Inflation Sensitive	4.0%

The information in the preceding table is based on 30-year expectations developed with the consulting actuary and is part of the asset, liability, and investment policy of the North Carolina Retirement Systems. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.05%. Return projections do not include any excess return expectations over benchmark averages. All rates of return and inflation are annualized. The long-term expected real rate of return for the Bond Index Investment Pool as of June 30, 2018 is 1.5%.

Actuarial valuations of the plans involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

The actuarial assumptions used for RHBF are consistent with those used to value the pension benefits of TSERS where appropriate. These assumptions are based on the most recent pension valuations available. The discount rate used for RHBF reflects a pay-as-you-go approach.

Projections of benefits for financial reporting purposes of the plans are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and historical pattern of sharing of benefit costs between the employer and plan members to that point. Historically, the benefits

funded solely by employer contributions applied equally to all retirees. Currently, as described earlier in the note, benefits are dependent on membership requirements.

The actuarial methods and assumptions used for DIPNC include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The actuarial assumptions used in the December 31, 2017 valuations were generally based on the results of an actuarial experience study prepared as of December 31, 2014, as amended for updates to certain assumptions (such as the long-term investment return, medical claims, and medical trend rate assumptions) implemented based on annual reviews that have occurred since that experience study.

Discount Rate: The discount rate used to measure the total OPEB liability for RHBF was 3.87%. The projection of cash flows used to determine the discount rate assumed that contributions from employers will be made at the current statutorily determined contribution rate. Based on the above assumptions, the plan's fiduciary net position was not projected to be available to make projected future benefit payments of current plan members. As a result, a municipal bond rate of 3.87% was used as the discount rate used to measure the total OPEB liability. The 3.87% rate is based on the Bond Buyer 20-year General Obligation Index as of June 30, 2017.

The discount rate used to measure the total OPEB asset for DIPNC was 3.75%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total OPEB asset.

Sensitivity of the Net OPEB Liability (Asset) to Changes in the Discount Rate: The following presents the College's proportionate share of the net OPEB liability (asset) of the plans, as well as what the plans' net OPEB liability (asset) would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current discount rate:

Net OPEB Liability (Asset)			
	1% Decrease (2.87%)	Current Discount Rate (3.87%)	1% Increase (4.87%)
RHBF	\$ 27,263,854.00	\$ 23,076,336.00	\$ 19,717,960.00
	1% Decrease (2.75%)	Current Discount Rate (3.75%)	1% Increase (4.75%)
DIPNC	\$ (18,445.00)	\$ (24,073.00)	\$ (29,471.00)

Sensitivity of the Net OPEB Liability (Asset) to Changes in the Healthcare Cost Trend Rates: The following presents the net OPEB liability (asset) of the plans, as well as what the plans' net OPEB liability (asset) would be if it were calculated using healthcare cost trend rates that are 1-percentage point lower or 1-percentage point higher than the current healthcare cost trend rates:

	1% Decrease (Medical - 4.00% - 5.50%, Pharmacy - 4.00% - 6.25%, Med. Advantage - 4.00%, Administrative - 2.00%)	Current Healthcare Cost Trend Rates (Medical - 5.00% - 6.50%, Pharmacy - 5.00% - 7.25%, Med. Advantage - 5.00%, Administrative - 3.00%)	1% Increase (Medical - 6.00% - 7.50%, Pharmacy - 6.00% - 8.25%, Med. Advantage - 6.00%, Administrative - 4.00%)
RHBF Net OPEB Liability	\$ 19,036,629.00	\$ 23,076,336.00	\$ 28,377,585.00
	1% Decrease (5.50% grading down to 4.00% in 2024)	Current Healthcare Cost Trend Rates (6.50% grading down to 5.00% in 2024)	1% Increase (7.50% grading down to 6.00% in 2024)
DIPNC Net OPEB Asset	\$ (24,143.00)	\$ (24,073.00)	\$ (24,007.00)

Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB: For the year ended June 30, 2019, the College recognized OPEB contra-expense of \$216,985.00 for RHBF and expense of \$1,476.00 for DIPNC. At June 30, 2019, the College reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

**Employer Balances of Deferred Outflows of Resources
Related to OPEB by Classification:**

	RHBF	DIPNC	Total
Differences Between Actual and Expected Experience	\$ 0.00	\$ 41,993.00	\$ 41,993.00
Changes of Assumptions		4,546.00	4,546.00
Net Difference Between Projected and Actual Earnings on Plan Investments	2,482.00	18,748.00	21,230.00
Changes in Proportion and Differences Between Employer's Contributions and Proportionate Share of Contributions	801,435.10	5,182.73	806,617.83
Contributions Subsequent to the Measurement Date	811,896.91	18,128.48	830,025.39
Total	\$ 1,615,814.01	\$ 88,598.21	\$ 1,704,412.22

Employer Balances of Deferred Inflows of Resources
Related to OPEB by Classification:

	RHBF	DIPNC	Total
Differences Between Actual and Expected Experience	\$ 1,578,062.00	\$ 0.00	\$ 1,578,062.00
Changes of Assumptions	9,997,201.00		9,997,201.00
Changes in Proportion and Differences Between Employer's Contributions and Proportionate Share of Contributions	260,436.00	1,789.00	262,225.00
Total	\$ 11,835,699.00	\$ 1,789.00	\$ 11,837,488.00

Amounts reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability related to RHBF and an increase of the net OPEB asset related to DIPNC in the fiscal year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Schedule of the Net Amount of the Employer's Balances of Deferred
Outflows of Resources and Deferred Inflows of Resources That will be
Recognized in OPEB Expense:

Year Ended June 30:	RHBF	DIPNC
2020	\$ (2,588,602.00)	\$ 16,029.00
2021	(2,588,602.00)	16,028.00
2022	(2,588,602.00)	12,495.00
2023	(2,586,135.00)	9,844.00
2024	(679,840.90)	7,146.00
Thereafter		7,138.73
Total	\$ (11,031,781.90)	\$ 68,680.73

NOTE 14 - RISK MANAGEMENT

The College is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These exposures to loss are handled via a combination of methods, including participation in state-administered insurance programs, purchase of commercial insurance, and self-retention of certain risks. There have been no significant reductions in insurance coverage from the previous year and settled claims have not exceeded coverage in any of the past three fiscal years.

A. Public Entity Risk Pool**Public School Insurance Fund**

Fire and other property losses are covered by the Public School Insurance Fund (Fund), a state-administered public entity risk pool. The Fund is financed by premiums and interest collected through membership participation and retains a \$10,000,000 million deductible per occurrence. Reinsurance is purchased by the Fund to cover catastrophic events in excess of the \$10,000,000 million deductible. Membership insured property is covered under an all risk coverage contract. Building and contents are valued under a replacement cost basis. No coinsurance penalties apply. There have been no significant reductions in insurance coverage from the previous year and settled claims have not exceeded coverage in any of the past three fiscal years.

B. Employee Benefit Plans**1. State Health Plan**

College employees are provided comprehensive major medical care benefits. Coverage is funded by contributions to the State Health Plan (Plan), a discretely presented component unit of the State of North Carolina. The Plan is funded by employer contributions. Certain plans also require contributions from employees. The Plan has contracted with third parties to process claims. See Note 13, Other Postemployment Benefits, for additional information regarding retiree health benefits.

2. Death Benefit Plan of North Carolina

Term life insurance (death benefits) of \$25,000 to \$50,000 is provided to eligible workers. This Death Benefit Plan is administered by the State Treasurer and funded via employer contributions. The employer contribution rate was 0.16% for the current fiscal year.

3. Disability Income Plan

Short-term and long-term disability benefits are provided to College employees through the Disability Income Plan of North Carolina (DIPNC), part of the State's Pension and Other Employee Benefit Trust Funds. Short-term benefits are paid by the College up to the first six months of benefits and reimbursed by DIPNC for any additional short-term benefits. As discussed in Note 13, long-term disability benefits are payable as other postemployment benefits from DIPNC after the conclusion of the short-term disability period or after salary continuation payments cease, whichever is later, for as long as an employee is disabled.

C. Other Risk Management and Insurance Activities**1. Automobile Insurance**

State-owned vehicles are covered by liability insurance through a private insurance company and handled by the North Carolina Department of Insurance. The liability limits for losses are \$1,000,000 per claim and \$10,000,000 per occurrence. The College pays premiums to the North Carolina Department of Insurance for the coverage. Liability insurance for other College-owned vehicles is covered by contracts with private insurance companies.

2. Public Officers' and Employees' Liability Insurance

The risk of tort claims of up to \$1,000,000 per claimant is retained under the authority of the State Tort Claims Act. In addition, the State provides excess public officers' and employees' liability insurance up to \$2,000,000 per claim and \$10,000,000 in the aggregate per fiscal year via contract with a private insurance company. The North Carolina Community College System Office pays the premium, based on a composite rate, directly to the private insurer.

3. Employee Dishonesty and Computer Fraud

The College is protected for losses from employee dishonesty and computer fraud for employees paid in whole or in part from state funds. This coverage is with a private insurance company and is handled by the North Carolina Department of Insurance. North Carolina Community College System Office is charged a premium by the private insurance company. Coverage limit is \$5,000,000 per occurrence. The private insurance company pays 90% of each loss less a \$100,000 deductible.

4. Statewide Workers' Compensation Program

The State Board of Community Colleges makes the necessary arrangements to carry out the provisions of the Workers' Compensation Act which are applicable to employees whose wages are paid in whole or in part from state funds. The College purchases workers' compensation insurance for employees whose salaries or wages are paid by the Board entirely from county or institutional funds.

Additional details on the state-administered risk management programs are disclosed in the State's *Comprehensive Annual Financial Report*, issued by the Office of the State Controller.

5. Other Insurance Held by the College

The College supplements the State's liability coverage by acquiring additional general liability coverage up to \$6,000,000 with a self-retention of \$10,000. As part of the College's insurance portfolio,

professional liability coverage is provided for the Board of Trustees, faculty, and staff up to \$1,000,000 with retention of \$1,000. Additional coverage of \$3,000,000 with a retention of \$10,000 is provided via the College's excess liability policy. The College also has a cyber risk insurance policy in the amount of \$1,000,000 with retention of \$10,000.

NOTE 15 - COMMITMENTS AND CONTINGENCIES

- A. **Commitments** - The College has established an encumbrance system to track its outstanding commitments on construction projects and other purchases. Outstanding commitments on construction contracts were \$55,400.00 and on other purchases were \$341,681.04 at June 30, 2019.
- B. **Contingent Liabilities** - The College has conveyed to the U.S. Department of Commerce, Economic Development Administration (EDA) a mortgage lien on the Science & Technology Center in the amount of \$1,000,000. This lien secures the EDA's investment in the building should the College no longer use the building for educational or economic development purchases. This mortgage lien shall terminate and be dismissed 20 years from September 1, 2004.

The College has been granted permission by the North Carolina Community College System Office to enter into a Security Interest Agreement with the EDA to secure \$1,500,000 in funding to be used for the construction of the Continuing Education and Public Services Facility. The Security Interest Agreement gives the EDA a first lien position on the building for 20 years from July 15, 2013.

NOTE 16 - CHANGES IN FINANCIAL ACCOUNTING AND REPORTING

College - For the fiscal year ended June 30, 2019, the College implemented the following pronouncement issued by the Governmental Accounting Standards Board (GASB):

GASB Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements

GASB Statement No. 88 improves the information that is disclosed in the notes to government financial statements related to debt, including direct borrowings and direct placements. It defines debt for purposes of disclosure in notes to financial statements and requires disclosure of additional essential information, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events with finance-related consequences or significant subjective acceleration clauses. Additionally, this Statement requires that existing and additional information be provided for direct borrowings and direct placements of debt separately from other debt.

Component Unit - For the fiscal year ended June 30, 2019, the Foundation implemented Financial Accounting Standards Board Update No. 2016-14, *Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities*. This update amends the requirements related to net asset classifications for not-for-profit entities. With this update, net assets on the face of the statement of financial position and changes in net assets on the face of the statement of activities are presented using two classes: *net assets with donor restrictions* and *net assets without donor restrictions*, in addition to the previously required total net assets and changes in total net assets.

Changes of Assumptions: In 2015, the North Carolina Retirement Systems' consulting actuaries performed the quinquennial investigation of each retirement system's actual demographic and economic experience (known as the "Experience Review"). The Experience Review provides the basis for selecting the actuarial assumptions and methods used to determine plan liabilities and funding requirements. The most recent Experience Review examined each plan's experience during the period between January 1, 2010, and December 31, 2014. Based on the findings, the Board of Trustees of the Teachers' and State Employees' Retirement System adopted a number of new actuarial assumptions and methods. The most notable changes to the assumptions include updates to the mortality tables and the mortality improvement projection scales to reflect reduced rates of mortality and significant increases in mortality improvements. These assumptions were adjusted to reflect the mortality projection scale MP-2015, released by the Society of Actuaries in 2015. In addition, the assumed rates of retirement, salary increases, and rates of termination from active employment were reduced to more closely reflect actual experience. The discount rate for the Teachers' and State Employees' Retirement System was lowered from 7.25% to 7.20% for the December 31, 2016 valuation. For the December 31, 2017 valuation, the discount rate was lowered to 7.00%.

The Board of Trustees also adopted a new asset valuation method for the Teachers' and State Employees' Retirement System. For determining plan funding requirements, the plan now uses a five-year smoothing method with a reset of the actuarial value of assets to market value as of December 31, 2014.

The Notes to Required Supplementary Information reflect information included in the State of North Carolina's 2018 *Comprehensive Annual Financial Report*.

Nash Community College
Notes to Required Supplementary Information
Schedule of College Contributions
Cost-Sharing, Multiple-Employer, Defined Benefit OPEB Plans
Last Ten Fiscal Years

Changes of Benefit Terms: Effective January 1, 2016, benefit terms related to copays, out-of-pocket maximums, and deductibles were changed for three of four options of the Retiree Health Benefit Fund (RHBF). Most of the changes were an increase in the amount from the previous year.

Effective January 1, 2017, benefit terms related to copays, coinsurance maximums, out-of-pocket maximums, and deductibles were changed for two of four options of the RHBF. Most of the changes were an increase in the amount from the previous year.

Method and Assumptions Used in Calculations of Actuarially Determined Contributions: An actuarial valuation is performed for each plan each year. The actuarially determined contribution rates in the Schedule of Employer Contributions are calculated by the actuary as a projection of the required employer contribution for the fiscal year beginning six months following the date of the valuation results for the RHBF. The actuarially determined contribution rates in the Schedule of University Contributions are calculated by the actuary as a projection of the required employer contribution for the fiscal year beginning 18 months following the date of the valuation results for the Disability Income Plan of North Carolina (DIPNC). See Note 13 for more information on the specific assumptions for each plan. The actuarially determined contributions for those items with covered payroll were determined using the actuarially determined contribution rate from the actuary and covered payroll as adjusted for timing differences and other factors such as differences in employee class. Other actuarially determined contributions are disclosed in the schedule as expressed by the actuary in reports to the plans.

Changes of Assumptions: In 2015, the North Carolina Retirement Systems' consulting actuaries performed the quinquennial investigation of each retirement system's actual demographic and economic experience (known as the "Experience Review"). The Experience Review provides the basis for selecting the actuarial assumptions and methods used to determine plan liabilities and funding requirements. The most recent experience review examined each plan's experience during the period between January 1, 2010, and December 31, 2014. Based on the findings, the Boards of Trustees of the Teachers' and State Employees' Retirement System and the State Health Plan adopted a number of new actuarial assumptions and methods for the RHBF and the DIPNC. The most notable changes to the assumptions include updates to the mortality tables and the mortality improvement projection scales to reflect reduced rates of mortality and significant increases in mortality improvements. These assumptions were adjusted to reflect the mortality projection scale MP-2015, released by the Society of Actuaries in 2015. In addition, the assumed rates of retirement and rates of termination from active employment were reduced to more closely reflect actual experience.

In 2018, for the December 31, 2017 actuarial valuation, the discount rate for the RHBF was updated to 3.87% and the medical and prescription drug claims cost were changed based on most recent experience. Enrollment assumptions were updated to model expected migrations among RHBF plan options and trend assumptions for the RHBF include contribution changes for the 2019 period as those amounts have been finalized.

Additionally, the December 31, 2017 DIPNC actuarial valuation includes a liability for the State's potential reimbursement of health insurance premiums paid by employers during the second six months of the short-term disability benefit period.

The Notes to Required Supplementary Information reflect information included in the State of North Carolina's 2018 *Comprehensive Annual Financial Report*.

**INDEPENDENT AUDITOR'S REPORT
ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
*GOVERNMENT AUDITING STANDARDS***

Board of Trustees
Nash Community College
Rocky Mount, North Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Nash Community College (College), a component unit of the State of North Carolina, and its discretely presented component unit, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the College's basic financial statements, and have issued our report thereon dated December 12, 2019. Our report includes a reference to other auditors who audited the financial statements of Nash Community College Foundation, Inc. (Foundation), as described in our report on the College's financial statements. The financial statements of the Foundation were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with the Foundation.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the College's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency,

or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Beth A. Wood, CPA
State Auditor

Raleigh, North Carolina

December 12, 2019
