WILMINGTON, NORTH CAROLINA FINANCIAL STATEMENT AUDIT REPORT FOR THE YEAR ENDED JUNE 30, 2021

A CONSTITUENT INSTITUTION OF THE UNIVERSITY OF NORTH CAROLINA SYSTEM AND A COMPONENT UNIT OF THE STATE OF NORTH CAROLINA

### state of north carolina Office of the State Auditor

Beth A. Wood, CPA State Auditor 2 S. Salisbury Street 20601 Mail Service Center Raleigh, NC 27699-0600 Telephone: (919) 807-7500 Fax: (919) 807-7647 https://www.auditor.nc.gov

# **AUDITOR'S TRANSMITTAL**

The Honorable Roy Cooper, Governor The General Assembly of North Carolina Board of Trustees, University of North Carolina Wilmington

We have completed a financial statement audit of the University of North Carolina Wilmington for the year ended June 30, 2021, and our audit results are included in this report. You will note from the independent auditor's report that we determined that the financial statements are presented fairly in all material respects.

The results of our tests disclosed no deficiencies in internal control over financial reporting that we consider to be material weaknesses in relation to our audit scope or any instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

*North Carolina General Statutes* require the State Auditor to make audit reports available to the public. Copies of audit reports issued by the Office of the State Auditor may be obtained through one of the options listed in the back of this report.

Lth. A. Wood

Beth A. Wood, CPA State Auditor

# INDEPENDENT AUDITOR'S REPORT

Board of Trustees University of North Carolina Wilmington Wilmington, North Carolina

#### **Report on the Audit of the Financial Statements**

#### Opinions

We have audited the financial statements of the business-type activities and fiduciary activities of the University of North Carolina Wilmington (University), a constituent institution of the multi-campus University of North Carolina System, which is a component unit of the State of North Carolina, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the University's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the business-type activities and fiduciary activities of the University of North Carolina Wilmington, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (GAGAS), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the University of North Carolina Wilmington and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Emphasis of Matter

As discussed in Note 22 to the financial statements, during the year ended June 30, 2021, the University of North Carolina Wilmington adopted new accounting guidance, Governmental

Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*, as amended by GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*. Our opinions are not modified with respect to this matter.

#### Responsibilities of Management for the Financial Statements

The University's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the University's ability to continue as a going concern for one year after the date that the financial statements are issued.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and GAGAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the University's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and other required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 1, 2021 on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control over financial reporting and compliance.

Raleigh, North Carolina

December 1, 2021

# MANAGEMENT'S DISCUSSION AND ANALYSIS

#### **Financial Analysis**

The University of North Carolina Wilmington (University or UNCW) provides the following Management's Discussion and Analysis (MD&A) as an overview of the proprietary fund financial activities for the fiscal year ended June 30, 2021. The MD&A identifies significant transactions that have financial impact and highlights favorable and unfavorable trends. Comparative data for the previous year is presented to provide a better understanding of the financial information.

#### **Using the Financial Statements**

The University's financial report includes three proprietary fund financial statements that depict the financial activity and fiscal condition of the University for the current year. The report also includes two fiduciary fund financial statements as a result of the implementation of Government Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*, during fiscal year 2021. These financial statements include: the Statement of Net Position; the Statement of Revenues, Expenses, and Changes in Net Position; the Statement of Cash Flows; the Statement of Fiduciary Net Position; and the Statement of Changes in Fiduciary Net Position. The proprietary fund financial statements account for the University's primary activities. The fiduciary fund financial statements account for the University's fiduciary activities which are considered custodial funds. These financial statements are prepared in accordance with GASB principles and using the accrual basis of accounting. This method of accounting requires that revenues and assets be recognized when the service is provided. Expenses and liabilities are recognized when others provide services, regardless of when cash is exchanged.

The Statement of Net Position includes all the University's proprietary fund assets, deferred outflows and inflows, liabilities, and net position. The University's proprietary fund net position (the monetary difference between total assets and deferred outflows of resources, and total liabilities and deferred inflows of resources) is one indicator of the University's financial viability. Over time, changes in the proprietary fund net position provide information on the improvement or erosion of the University's financial condition when considered with non-financial facts such as enrollment levels and the condition of facilities.

The Statement of Revenues, Expenses, and Changes in Net Position presents the University's proprietary fund revenues earned and expenses incurred during the fiscal year. Financial activities are reported as either operating or nonoperating. GASB Statement No. 35 classifies state appropriations and gifts as nonoperating revenues. With state appropriations and gifts being classified as nonoperating revenues, most public institutions will report an operating deficit.

An important factor to consider when evaluating the financial viability of the University is the ability to meet financial obligations as they mature. The Statement of Cash Flows presents proprietary fund information that allows the reader to evaluate the University's ability to meet its financial obligations on a current basis.

The Statement of Fiduciary Net Position and the Statement of Changes in Fiduciary Net Position present the University's fiduciary fund assets, liabilities, net position, additions, and deductions related to resources held by the University in a custodial capacity for the four related parties described in Note 20.

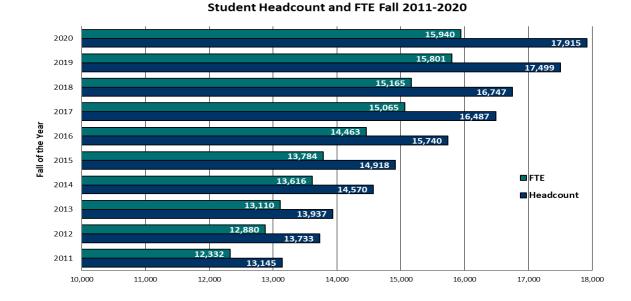

#### **Financial Highlights**

The coronavirus (COVID-19) pandemic challenged the University to reimagine the way that it delivered its academic experience to students in fiscal year 2021. While students were welcomed back to campus in the fall of 2020, a significant number enrolled in distance education courses. Mandatory fees charged for distance education courses are significantly less than those for traditional courses. As a result, tuition and fees and sales and services revenues decreased \$16.8 million and \$5.7 million, respectively. Scholarships and fellowships expenses increased \$10.0 million to help keep students enrolled. In addition to the funds remaining from the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) awarded during fiscal year 2020, relief for both students and the University was provided by the federal government in December 2020 and again in March 2021 when the Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (CRRSAA) and the American Rescue Plan (ARP) Act of 2021 were signed into law. The CRRSAA and ARP provided relief in the form of the Higher Education Emergency Relief Fund II (HEERF II) and Higher Education Emergency Relief Fund III (HEERF III). The University received \$39.4 million in HEERF funding in fiscal year 2021 with a portion allocated specifically to students in the form of scholarships and fellowships and the remainder to the University to defray expenses associated with COVID-19 and to cover shortfalls in operating revenues highlighted above. See Note 19 for additional information related to the impact of COVID-19 on fiscal year 2021.

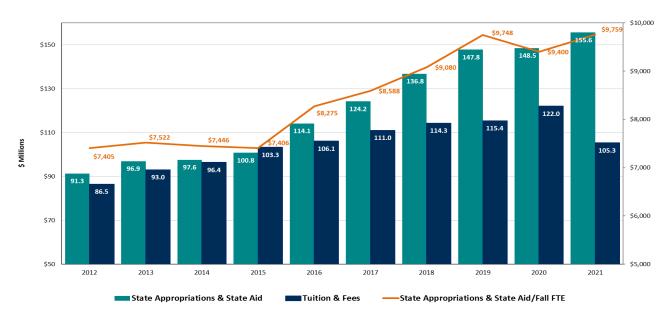

Despite the challenges discussed above, the University continued to grow during fiscal year 2021 as evidenced by the \$9.5 million (6.4%) increase in the original state appropriations budget to \$158.0 million from \$148.5 million in the prior year. Included in state appropriations was \$9.8 million of enrollment growth funding, one of the largest amounts received to date by the University. The amount reported in the Statement of Revenues, Expenses, and Changes in Net Position for the fiscal year ended June 30, 2021, however, was \$148.9 million, \$9.1 million less than the original budget. The difference was due to Chapter 116, Section 30.3(f) of the North Carolina General Statutes Section which was rewritten during the fiscal year and required that the \$7.8 million the University was able to carry forward in management flexibility budget be recorded as capital appropriations as it is restricted for repairs and renovations. In addition, \$1.3 million of the enrollment growth funding which is normally received directly from the State as appropriations was received from the University of North Carolina System Office resulting in classification as noncapital contributions.

During fiscal year 2021, the University again operated on a base budget from fiscal year 2019 as the State of North Carolina did not adopt a new State budget. Various bills passed during fiscal year 2021 including one that provided for a building reserve allocation of \$2.8 million. UNCW also requested \$20.0 million from the Capital Improvements-Project Reserve Fund for the balance of funding for the Randall Library renovation and expansion which remains unapproved.

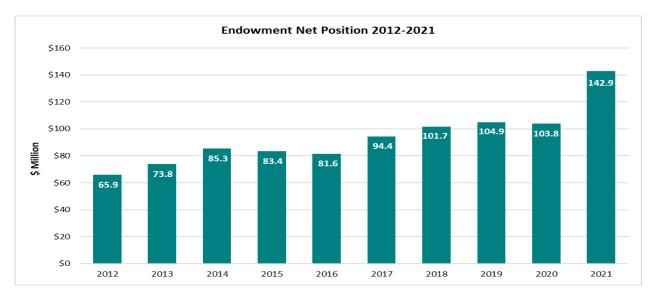

It has been three years since Hurricane Florence made landfall near the University's campus on September 14, 2018 and the associated capital projects and repairs are nearly complete. Dobo Hall, the University's primary science classroom and laboratory facility, which was significantly damaged during the storm, reopened in August 2020. Both expenses and insurance and Federal Emergency Management Agency (FEMA) reimbursements related to the hurricane have decreased significantly. The University expects expenditures to be complete next fiscal year with recoveries to continue into future fiscal years. For more information on the impact of Hurricane Florence, see Note 18. The University operates with a fixed tuition program for undergraduate resident students, which began with the fall 2016 freshman class. Under the program, the incoming freshman resident cohort tuition rate is fixed for four years. In addition, undergraduate and graduate tuition and mandatory and general fees remained fixed during fiscal year 2021. UNCW has not increased tuition for its undergraduate students since fiscal year 2018 and its graduate students since fiscal year 2019.

UNCW's fall 2020 full-time equivalent (FTE) of 15,940 was a slight increase of 0.9% over fall 2019. UNCW has experienced steady growth with a continuing focus on quality as demonstrated by an average incoming Scholastic Assessment Test score of 1234 for fall 2020.

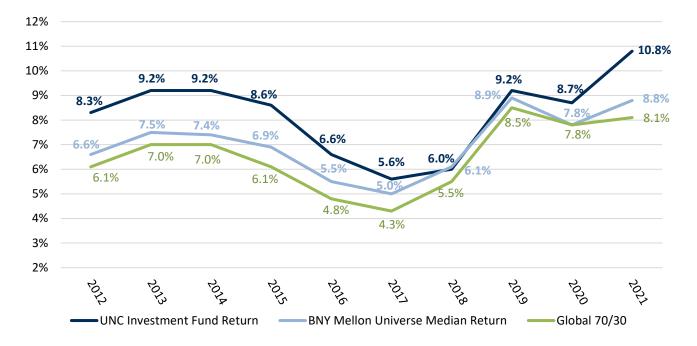

State Appropriations & State Aid, Tuition & Fees and State Appropriations & State Aid per Fall FTE 2012-2021 Continued enrollment growth combined with an increase in state appropriations led to state aid per fall student FTE increasing to \$9,759 in fall 2021. Due to the pandemic and flat tuition rates, tuition and fee revenue decreased 13.7% in fiscal year 2021.

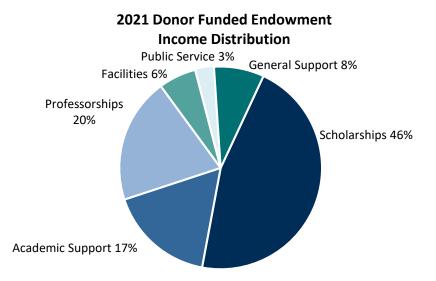

The net position of the endowments grew from \$103.8 million to \$142.9 million over the twelve months ending June 30, 2021. Net investment returns of \$39.8 million and new gifts/additions to the endowment of \$7.2 million funded withdrawals for spending distributions and administrative fees in the amount of \$5.2 million. Additionally, nonrecurring withdrawals of \$2.7 million were made to fund capital projects including the Film Studies building.

The endowment fund's investments with the UNC Investment Fund (UNCIF) returned 42.3% for the 12-month period ended June 30, 2021, its best fiscal year return since inception. The fund's performance for fiscal year 2021 is significantly ahead of the 26.3% return on the Global 70/30 Portfolio. UNCW's endowment is fully invested with the UNC Investment Fund, and it is their allocation to equities, both public and private, which drove performance. Private equity and long equity returned an impressive 90.6% and 40.8%, respectively, for the year. Long/short equity and fixed income also delivered strong performance, returning 33.3% and 23.6%, respectively, for the year.

UNC Investment Fund and Benchmark Funds 10 Year Annualized Returns Comparison

The ten-year annualized return of the UNC Investment Fund, at June 30, 2021, of 10.8% easily exceeded the 6.4% return of our long-term objective. Additionally, the ten-year return exceeded both the Global 70/30 Portfolio and the median return of the BNY Mellon Endowment and Foundation Universe, which returned 8.1% and 8.8%, respectively.

Consistent with prior years, the Endowment primarily supported student scholarships (46%), professorships (20%) and academic programs (17%).

#### **Statement of Net Position**

The Statement of Net Position presents the assets (current and noncurrent), deferred outflows, liabilities (current and noncurrent), deferred inflows, and net position (total assets plus deferred outflows minus total liabilities and deferred inflows) of the University's proprietary funds. This statement provides a fiscal snapshot of the University's financial position as of June 30, 2021. This statement includes information on assets available for continuing operations and amounts due to vendors, investors, and lending institutions. In the condensed statement of net position below, other noncurrent assets and liabilities in the proprietary fund at June 30, 2020 were restated as a result of the implementation of GASB Statement No. 84 during fiscal year 2021 as discussed further in Note 23 of the financial statements.

| Restricted - Expendable               | 136,453,823    | 104,005,159    | 32,448,664    | 31.2%   |
| Unrestricted                          | (200,271,518)  | (226,689,413)  | 26,417,895    | 11.7%   |
| Total Net Position                    | \$ 437,395,922 | \$ 348,505,590 | \$ 88,890,332 | 25.5%   |

On June 30, 2021, total University assets were \$1.1 billion. The largest asset categories were the University's cash and cash equivalents of \$188.6 million, endowment investments of \$134.6 million, and net capital assets of \$721.3 million.

#### Assets

The primary driver in the \$18.5 million increase in current assets was an increase of \$11.7 million in pooled cash with the State Treasurer due to the \$5.3 million decrease in auxiliary service related expenses due to the pandemic and \$4.7 million of pledge receivables cash collected during fiscal year 2021. In addition, the NC Department of Insurance (DOI) receivable recorded as due from primary government related to additional Hurricane Florence insurance recoveries increased \$6.6 million due to ongoing analysis of claims by the DOI.

Capital assets, net increased \$81.8 million during fiscal year 2021. This was largely due to the two dormitories (\$64.4 million), a utility building (\$0.6 million), and land (\$4.4 million) recorded as part of the service concession arrangement described in Note 7. There was also a \$24.8 million increase in construction in progress due to continuing construction on Shore Dining Hall, Film Studies, and other building projects, as well as, increases to machinery and equipment totaling \$4.3 million. These increases were offset by \$16.7 million in depreciation.

Other noncurrent assets increased by \$33.8 million due primarily to the \$39.7 million increase in endowment investments because of the endowment performance detailed in the financial highlights section above and a \$7.8 million increase in restricted noncurrent cash because of the legislature's designation of the management flexibility portion of the fiscal year 2021 cash carryforward as capital related. These were offset by a \$14.6 million decrease in the portion of the NC Department of Insurance receivable recorded as restricted due from primary government related specifically to Dobo Hall.

#### **Deferred Outflows of Resources**

For fiscal year 2021, total deferred outflows of resources decreased \$9.0 million. Deferred outflows fluctuate yearly due to changes in pension and OPEB liability/asset assumptions and actuarial inputs, such as differences between projected and actual investment earnings and changes in the University's proportion of the liabilities/assets. Deferred outflows for OPEB decreased \$10.1 million due mainly to changes in assumptions and changes in the University's proportionate share of the liability and contributions during the year of \$2.5 million and \$8.6 million, respectively.

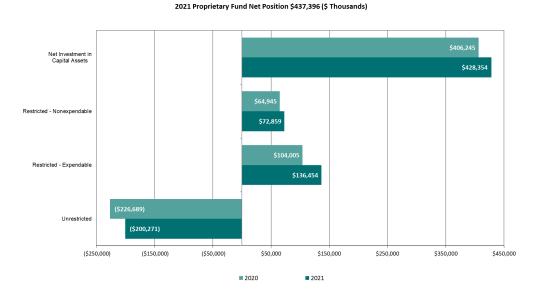

#### Liabilities

Long-term liabilities, net decreased \$36.4 million mainly due to a decrease of \$32.0 million related to the net OPEB liability offset by an increase of \$6.7 million related to the net pension liability. See sections on deferred outflows/inflows of resources related to pensions and OPEB for more details on these fluctuations, as well as Notes 14 and 15 of the Notes to the Financial Statements. In addition, long-term debt decreased \$11.4 million due to fiscal year 2021 debt payments.

#### **Deferred Inflows of Resources**

Total deferred inflows of resources increased \$72.3 million during fiscal year 2021. This was primarily a result of the \$68.0 million deferred inflow recorded as part of the service concession arrangement described in Note 7. Deferred inflows also fluctuate yearly due to changes in pension and OPEB liability/asset assumptions and actuarial inputs, such as differences between projected and actual investment earnings and changes in the University's proportion of the liabilities/assets. Deferred Inflows for OPEB increased \$4.6 million due to a \$14.3 million

increase related to changes in actuarial assumptions, offset by a \$5.6 million decrease in the proportionate liability and a \$4.2 million decrease due to the difference between actual and expected actuarial experience.

The \$22.1 million increase in net investment in capital assets was due primarily to the \$81.8 million increase in capital assets discussed above, a \$5.6 million decrease in capital related liabilities and an \$11.4 million decrease in capital debt. These were offset by the \$68.0 million service concession arrangement discussed in Note 7.

Restricted expendable and nonexpendable net position increased \$40.4 million due largely to the performance of the endowment discussed in the endowment section above during fiscal year 2021.

Unrestricted net position improved \$26.4 million due to the \$11.7 million increase in pooled cash and the \$32.0 million decrease in the net OPEB liability offset by the \$9.9 million decrease in the deferred outflows related to OPEB, and increases of \$6.7 million and \$4.5 million in the net pension liability and deferred inflows related to OPEB, respectively, as discussed above.

#### Statement of Revenues, Expenses, and Changes in Net Position

The Statement of Revenues, Expenses, and Changes in Net Position includes the revenues received by the institution, both operating and nonoperating, and the expenses paid by the institution, both operating and nonoperating, as well as any other revenues, expenses, gains, and losses received or expended by the University's proprietary funds.

Operating revenues are received for providing goods and services to the various customers and constituencies of the University. Operating expenses are used to acquire or produce the goods and services provided in return for the operating revenues, and to carry out the mission of the University. Nonoperating revenues are revenues received for which goods and services are not provided; examples include state appropriations, noncapital grants and gifts, and investment income. Nonoperating expenses include interest and fees on debt, loss on sale of assets, and other expenses not involved in the normal operations of the University.

#### Condensed Statement of Revenues, Expenses, and Changes in Net Position

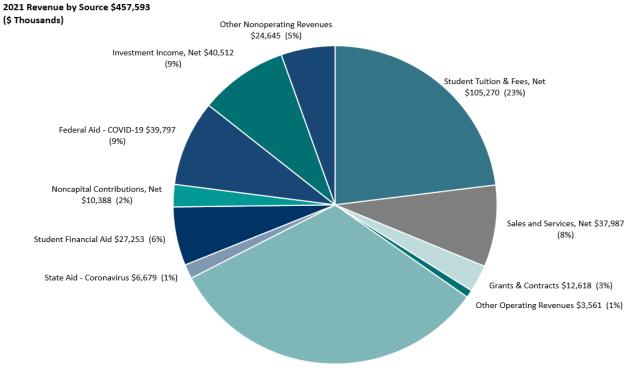

Proprietary Fund For Year Ended June 30, as Indicated

| Increase in Net Position                           | \$   | 88,890,332  | \$ | 40,803,922    | \$ | 48,086,410   | 117.8%      |
|  |      |             |    |               |    |              |             |

Overall, net position increased \$88.9 million during the year ended June 30, 2021 which was an increase of \$48.1 million when compared with the fiscal year 2020 overall increase of \$40.8 million. This was due to the comparative increase in net nonoperating revenues and other revenues of \$76.0 million and offset by the increase in total operating expenses of \$7.0 million and the decrease in total operating revenues of \$20.9 million, respectively.

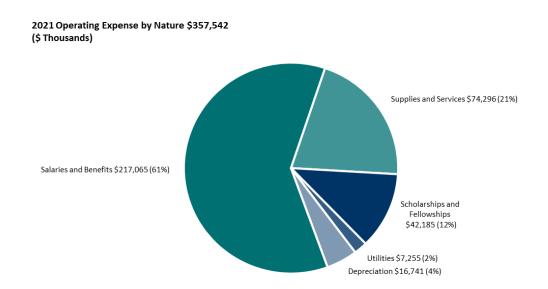

#### **Operating Revenues**

Student tuition and fees, net decreased \$16.8 million due to a shift to distance education courses as discussed above. The \$5.7 million decrease in sales and services was also due primarily to the shift to online courses and the reduction in students on campus. Specifically, dining, parking, and recreational services revenues decreased \$3.1 million, \$1.0 million, and \$1.0 million, respectively.

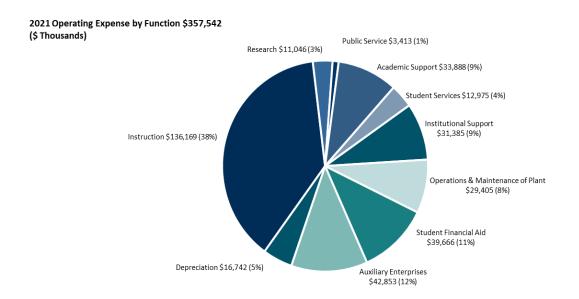

State Appropriations \$148,883 (33%)

#### **Operating Expenses**

Supplies and services decreased 8.0% or \$6.4 million mainly due to the suspension of employee travel due to the pandemic (\$4.4 million decrease) and a decrease in food service expenses of \$3.0 million because of the decrease in students on campus during fiscal year 2021.

Scholarships and fellowships increased 31.2% or \$10.0 million in fiscal year 2021 largely due to the fact that the University received and allocated \$14.4 million in federal student coronavirus aid compared with only \$4.4 million in the prior fiscal year.

Instruction expense of \$136.2 million remains the largest expense by function. The overall increase in operating expense of \$7.0 million was due in large part to the increase in student financial aid related to scholarships and fellowships of \$10.0 million as discussed in the operating expenses section above.

#### **Nonoperating Revenues and Expenses**

State aid - coronavirus increased \$6.7 million due to Coronavirus Relief Fund grant funds appropriated to the University by the State during the fiscal year. Federal aid - COVID-19 Higher Education Emergency Relief Funds (HEERF) revenue increased \$35.1 million due to the additional pandemic relief provided by the Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA) and American Rescue Plan (ARP) Act signed into law on December 27, 2020 and March 11, 2021, respectively. See Note 19 for additional information regarding the impact on the University's financial statements.

As discussed in the financial highlights section, the endowment fund had its best fiscal year since inception which resulted in an increased in investment income of 656.5% or \$35.2 million in fiscal year 2021.

Hurricane Florence disaster costs during fiscal year 2021 were \$3.4 million as it had been nearly three years since the hurricane made landfall. In fiscal year 2020, UNCW reported other hurricane losses and insurance recoveries, of \$22.2 million and \$7.9 million, respectively. As a result, net Hurricane Florence related nonoperating expenses decreased \$11.0 million in fiscal year 2021. Financial activity related to Hurricane Florence will continue into the next fiscal year and will include mostly collections reimbursements due from the North Carolina Department of Insurance (DOI) and the Federal Emergency Management Agency (FEMA). See Note 18 for additional information related to Hurricane Florence's impact on the University.

#### **Other Revenues**

In the prior fiscal year, no capital appropriations were approved by the State. During fiscal year 2021, the legislature designated the management flexibility portion of the annual cash carryforward be used for capital projects and as a result, \$7.8 million is shown as capital appropriations in the financial statements.

Capital contributions revenue decreased \$30.1 million due primarily to funding of \$30.9 million for Veteran's Hall in fiscal year 2020 compared with only \$4.6 million in fiscal year 2021.

#### **Statement of Cash Flows**

The Statement of Cash Flows provides information about proprietary fund cash receipts and cash payments during the year. The Statement of Cash Flows also helps users assess the University's:

- Ability to generate future net cash flows;
- Ability to meet its obligations as they come due; and
- Need for external financing.

#### Condensed Statement of Cash Flows Proprietary Fund For Year Ended June 30, as Indicated

#### **Operating Activities**

Major cash sources of \$160.5 million were generated from student tuition and fees, sales and services, and contracts and grants. Major cash uses were compensation to employees of \$224.6 million, payments to vendors and suppliers for goods and services of \$82.3 million, and disbursements to students for scholarships and fellowships of \$42.2 million. Payments to employees and fringe benefits increased \$8.1 million largely due to additional staffing costs and an increase in the contractually-required contribution rate for the University's defined benefit plan. The \$10.0 million increase in payments for scholarships and fellowships was directly attributed to federal aid issued to students as part of the HEERF grant. The decrease in cash received from customers of \$21.9 million was the result of the \$16.4 million and \$5.7 million decreases in mandatory fees and sales and services, respectively, due to the pandemic. Payments to vendors and suppliers decreased \$17.0 million due primarily to the net decrease of \$12.4 million in repairs and maintenance expenses and a \$3.0 million decrease in food service expenses as a result of the decrease in students on campus due to the pandemic. These decreases were offset by a \$1.1 million increase in property insurance premiums.

#### Noncapital Financial Activities

The largest cash inflow was state appropriations of \$148.9 million. While GASB standards require that this revenue be classified as nonoperating, these funds were essentially used to maintain operations. The increase of \$59.4 million in noncapital financing activities was due primarily to the increase in federal and state pandemic aid of \$46.7 million. In addition, net Hurricane Florence related activities decreased \$6.0 million during fiscal year 2021 due to the fact that the related repairs and maintenance are nearing completion. Additions to endowments increased \$5.3 million due to a capital campaign initiative.

#### **Capital Financing Activities**

Cash provided decreased \$44.2 million during fiscal year 2021 due to the fact that no new debt was issued compared with \$22.6 million in fiscal year 2020. Capital grants and aid decreased \$21.3 million as \$30.9 million was received in fiscal year 2020 for Veteran's Hall. This decrease was offset by capital related management flexibility carryforward funds of \$7.8 million in fiscal year 2021. Cash used of \$54.1 million was primarily for the completion of Dobo Hall and other capital projects (\$34.9 million) and principal and interest payments on capital debt of \$19.2 million.

#### **Investing Activities**

Cash provided included sales and maturities of investments of \$0.5 million and investment income of \$2.4 million. Cash used reflected the purchase of investments and related fees of \$0.3 million.

#### **Capital Assets and Debt Administration**

#### **Capital Assets**

The University had \$721.3 million invested in capital assets at June 30, 2021, as reported in the table below, an increase of \$81.8 million from 2020.

Capital Assets Net of Depreciation June 30, as Indicated

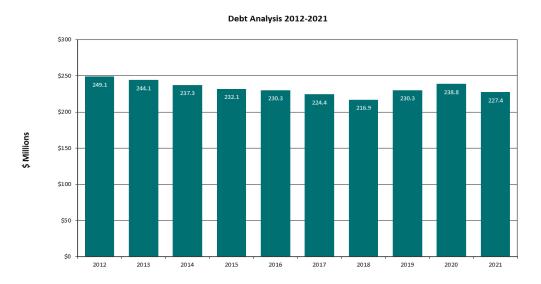

|                                | 2021           | 2020           | Change        |

During fiscal year 2021, the University placed into service several capital assets associated with the service concession arrangement with CHF-Wilmington, LLC. As a result, land increased \$4.4 million due to land preparation costs associated with the project and buildings, net, increased by \$64.4 million for two dormitories and \$0.6 million for utility building. See Note 7 for further information regarding the service concession arrangement. The additional increase in buildings, net, was due to the completion of Dobo Hall during the year, \$51.0 million, and other building additions of \$2.2 million offset by a net increase in accumulated depreciation of \$15.3 million.

Construction in progress decreased \$31.6 million during the fiscal year due to the capitalization of Dobo Hall, \$51.0 million, offset by additions related to Shore Dining Hall, \$9.4 million, Film Studies, \$2.9 million, and other additions totaling \$7.1 million.

#### Debt

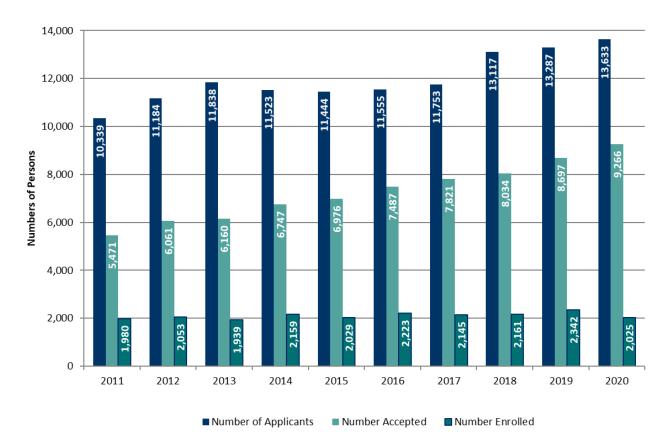

As of June 30, 2021, the University's \$227.4 million in long-term debt included outstanding revenue bonds payable, limited obligation bonds, and bonds from direct placements of \$217.1 million, notes from direct borrowings of \$9.5 million, and capital leases payable of \$0.8 million.

For additional information on capital assets and debt administration, see Notes 6, 9, and 10 of the financial statements.

#### **Economic Forecast**

UNCW is committed to the continued success of the University and its students while navigating the challenges created by the COVID-19 pandemic. In fall 2020, the number of freshman applications climbed to 13,633 while enrollment decreased slightly to 2,025. Overall enrollment increased to 17,915 students driven primarily by the increase in graduate enrollment of 551 students in fall 2020. Despite the pandemic, preliminary data shows fall 2021 freshman applications reaching 15,792, an increase of 15.8% and freshman enrollment of 2,435, an increase of 20.2%. Preliminary data for fall 2021 also shows total enrollment increasing to 18,031.

Freshman Fall Enrollment 2011-2020

For fiscal year 2022, UNCW requested an enrollment growth allocation of \$14.0 million. To further support growth and operations of the University, UNCW anticipates that enrollment growth and building reserve funds from fiscal year 2021, that were funded with non-recurring funds, will be made permanent in fiscal year 2022.

UNCW continues the fixed tuition program for undergraduate resident students which stipulates that tuition remain fixed for four years. UNCW has not increased tuition for its undergraduate students since fiscal year 2018 and its graduate students since fiscal year 2019. The University did increase fees for fiscal year 2022. Specifically, health services fees increased \$27 to \$246 to

respond to the increased need for counseling services as a result of the pandemic and campus security fees increased \$30 to \$60 to provide for new initiatives, staffing, and security measures.

The University leadership continues to pursue actions to mitigate the financial impact caused by the pandemic and is limiting purchases of goods and services, eliminating non-essential travel, and limiting certain employment actions. The University's primary focus remains the health and safety of students, faculty, and staff as we continue to develop and implement strategies to respond to the virus.

Excellence, integrity, diversity, and innovation shape the student-centered learning experience at UNCW. These values, along with our ever-present dedication to community engagement, are among the distinctive gualities that make UNCW one of the best institutions of higher education in the nation. The University was ranked among the top 100 national public universities by U.S. News & World Report for the third year since it was first elevated to the list in 2018 and is one of only three UNC System schools on the list. In February 2021, the University publicly launched its \$100.0 million 'Like No Other: The Campaign for UNCW' effort which is a multi-year fundraising campaign to support students, faculty, programs, and facilities that has raised \$86.0 million to date. In addition, UNCW opened a COVID-19 vaccination clinic in March 2021 to support the safety and well-being of the campus community and support its participation in the White House's College Vaccine Campus Challenge and help it achieve its goal of at least a 70% COVID-19 vaccination rate in the United States. In the coming years, the University intends to continue to expand degree programs that support innovation and advance technology to improve lives in our region, the State, and beyond. Looking ahead, UNCW intends to develop a new multi-year strategic plan in fiscal year 2022 aimed at building on the success of the 2016-2021 Giving Flight to Imagination campaign which will help challenge the University to reach even higher in the years to come.

#### Contacting the University's Financial Management

This financial report is designed to provide our students, citizens, investors, and creditors with a general overview of the University's finances and demonstrate accountability of all funds. Contact the Controller's Office at (910) 962-3144 for additional financial information or access the Controller's Office web page at <a href="http://www.uncw.edu/controller/financial\_reports.html">http://www.uncw.edu/controller/financial\_reports.html</a>.

# NOTES TO THE FINANCIAL STATEMENTS

#### NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

A. Financial Reporting Entity - The concept underlying the definition of the financial reporting entity is that elected officials are accountable to their constituents for their actions. As required by accounting principles generally accepted in the United States of America (GAAP), the financial reporting entity includes both the primary government and all of its component units. An organization other than a primary government serves as a nucleus for a reporting entity when it issues separate financial statements. The University of North Carolina Wilmington (University or UNCW) is a constituent institution of the multi-campus University of North Carolina System, which is a component unit of the State of North Carolina and an integral part of the State's Annual Comprehensive Financial Report.

The accompanying financial statements present all funds belonging to the University and its component units. While the Board of Governors of the University of North Carolina System has ultimate responsibility, the Chancellor, the Board of Trustees, and the Board of Trustees of the Endowment Fund have delegated responsibilities for financial accountability of the University's funds. The University's component units are blended in the University's financial statements. See below for further discussion of the University's component units. Other related foundations and similar nonprofit corporations for which the University is not financially accountable are not part of the accompanying financial statements.

**Blended Component Units** - Although legally separate, the UNCW Corporation (Corporation), the UNCW Corporation II (Corporation II), the UNCW Research Foundation (Research Foundation), and the Donald R. Watson Foundation, Inc. (Watson Foundation), component units of the University, are reported as if they were part of the University.

The Corporation was organized to enhance the University of North Carolina Wilmington's educational mission, including overseeing and assisting in the acquisition and financing of capital assets for the University. The Corporation is a public not-for-profit organization that reports its financial results under Governmental Accounting Standards Board (GASB) Statements. The Corporation is governed by a six-member board of which three are delegates of the University. The remaining three positions are filled by persons external to the University's operations and business functions and are appointed by the UNCW Chancellor to serve on the board. As the Corporation's sole purpose is to benefit the University of North Carolina Wilmington, its financial statements have been blended with those of the University.

The Corporation II includes the activities of the single member entities, UNCW Corporation Real Property I, LLC (Real Property), and UNCW Corporation College Station, LLC (College Station). The Corporation II was organized to enhance the University of North Carolina Wilmington's educational mission, including constructing or managing facilities for the University. These entities acquire real property that is used solely by the University for auxiliary support, off-campus parking, or other agreed upon activities. The Corporation II is a public not-for-profit organization that reports its financial results under Governmental Accounting Standard Board (GASB) Statements. The Corporation II is governed by a seven-member board of which four are delegates of the University. The remaining three positions are filled by persons external to the University's operations and business functions and are appointed by the UNCW Chancellor to serve on the board. As the Corporation II's sole purpose is to benefit the University of North Carolina Wilmington, its financial statements have been blended with those of the University.

The Research Foundation includes the activities of the single member entities, UNCW Corporation Research I, LLC, MARBIONC Development Group, LLC, The CREST Millennial Campus, LLC, the UNCW Center for Innovation and Entrepreneurship, LLC, and the UNCW Innovation Coalition Corporation. The Research Foundation was organized to enhance the University of North Carolina Wilmington's educational mission. These entities, through collaborative research relationships, pursue commercialization opportunities and the economic development of research discoveries, materials, and intellectual properties for the benefit of the University. The Research Foundation is a public not-for-profit organization that reports its financial results under Governmental Accounting Standard Board (GASB) Statements. The Research Foundation is governed by a four-member board, all of which are delegates of the University. As the Research Foundation's sole purpose is to benefit the University of North Carolina Wilmington, its financial statements have been blended with those of the University.

The Watson Foundation was organized to support charitable, religious, scientific, and educational institutions located in the State of North Carolina provided that each supported organization is tax exempt and eligible to receive charitable donations. The Watson Foundation is a public not-for-profit organization that reports its financial results under Financial Accounting Standards Board (FASB) Statements. As such, certain revenue recognition criteria and presentation features are different from that of GASB. The financial statement format of the Watson Foundation was modified to make it compatible with the University's financial statement format. The Watson Foundation is governed by a five-member board of which three are appointed by the Board of Trustees, and two are appointed by the benefactor. Because a majority of the directors of the Watson Foundation are appointed by the members of the University of North Carolina Wilmington's Board of Trustees and the Watson Foundation's primary purpose is to benefit the University of North Carolina Wilmington, its financial statements have been blended with those of the University.

Separate financial statements for the Corporation, the Corporation II, the Research Foundation, and the Watson Foundation may be obtained from the Office of Associated Entities, 601 S. College Road, Wilmington, NC 28403-5918, or by calling 910-962-3139.

Condensed combining information regarding blended component units is provided in Note 21.

B. Basis of Presentation - The accompanying financial statements are presented in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB). GASB Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments, as amended by GASB Statement No. 35, Basic Financial Statements - and Management's Discussion and Analysis - for Public Colleges and Universities, and GASB Statement No. 84, Fiduciary Activities, require the presentation of both proprietary and fiduciary fund financial statements. See below for a description of each fund.

**Proprietary Fund** - This fund accounts for the University's primary activities and is presented in a single column on the accompanying proprietary fund financial statements.

**Fiduciary Fund** - This fund accounts for all of the University's fiduciary activities, which are considered custodial funds.

**C. Basis of Accounting** - The financial statements of the University have been prepared using the economic resource measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred, regardless of the timing of the cash flows.

Nonexchange transactions, in which the University receives (or gives) value without directly giving (or receiving) equal value in exchange, include state appropriations, certain grants, and donations. Revenues are recognized, net of estimated uncollectible amounts, as soon as all eligibility requirements imposed by the provider have been met, if probable of collection.

- D. Cash and Cash Equivalents This classification includes undeposited receipts, petty cash, cash on deposit with private bank accounts, cash on deposit with fiscal agents, and deposits held by the State Treasurer in the Short-Term Investment Fund (STIF). The STIF maintained by the State Treasurer has the general characteristics of a demand deposit account in that participants may deposit and withdraw cash at any time without prior notice or penalty.
- E. Investments To the extent available, investments are recorded at fair value based on quoted market prices in active markets on a trade-date basis. Additional information regarding the fair value measurement of investments is disclosed in Note 3. Because of the inherent uncertainty in the use of estimates, values that are based on estimates may differ from the values that would have been used had a ready market existed for the investments. The net change in the value of investments is recognized as a component of investment income.

Endowment investments include the principal amount of gifts and bequests that, according to donor restrictions, must be held in perpetuity or for a specified period of time, along with any accumulated investment earnings on such amounts. Further, endowment investments also include amounts internally designated by the University for investment in an endowment capacity (i.e. quasi-endowments), along with accumulated investment earnings on such amounts. Land and other real estate held as investments by endowments are reported at fair value, consistent with how investments are generally reported.

- F. Receivables Receivables consist of tuition and fees charged to students and charges for auxiliary enterprises' sales and services. Receivables also include amounts due from the federal government, state and local governments, private sources in connection with reimbursement of allowable expenditures made pursuant to contracts and grants, and pledges that are verifiable, measurable, and expected to be collected and available for expenditures for which the resource provider's conditions have been satisfied. Receivables are recorded net of estimated uncollectible amounts.
- **G. Inventories** Inventories, consisting of expendable supplies, are valued at cost using the first-in, first-out method.
- **H. Prepaid Items** Prepaid items are comprised of prepayments for study abroad programs taking place in future periods.
- I. **Capital Assets** Capital assets are stated at cost at date of acquisition or acquisition value at date of donation in the case of gifts. Donated capital assets acquired prior to July 1, 2015 are stated at fair value as of the date of donation. The value of assets constructed includes all material direct and indirect construction costs.

The University capitalizes assets that have a value or cost of \$5,000 or greater at the date of acquisition and an estimated useful life of more than one year.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets in the following manner:

| Asset Class             | Estimated Useful Life |
|-------------------------|-----------------------|
| Buildings               | 10-100 years          |
| Machinery and Equipment | 2-50 years            |
| General Infrastructure  | 10-50 years           |

The Randall Library Special collection is capitalized at cost or acquisition value at the date of donation. The collection is considered inexhaustible and is therefore not depreciated.

J. Restricted Assets - Certain resources are reported as restricted assets because restrictions on asset use change the nature or normal understanding of the availability of the asset. Resources that are not

available for current operations and are reported as restricted include resources restricted for the acquisition or construction of capital assets, resources legally segregated for the payment of principal and interest as required by debt covenants, unspent debt proceeds, and endowment and other restricted investments.

K. Accounting and Reporting of Fiduciary Activities - Pursuant to the provisions of GASB Statement No. 84, *Fiduciary Activities*, custodial funds that are normally expected to be received and disbursed within a 3-month period or otherwise do not meet the fiduciary activity criteria defined by GASB Statement No. 84 continue to be reported in the Statement of Net Position as funds held for others and as operating activities in the Statement of Cash Flows.

All custodial funds meeting the criteria of a fiduciary activity are reported in separate fiduciary fund financial statements.

L. Noncurrent Long-Term Liabilities - Noncurrent long-term liabilities include principal amounts of long-term debt and other long-term liabilities that will not be paid within the next fiscal year. Debt is defined as a liability that arises from a contractual obligation to pay cash (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established. Long-term debt includes: revenue bonds payable, limited obligation bonds, bonds from direct placements, notes from direct borrowings, and capital leases payable. Other long-term liabilities include: compensated absences, net pension liability, net other postemployment benefits (OPEB) liability, and workers' compensation.

Revenue bonds payable and limited obligation bonds are reported net of unamortized premiums or discounts. The University amortizes bond premiums/discounts over the life of the bonds using the straight-line method that approximates the effective interest method. Deferred gains and losses on refundings are amortized over the life of the old debt or new debt (whichever is shorter) using the straight-line method, and are disaggregated as deferred outflows of resources or deferred inflows of resources on the Statement of Net Position. Issuance costs are expensed in the reporting period in which they are incurred.

The net pension liability represents the University's proportionate share of the collective net pension liability reported in the State of North Carolina's 2020 *Comprehensive Annual Financial Report.* This liability represents the University's portion of the collective total pension liability less the fiduciary net position of the Teachers' and State Employees' Retirement System. See Note 14 for further information regarding the University's policies for recognizing liabilities, expenses, deferred outflows of resources, and deferred inflows of resources related to pensions.

The net OPEB liability represents the University's proportionate share of the collective net OPEB liability reported in the State of North Carolina's 2020 *Comprehensive Annual Financial Report*. This liability represents the

University's portion of the collective total OPEB liability less the fiduciary net position of the Retiree Health Benefit Fund. See Note 15 for further information regarding the University's policies for recognizing liabilities, expenses, deferred outflows of resources, and deferred inflows of resources related to OPEB.

M. Compensated Absences - The University's policy is to record the cost of vacation leave when earned. The policy provides for a maximum accumulation of unused vacation leave of 30 days which can be carried forward each January 1 or for which an employee can be paid upon termination of employment. When classifying compensated absences into current and noncurrent, leave is considered taken using a last-in, first-out (LIFO) method. Also, any accumulated vacation leave in excess of 30 days at year-end is converted to sick leave. Under this policy, the accumulated vacation leave for each employee at June 30 equals the leave carried forward at the previous December 31 plus the leave earned, less the leave taken between January 1 and June 30.

In addition to the vacation leave described above, compensated absences include the accumulated unused portion of the special annual leave bonuses awarded by the North Carolina General Assembly. The bonus leave balance on December 31 is retained by employees and transferred into the next calendar year. It is not subject to the limitation on annual leave carried forward described above and is not subject to conversion to sick leave.

There is no liability for unpaid accumulated sick leave because the University has no obligation to pay sick leave upon termination or retirement. However, additional service credit for retirement pension benefits is given for accumulated sick leave upon retirement.

- N. Deferred Outflows/Inflows of Resources Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then.
- **O.** Net Position The University's net position is classified as follows:

# **Proprietary Fund**

**Net Investment in Capital Assets** - This represents the University's total investment in capital assets, net of outstanding liabilities related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets. Additionally, deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of capital assets or related debt are also included in this component of net position.

**Restricted Net Position - Nonexpendable -** Nonexpendable restricted net position includes endowments and similar type assets whose use is limited by donors or other outside sources, and, as a condition of the gift, the principal is to be maintained in perpetuity.

**Restricted Net Position - Expendable -** Expendable restricted net position includes resources for which the University is legally or contractually obligated to spend in accordance with restrictions imposed by external parties.

**Unrestricted Net Position** - Unrestricted net position includes resources derived from student tuition and fees, sales and services, unrestricted gifts, royalties, and interest income. It also includes the net position of accrued employee benefits such as compensated absences, workers' compensation, pension plans, and other postemployment benefits.

Restricted and unrestricted resources are tracked using a fund accounting system and are spent in accordance with established fund authorities. Fund authorities provide rules for the fund activity and are separately established for restricted and unrestricted activities. When both restricted and unrestricted funds are available for expenditure, the decision for funding is transactional based within the departmental management system in place at the University. For projects funded by tax-exempt debt proceeds and other sources, the debt proceeds are always used first. Both restricted and unrestricted net position include consideration of deferred outflows of resources and deferred inflows of resources and deferred inflows of resources and deferred inflows of resources and deferred position.

#### **Fiduciary Fund**

**Restricted Net Position** - Fiduciary net position includes resources held in a custodial capacity for other organizations that are not available for alternative use by the University.

- P. Scholarship Discounts Student tuition and fees revenues and certain other revenues from University charges are reported net of scholarship discounts in the accompanying Statement of Revenues, Expenses, and Changes in Net Position. The scholarship discount is the difference between the actual charge for goods and services provided by the University and the amount that is paid by students or by third parties on the students' behalf. Student financial assistance grants, such as Pell grants, and other federal, state, or nongovernmental programs, are recorded as nonoperating revenues in the accompanying Statement of Revenues, Expenses, and Changes in Net Position. To the extent that revenues from these programs are used to satisfy tuition, fees, and other charges, the University has recorded a scholarship discount.
- **Q.** Revenue and Expense Recognition The University classifies its revenues and expenses as operating or nonoperating in the accompanying

Statement of Revenues, Expenses, and Changes in Net Position. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the University's principal ongoing operations. Operating revenues include activities that have characteristics of exchange transactions, such as (1) student tuition and fees, (2) sales and services of auxiliary enterprises, (3) certain federal, state, and local grants and contracts that are essentially contracts for services, and (4) interest earned on loans. Operating expenses are all expense transactions incurred other than those related to capital and noncapital financing or investing activities as defined by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*.

Nonoperating revenues include activities that have the characteristics of nonexchange transactions. Revenues from nonexchange transactions that represent subsidies or gifts to the University, as well as investment income, are considered nonoperating since these are either investing, capital, or noncapital financing activities. Capital contributions are presented separately after nonoperating revenues and expenses.

**R.** Internal Sales Activities - Certain institutional auxiliary operations provide goods and services to University departments, as well as to its customers. These institutional auxiliary operations include activities such as physical plant, copy centers, postal services, and telecommunications. In addition, the University has other miscellaneous sales and service units that operated either on a reimbursement or charge basis. All internal sales activities to University departments from auxiliary operations and sales and service units have been eliminated in the accompanying financial statements. These eliminations are recorded by removing the revenue and expense in the auxiliary operations and sales and service units and, if significant, allocating any residual balances to those departments receiving the goods and services during the year.

# NOTE 2 - DEPOSITS AND INVESTMENTS

A. Deposits - Unless specifically exempt, the University is required by North Carolina General Statute 147-77 to deposit moneys received with the State Treasurer or with a depository institution in the name of the State Treasurer. However, the University of North Carolina Board of Governors, pursuant to G.S. 116-36.1, may authorize the University to deposit its institutional trust funds in interest-bearing accounts and other investments authorized by the Board of Governors, without regard to any statute or rule of law relating to the investment of funds by fiduciaries. Although specifically exempted, the University may voluntarily deposit institutional trust funds, endowment funds, special funds, revenue bond proceeds, debt service funds, and funds received for services rendered by health care professionals with the State Treasurer. Special funds consist of moneys for intercollegiate athletics and agency funds held directly by the University.

At June 30, 2021, the amount shown on the Statement of Net Position and the Statement of Fiduciary Net Position as cash and cash equivalents includes \$187,984,875 for the proprietary fund and \$3,150,932 for the fiduciary fund, which represents the University's equity position in the State Treasurer's Short-Term Investment Fund (STIF). The STIF (a portfolio within the State Treasurer's Investment Pool, an external investment pool that is not registered with the Securities and Exchange Commission or subject to any other regulatory oversight and does not have a credit rating) had a weighted average maturity of 1.3 years as of June 30, 2021. Assets and shares of the STIF are valued at fair value. Deposit and investment risks associated with the State Treasurer's Investment Pool (which includes the State Treasurer's STIF) are included in the North Carolina Department of State Treasurer Investment Programs' separately issued audit report. This separately issued report can be obtained from the Department of State Treasurer, 3200 Atlantic Avenue, Raleigh, NC 27604 or can be accessed from the Department of State Treasurer's website at https://www.nctreasurer.com/ in the Audited Financial Statements section.

Cash on hand at June 30, 2021 was \$32,715. The carrying amount of the University's deposits not with the State Treasurer was \$566,687, and the bank balance was \$519,412. Custodial credit risk is the risk that in the event of a bank failure, the University's deposits may not be returned to it. The University does not have a deposit policy for custodial credit risk. As of June 30, 2021, the University's bank balance exposed to custodial credit risk (amounts that are uninsured and uncollateralized) was \$163,020.

**B. Investments** - The University is authorized by the University of North Carolina Board of Governors pursuant to G.S. 116-36.2 and Section 600.2.4 of the Policy Manual of the University of North Carolina to invest its special funds and funds received for services rendered by health care professionals in the same manner as the State Treasurer is required to invest, as discussed below.

G.S. 147-69.1(c), applicable to the State's General Fund, and G.S. 147-69.2, applicable to institutional trust funds, authorize the State Treasurer to invest in the following: obligations of or fully guaranteed by the United States; obligations of certain federal agencies; repurchase agreements; obligations of the State of North Carolina; certificates of deposit and other deposit accounts of specified financial institutions; prime quality commercial paper; asset-backed securities with specified ratings, specified bills of exchange or time drafts, and corporate bonds/notes with specified ratings; general obligations of other states; general obligations of North Carolina local governments; and obligations of certain entities with specified ratings.

In accordance with the bond resolutions, bond proceeds and debt service funds are invested in obligations that will by their terms mature on or before the date funds are expected to be required for expenditure or withdrawal.

G.S. 116-36(e) provides that the trustees of the Endowment Fund shall be responsible for the prudent investment of the Fund in the exercise of their

sound discretion, without regard to any statute or rule of law relating to the investment of funds by fiduciaries but in compliance with any lawful condition placed by the donor upon that part of the Endowment Fund to be invested.

Investments of the University's component unit, the Watson Foundation, are subject to and restricted by G.S. 36E Uniform Prudent Management of Institutional Funds Act (UPMIFA) and any requirements placed on them by contract or donor agreements.

Investments from various donors or other sources may be pooled unless prohibited by statute or by terms of the gift or contract. The University utilizes investment pools to manage investments and distribute investment income.

Investments are subject to the following risks as defined by GASB Statement No. 40, *Deposit and Investment Risk Disclosures - An Amendment of GASB Statement No. 3.* 

*Interest Rate Risk*: Interest rate risk is the risk the University may face should interest rate variances affect the value of investments. The University does not have a formal policy that addresses interest rate risk.

*Credit Risk*: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The University does not have a formal policy that addresses credit risk.

**Long-Term Investment Pool** - This is an internal investment pool that is utilized for the investment of the endowment funds. Fund ownership is measured using the unit value method. Under this method, the pool uses a unit basis to determine each participating fund's market value and to determine the fund's earnings. The investment strategy, including the selection of investment managers, is based on the directives of the Board of Trustees of the Endowment Fund. At year-end, the pooled investment subject to interest rate risk were all held with the UNC Investment Fund, LLC.

**UNC Investment Fund, LLC** - At June 30, 2021, the University's investments include \$132,847,133, which represents the University's equity position in the UNC Investment Fund, LLC (UNC Investment Fund). The UNC Investment Fund is an external investment pool that is not registered with the Securities and Exchange Commission, does not have a credit rating, and is not subject to any regulatory oversight. Investment risks associated with the UNC Investment Fund are included in audited financial statements of the UNC Investment Fund, LLC which may be obtained from UNC Management Company, Inc., 1400 Environ Way, Chapel Hill, NC 27517.

**Non-Pooled Investments** - The following table presents investments by type and investments subject to interest rate risk at June 30, 2021, for the University's non-pooled investments.

|  |                         |              | Inves    | tment N | laturitie  | es (in Years) |              |  |  |

### NOTE 3 - FAIR VALUE MEASUREMENTS

To the extent available, the University's investments are recorded at fair value as of June 30, 2021. GASB Statement No. 72, *Fair Value Measurement and Application*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This statement establishes a hierarchy of valuation inputs based on the extent to which the inputs are observable in the marketplace. Inputs are used in applying the various valuation techniques and take into account the assumptions that market participants use to make valuation decisions. Inputs may include price information, credit data, interest and yield curve data, and other factors specific to the financial instrument. Observable inputs reflect market data obtained from independent sources. In contrast, unobservable inputs reflect the entity's assumptions about how market participants would value the financial instrument. Valuation techniques should maximize the use of observable inputs to the extent available.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used for financial instruments measured at fair value on a recurring basis:

- Level 1 Investments whose values are based on quoted prices (unadjusted) for identical assets in active markets that a government can access at the measurement date.
- Level 2 Investments with inputs other than quoted prices included within Level 1 that are observable for an asset, either directly or indirectly.
- Level 3 Investments classified as Level 3 have unobservable inputs for an asset and may require a degree of professional judgment.

The following table summarizes the University's proprietary and fiduciary fund investments, including deposits in the Short-Term Investment Fund, within the fair value hierarchy at June 30, 2021:

|   |                                | Fair Value Measurements Using |                   |    |                 |    |                |  |  |  |  |

**Short-Term Investment Fund** - Ownership interests of the STIF are determined on a fair market valuation basis as of fiscal year end in accordance

with the STIF operating procedures. Valuation of the underlying assets is performed by the custodian. Pool investments are measured at fair value in accordance with GASB 72. The University's position in the pool is measured and reported at fair value and the STIF is not required to be categorized within the fair value hierarchy.

**UNC Investment Fund** - Ownership interests of the UNC Investment Fund are determined on a market unit valuation basis each month and in accordance with the UNC Investment Fund's operating procedures. Valuation of the underlying assets is performed by the custodian. Pool investments are measured at fair value in accordance with GASB 72. The University's position in the pool is measured and reported at fair value and the UNC Investment Fund is not required to be categorized within the fair value hierarchy.

**Debt and Equity Securities** - Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.

#### NOTE 4 - ENDOWMENT INVESTMENTS

Investments of the University's endowment funds are pooled, unless required to be separately invested by the donor. If a donor has not provided specific instructions, state law permits the Board of Trustees to authorize for expenditure the net appreciation, realized and unrealized, of the investments of the endowment funds. Under the Uniform Prudent Management of Institutional Funds Act (UPMIFA), authorized by the North Carolina General Assembly on March 19, 2009, the Board may also appropriate expenditures from eligible nonexpendable balances if deemed prudent and necessary to meet program outcomes and for which such spending is not specifically prohibited by the donor agreements.

Investment return of the University's endowment funds is predicated on the total return concept (yield plus appreciation). Annual payouts from the University's endowment funds are based on an adopted spending policy which limits spending to 4.5% of the average market value of the endowment over three previous years. To the extent that the total return for the current year exceeds the payout, the excess is added to principal. If current year earnings do not meet the payout requirements, the University uses accumulated income and appreciation from restricted, expendable net position endowment balances to make up the difference. At June 30, 2021, net appreciation of \$69,529,055 was available to be spent, of which \$60,149,153 was classified in net position as restricted, expendable for specific purposes, including scholarships and fellowships, research, endowed professorships, departmental uses, and other uses. The remaining portion of net appreciation available to be spent is classified as unrestricted net position. During the year, the Board did not appropriate expenditures from eligible nonexpendable endowment funds.

# NOTE 5 - RECEIVABLES

Receivables for the proprietary fund at June 30, 2021, were as follows:

|                                     | Gross<br>Receivables |           |    | Allowance for<br>tful Accounts | Net<br>Receivables |           |  |

#### NOTE 7 - SERVICE CONCESSION ARRANGEMENT FOR STUDENT HOUSING AUTHORITY

The University entered an agreement on December 20, 2018 with CHF-Wilmington, LLC (CHF) to construct and operate a Student Housing Facility. The University entered into this agreement to address a shortage of student housing caused by enrollment growth. The Student Housing Facility consists of a 1,038-bed, two-building student housing facility delivered for occupancy in the fall semester of fiscal year 2021 (Phase I) and a 776-bed student housing facility to be delivered for occupancy during the fall semester of fiscal year 2022 (Phase II). The project is on property located on the campus of the University of North Carolina at Wilmington and leased to CHF for 50 years. Upon final payment of all indebtedness owed under the agreement, CHF will transfer all of its interest in the facility for no cost to the University. The University also reports the facility as a capital asset with a carrying amount of \$69,000,326 at year-end and a related deferred inflow of resources of \$68,012,640. The net effect of this arrangement is reflected in the Statement of Net Position as an increase to net investment in capital assets of \$987,686.

The student housing facility is managed by the University under the terms of the management agreement. The University operates the facility with budgetary oversight from CHF.

#### NOTE 8 - ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Accounts payable and accrued liabilities at June 30, 2021, were as follows:

|  | Amount |           |  |  |  |
|--|--------|-----------|--|--|--|
| Current Accounts Payable and Accrued Liabilities       |        |           |  |  |  |
| Accounts Payable                                       | \$     | 2,429,849 |  |  |  |
| Accounts Payable - Capital Assets                      |        | 1,578,974 |  |  |  |
| Accrued Payroll  |        | 636,672   |  |  |  |
| Contract Retainage                                     |        | 897,807   |  |  |  |
| Intergovernmental Payables                             |        | 11,844    |  |  |  |
| Total Current Accounts Payable and Accrued Liabilities | \$     | 5,555,146 |  |  |  |

# NOTE 9 - LONG-TERM LIABILITIES

**A.** Changes in Long-Term Liabilities - A summary of changes in the long-term liabilities for the year ended June 30, 2021, is presented as follows:

|  | Balance<br>July 1, 2020 | Additions     | Reductions    | Balance<br>June 30, 2021 | Current<br>Portion |

| Total Requirements | \$                    | 70,600,000 | \$ 39,639,422 | \$1 | 06,365,000               | \$ | 41,290,825 | \$2 | 2,806,000                    | \$ | 2,211,190 | \$ | 9,528,413                    | \$ | 1,720,860 |  |

\*Interest on the variable rate College Station note from direct borrowings is calculated based on LIBOR plus 2.05% at 2.14% at June 30, 2021.

E. **Terms of Debt Agreements** - The University's debt agreements are subject to the following collateral requirements and terms with finance-related consequences:

The outstanding **Revenue Bonds Payable** of \$70,600,000 and **Bonds from Direct Placements** of \$22,806,000 (together, "General Revenue Bonds") contain provisions that in an event of default, the bonds may become immediately due and payable if the University fails to make any payment when due or fails to perform any covenant, condition, agreement, or provision for a period of 30 days after written notice.

The outstanding **Limited Obligation Bonds** (LOBs) of \$106,365,000 are obligations of the UNCW Corporation secured by revenues which include rentals payable by the University under leases and use agreements on the facilities financed and refinanced with the LOBs. The LOBs are further secured by a deed of trust on the property financed and refinanced with the LOBs. The outstanding LOBs contain provisions that in the event of default, the bonds become immediately due and payable if the University fails to make any payment when due or fails to perform any covenant, condition, agreement, or provision for a period of 30 days after written notice. Additionally, the bonds become immediately due and payable if an event of default occurs under the leases or use agreements or under the deed of trust. The Trustee may also take property secured under the deed of trust held as security, including foreclosure on the property held as security.

**Notes from Direct Borrowings** - The University has pledged the energy savings improvements installed in its buildings and other structures as collateral for UNC System Guaranteed Energy Savings Installment Financing Agreements in relation to the outstanding notes from direct borrowing of \$8,530,890. These agreements also contain provisions related to events of default and remedies. Significant to these provisions,

an event of default occurs when: (1) the University fails to pay an installment payment when due, (2) an event of nonappropriation from the State occurs, (3) insurance coverage on the asset is not maintained, or (4) the University fails to perform any warranty, covenant, condition, or agreement within 30 days of receiving written notice by the lender or fails to diligently pursue corrective action for matters that cannot be reasonable corrected within 30 days. Upon the occurrence of any event of default, the lender may declare the outstanding amount due and payable immediately. The lender may also exercise all remedies available by law or in the equity provided under the agreement, including sale of the secured assets, and apply the proceeds of any such sale to the amounts due after deducting all costs and expenses related to the recovery, repair, storage, and sale of the secured assets, including court costs and reasonable attorneys' fees incurred.

UNCW has one outstanding note from direct borrowing of \$217,596 dated October 21, 2011, which is an obligation of UNCW Corporation College Station, LLC. It contains provisions that in the event of default, the lender may take any or all of the following actions: (1) declare all balances due immediately; (2) require additional pledged collateral; (3) take possession and foreclose upon the collateral; (4) exercise all rights and remedies available under the agreement or under applicable law; and (5) cease any obligation to advance funds.

UNCW has one outstanding note from direct borrowing of \$779,927 dated July 3, 2019, which is an obligation of UNCW Corporation Real Property I, LLC. It contains provisions that in the event of default, the lender may take any or all of the following actions: (1) declare all balances due immediately; (2) require additional pledged collateral; (3) take possession and foreclose upon the collateral; (4) exercise all rights and remedies available under the agreement or under applicable law; and (5) cease any obligation to advance funds.

#### NOTE 10 - LEASE OBLIGATIONS

A. Capital Lease Obligations - Capital lease obligations relating to laundry equipment and printers are recorded at the present value of the minimum lease payments. Future minimum lease payments under capital lease obligations consist of the following at June 30, 2021:

| Fiscal Year                            | /       | Amount  |  |
|--|---------|---------|--|
| 2022                                   | \$      | 177,400 |  |
| 2023                                   | 177,40  |         |  |
| 2024                                   | 171,590 |         |  |
| 2025                                   | 110,924 |         |  |
| 2026                                   | 50,400  |         |  |
| 2027-2029                              |         | 151,199 |  |
| Total Minimum Lease Payments           |         | 838,919 |  |
| Amount Representing Interest           |         |         |  |
| (1.83 - 6.00% Rate of Interest)        |         | 45,035  |  |
| Present Value of Future Lease Payments | \$      | 793,884 |  |

Machinery and equipment acquired under capital lease amounted to \$1,045,254 at June 30, 2021.

Depreciation for the capital assets associated with capital leases is included in depreciation expense, and accumulated depreciation for assets acquired under capital lease totaled \$249,470 at June 30, 2021.

**B. Operating Lease Obligations** - The University entered into operating leases for \$1,216,679 for an aquaculture facility, land, an elementary school, and landscape equipment. Future minimum lease payments under noncancelable operating leases consist of the following at June 30, 2021:

| Fiscal Year                  | Amount |           |
|------------------------------|--------|-----------|
| 2022                         | \$     | 123,273   |
| 2023                         |        | 121,981   |
| 2024                         |        | 91,425    |
| 2025                         |        | 40,000    |
| 2026                         |        | 40,000    |
| 2027-2031                    |        | 200,000   |
| 2032-2036                    |        | 200,000   |
| 2037-2041                    |        | 200,000   |
| 2042-2046                    |        | 200,000   |
| Total Minimum Lease Payments | \$     | 1,216,679 |

Rental expense for all operating leases during the year was \$567,943.

# NOTE 11 - NET POSITION

Unrestricted net position has been significantly affected by transactions resulting from the recognition of deferred outflows of resources, deferred inflows of resources, and related long-term liabilities, as shown in the following table:

|   |    | Amount        |
|---|----|---------------|
| Net Pension Liability and Related Deferred Outflows of Resources<br>Net OPEB Liability (Retiree Health Benefit Fund) and Related Deferred                 | \$ | (28,104,833)  |
| Outflows of Resources and Deferred Inflows of Resources   |    | (287,738,344) |
| Effect on Unrestricted Net Position   |    | (315,843,177) |
| Total Unrestricted Net Position Before Recognition of Deferred Outflows of<br>Resources, Deferred Inflows of Resources, and Related Long-Term Liabilities |    | 115,571,659   |
| Total Unrestricted Net Position   | \$ | (200,271,518) |

See Notes 14 and 15 for detailed information regarding the amortization of the deferred outflows of resources and deferred inflows of resources relating to pensions and OPEB, respectively.

Net investment in capital assets has been significantly affected by a transaction that resulted in the acquisition of capital assets and the recognition of deferred inflows of resources as shown in the following table:

|   | <br>Amount                       |
|---|----------------------------------|
| Carrying Value of Capital Assets Acquired Under Service Concession Arrangement<br>Deferred Inflows Under Service Concession Arrangement | \$<br>69,000,326<br>(68,012,640) |
| Net Effect on Net Investment in Capital Assets  | 987,686                          |
| Total Net Investment in Capital Assets Before Recognition of<br>Service Concession Arrangement  | <br>427,366,436                  |
| Total Net Investment in Capital Assets  | \$<br>428,354,122                |

See Note 7 for detailed information regarding the amortization of the deferred inflows of resources under the service concession arrangement.

## NOTE 12 - REVENUES

A summary of discounts and allowances by revenue classification is presented as follows:

|  | <br>Gross<br>Revenues | Less<br>Scholarship<br>Discounts<br>d Allowances | Allow | Less<br>nange in<br>wance for<br>collectibles | <br>Net<br>Revenues |
|--|-----------------------|--|-------|---|---------------------|
| Operating Revenues:                          |                       |  |       |   |                     |
| Student Tuition and Fees, Net                | \$<br>123,725,953     | \$<br>18,407,783                                 | \$    | 48,147  | \$<br>105,270,023   |
| Sales and Services:                          |                       |  |       |   |                     |
| Sales and Services of Auxiliary Enterprises: |                       |  |       |   |                     |
| Residential Life                             | \$<br>22,085,893      | \$<br>2,861,789                                  | \$    | 20,522  | \$<br>19,203,582    |
| Dining                                       | 11,795,940            | 1,327,242  |       | 11,893  | 10,456,805          |
| Parking                                      | 2,986,360             | -  |       | 5,190   | 2,981,170           |
| Recreation Services                          | 1,276,582             | -  |       | 11,230  | 1,265,352           |

| Postal Services                              | 148,925               | -  |       | 269   | 148,656             |
| Other  | 740,581               | -  |       | 25,546  | 715,035             |
| Sales and Services of Education              |                       |  |       |   |                     |
| and Related Activities                       | <br>2,469,562         | <br>-  |       | 1,701   | <br>2,467,861       |
| Total Sales and Services, Net                | \$<br>42,252,608      | \$<br>4,189,031                                  | \$    | 76,351  | \$<br>37,987,226    |

# NOTE 13 - OPERATING EXPENSES BY FUNCTION

The University's operating expenses by functional classification are presented as follows:

|                                     | <br>Salaries<br>and<br>Benefits | <br>Supplies Scholarships<br>and and<br>Services Fellowships |    | Utilities Depreciation |    | Depreciation | Total |            |    |             |
|-------------------------------------|---------------------------------|--|----|------------------------|----|--------------|-------|------------|----|-------------|
| Instruction                         | \$<br>119,192,454               | \$<br>16,216,488   | \$ | 658,815                | \$ | 100,836      | \$    | -          | \$ | 136,168,593 |
| Research                            | 6,681,274                       | 4,146,541  |    | 218,032                |    | 242          |       | -          |    | 11,046,089  |
| Public Service                      | 2,341,352                       | 937,529  |    | 133,967                |    | -            |       | -          |    | 3,412,848   |
| Academic Support                    | 19,969,378                      | 13,881,626   |    | 20,536                 |    | 16,404       |       | -          |    | 33,887,944  |
| Student Services                    | 10,588,545                      | 2,214,364  |    | 170,406                |    | 2,128        |       | -          |    | 12,975,443  |
| Institutional Support               | 24,678,999                      | 6,612,064  |    | 93,763                 |    | 512          |       | -          |    | 31,385,338  |
| Operations and Maintenance of Plant | 16,950,218                      | 7,388,180  |    | -                      |    | 5,066,857    |       | -          |    | 29,405,255  |
| Student Financial Aid               | -                               | -  |    | 39,666,502             |    | -            |       | -          |    | 39,666,502  |
| Auxiliary Enterprises               | 16,662,497                      | 22,899,323   |    | 1,223,405              |    | 2,067,684    |       | -          |    | 42,852,909  |
| Depreciation                        | <br>-                           | <br>-  |    | -                      | -  |              |       | 16,741,545 |    | 16,741,545  |
| Total Operating Expenses            | \$<br>217,064,717               | \$<br>74,296,115   | \$ | 42,185,426             | \$ | 7,254,663    | \$    | 16,741,545 | \$ | 357,542,466 |

Included in the scholarship and fellowship function are student financial aid operating expenses for emergency financial aid payments to eligible students. These payments are for expenses related to the disruption of campus operations due to the coronavirus of \$14,389,210 provided by the Higher Education Emergency Relief Fund (HEERF). Because of the administrative involvement by the University in providing the student awards, the related program activity is reported as nonoperating Federal Aid - COVID-19 revenue and student financial aid operating expenses. Since the purpose of the student aid is not for educational or scholarship purposes, they do not affect the scholarship discounting adjustments reported in Note 12.

# NOTE 14 - PENSION PLANS

#### A. Defined Benefit Plan

*Plan Administration:* The State of North Carolina administers the Teachers' and State Employees' Retirement System (TSERS) plan. This plan is a cost-sharing, multiple-employer, defined benefit pension plan established by the State to provide pension benefits for general employees and law enforcement officers (LEOs) of the State, general employees and LEOs of its component units, and employees of Local Education Agencies (LEAs) and charter schools not in the reporting entity. Membership is comprised of employees of the State (state agencies and institutions), universities, community colleges, and certain proprietary component units along with the LEAs and charter schools that elect to join the Retirement System. Benefit provisions are established by General Statute 135-5 and may be amended only by the North Carolina General Assembly.

*Benefits Provided*: TSERS provides retirement and survivor benefits. Retirement benefits are determined as 1.82% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. General employee plan members are eligible to retire with full retirement benefits at age 65 with five years of membership service, at age 60 with 25 years of creditable service, or at any age with 30 years of creditable service. General employee plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of membership service. Survivor benefits are available to eligible beneficiaries of general members who die while in active service or within 180 days of their last day of service and who also have either completed 20 years of creditable service regardless of age, or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life or a return of the member's contributions. The plan does not provide for automatic post-retirement benefit increases.

*Contributions:* Contribution provisions are established by General Statute 135-8 and may be amended only by the North Carolina General Assembly. Employees are required to contribute 6% of their annual pay. The contribution rate for employers is set each year by the North Carolina General Assembly in the Appropriations Act based on the actuarially-determined rate recommended by the actuary. The University's contractually-required contribution rate for the year ended June 30, 2021 was 14.78% of covered payroll. Employee contributions to the pension plan were \$4,296,127, and the University's contributions were \$10,582,792 for the year ended June 30, 2021.

The TSERS plan's financial information, including all information about the plan's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fiduciary net position, is included in the State of North Carolina's fiscal year 2020 *Comprehensive Annual Financial Report*. An electronic version of this report is available on the North Carolina Office of the State Controller's website at https://www.osc.nc.gov/ or by calling the State Controller's Financial Reporting Section at (919) 707-0500.

TSERS Basis of Accounting: The financial statements of the TSERS plan were prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the TSERS plan, and additions to/deductions from the TSERS plan's fiduciary net position have been determined on the same basis as they are reported by TSERS.

Methods Used to Value TSERS Investment: Pursuant to North Carolina General Statutes, the State Treasurer is the custodian and administrator of the retirement systems. The State Treasurer maintains various investment portfolios in its External Investment Pool. TSERS and other pension plans of the State of North Carolina participate in the Long-Term Investment, Fixed Income Investment, Equity Investment, Real Estate

Investment, Alternative Investment, Opportunistic Fixed Income Investment, and Inflation Sensitive Investment Portfolios. The Fixed Income Asset Class includes the Long-Term Investment and Fixed Income Investment Portfolios. The Global Equity Asset Class includes the Equity Investment Portfolio. The investment balance of each pension trust fund represents its share of the fair value of the net position of the various portfolios within the External Investment Pool. Detailed descriptions of the methods and significant assumptions regarding investments of the State Treasurer are provided in the 2020 *Comprehensive Annual Financial Report*.

*Net Pension Liability:* At June 30, 2021, the University reported a liability of \$50,369,845 for its proportionate share of the collective net pension liability. The net pension liability was measured as of June 30, 2020. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2019, and update procedures were used to roll forward the total pension liability was based on the present value of future salaries for the University relative to the present value of future salaries for all participating employers, actuarially-determined. As of June 30, 2020, the University's proportion was 0.41690%, which was a decrease of 0.00447 from its proportion measured as of June 30, 2019, which was 0.42137%.

Actuarial Assumptions: The following table presents the actuarial assumptions used to determine the total pension liability for the TSERS plan at the actuarial valuation date:

| Valuation Date              | 12/31/2019  |
|-----------------------------|-------------|
| Inflation                   | 3%          |
| Salary Increases*           | 3.5% - 8.1% |
| Investment Rate of Return** | 7%          |

\* Salary increases include 3.5% inflation and productivity factor.

\*\* Investment rate of return includes inflation assumption and is net of pension plan investment expense.

TSERS currently uses mortality tables that vary by age, gender, employee group (i.e. teacher, general, law enforcement officer), and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. population. The mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2019 valuations were based on the results of an actuarial experience review for the period January 1, 2010 through December 31, 2014.

Future ad hoc cost of living adjustment amounts are not considered to be substantively automatic and are therefore not included in the measurement.

. . . .

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2020 (the valuation date) are summarized in the following table:

| Asset Class                | Long-Term Expected<br>Real Rate of Return |
|----------------------------|---|
| Fixed Income               | 1.4%                                      |
| Global Equity              | 5.3%                                      |
| Real Estate                | 4.3%                                      |
| Alternatives               | 8.9%                                      |
| Opportunistic Fixed Income | 6.0%                                      |
| Inflation Sensitive        | 4.0%                                      |
|                            |   |

The information in the preceding table is based on 30-year expectations developed with the consulting actuary and is part of the asset, liability, and investment policy of the North Carolina Retirement Systems. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.05%. Return projections do not include any excess return expectations over benchmark averages. All rates of return and inflation are annualized. The long-term expected real rate of return for the Bond Index Investment Pool as of June 30, 2020 is 1.2%.

*Discount Rate:* The discount rate used to measure the total pension liability was calculated at 7.00% for the December 31, 2019 valuation. The discount rate is in line with the long-term nominal expected return on pension plan investments. The calculation of the net pension liability is a present value calculation of the future net pension payments. These net pension payments assume that contributions from plan members will be made at the current statutory contribution rate and that contributions from employers will be made at the contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate: The following presents the net pension liability of the plan at June 30, 2020 calculated using the discount rate of 7.00%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.00%) or 1-percentage point higher (8.00%) than the current rate:

| Net Pension Liability   |            |    |            |   |             |  |
|---|------------|----|------------|---|-------------|--|
| 1% Decrease (6.00%) Current Discount Rate (7.00%) 1% Increase (8.00%) |            |    |            |   |             |  |
| ¢   | 90.653.892 | \$ | 50.369.845 | ¢ | 16.579.867  |  |
| ψ   | 90,033,092 | ψ  | 30,309,043 | ψ | 10,57 9,007 |  |

Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: For the year ended June 30, 2021, the University recognized pension expense of \$15,717,548. At June 30, 2021, the University reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

# Employer Balances of Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions by Classification:

|   | Deferred Outflows<br>of Resources |            | <br>ed Outflows<br>esources |
|---|-----------------------------------|------------|-----------------------------|
| Difference Between Actual and Expected Experience   | \$                                | 2,775,649  | \$<br>-                     |
| Changes of Assumptions  |                                   | 1,706,893  | -                           |
| Net Difference Between Projected and Actual Earnings<br>on Plan Investments                                       |                                   | 5,570,389  | -                           |
| Change in Proportion and Differences Between Employer's<br>Contributions and Proportionate Share of Contributions |                                   | 1,629,289  | -                           |
| Contributions Subsequent to the Measurement Date  |                                   | 10,582,792 | <br>-                       |
| Total   | \$                                | 22,265,012 | \$<br>-                     |

The amount reported as deferred outflows of resources related to contributions subsequent to the measurement date will be included as a reduction of the net pension liability in the fiscal year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Schedule of the Net Amount of the Employer's Balances of Deferred Outflows of Resources and Deferred Inflows of Resources That will be Recognized in Pension Expense:

| Year Ending June 30: |    | Amount     |  |  |
|----------------------|----|------------|--|--|
| 2022                 | \$ | 4.454.836  |  |  |
| 2023                 | Ť  | 3,333,035  |  |  |
| 2024                 |    | 2,234,881  |  |  |
| 2025                 |    | 1,659,468  |  |  |
| Total                | \$ | 11,682,220 |  |  |

**B.** Defined Contribution Plan - The Optional Retirement Program (ORP) is a defined contribution pension plan that provides retirement benefits with options for payments to beneficiaries in the event of the participant's death. Faculty and staff of the University may join ORP instead of TSERS. The Board of Governors of the University of North Carolina is responsible for the administration of ORP and designates the companies authorized to offer investment products or the trustee responsible for the investment of contributions under ORP and approves the form and contents of the contracts and trust agreements.

Participants in ORP are immediately vested in the value of employee contributions. The value of employer contributions is vested after five years of participation in ORP. Participants become eligible to receive distributions when they terminate employment or retire.

Participant eligibility and contributory requirements are established by General Statute 135-5.1. Member and employer contribution rates are set each year by the North Carolina General Assembly. For the year ended June 30, 2021, these rates were set at 6% of covered payroll for members and 6.84% of covered payroll for employers. The University assumes no liability other than its contribution.

For the current fiscal year, the University had a total payroll of \$175,885,880, of which \$82,297,931 was covered under ORP. Total employee and employer contributions for pension benefits for the year were \$4,937,876 and \$5,629,178, respectively. The amount of expense recognized in the current year related to ORP is equal to the employer contributions less forfeitures of \$703,730 recognized during the period.

#### NOTE 15 - OTHER POSTEMPLOYMENT BENEFITS

The University participates in two postemployment benefit plans, the Retiree Health Benefit Fund and the Disability Income Plan of North Carolina, that are administered by the State of North Carolina as pension and other employee benefit trust funds. Each plan's financial information, including all information about the plans' assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fiduciary net position, is included in the State of North Carolina's fiscal year 2020 *Comprehensive Annual Financial Report*. An electronic version of this report is available on the North Carolina Office of the State Controller's website at https://www.osc.nc.gov/ or by calling the State Controller's Financial Reporting Section at (919) 707-0500.

#### A. Summary of Significant Accounting Policies and Plan Asset Matters

*Basis of Accounting:* The financial statements of these plans were prepared using the accrual basis of accounting. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits are recognized when due and payable in accordance with the terms of each plan. For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of each plan, and additions to/deductions from each plans' fiduciary net position have been determined on the same basis as they are reported by the plans.

Methods Used to Value Plan Investments: Pursuant to North Carolina General Statutes, the State Treasurer is the custodian and administrator of the other postemployment benefits funds. The State Treasurer maintains various investment portfolios in its External Investment Pool. The Retiree Health Benefit Fund participates in the External Investment Pool. The Disability Income Plan of North Carolina is invested in the Short-Term Investment Portfolio of the External Investment Pool and the Bond Index External Investment Pool. The investment balance of each other employee benefit trust fund represents its share of the fair value of the net position of the various portfolios within the pool. Detailed descriptions of the State Treasurer are provided in the 2020 Comprehensive Annual Financial Report.

# B. Plan Descriptions

# 1. Health Benefits

*Plan Administration:* The State of North Carolina administers the North Carolina State Health Plan for Teachers and State Employees, referred to as the State Health Plan (the Plan), a healthcare plan exclusively for the benefit of employees of the State, the University of North Carolina System, community colleges, and certain other component units. In addition, Local Education Agencies (LEAs), charter schools, and some select local governments that are not part of the State's financial reporting entity also participate. Health benefit programs and premium rates are determined by the State Treasurer upon approval of the Plan Board of Trustees.

The Retiree Health Benefit Fund (RHBF) has been established as a fund to provide health benefits to retired and disabled employees and their applicable beneficiaries. RHBF is established by General Statute 135-7, Article 1. RHBF is a cost-sharing, multiple-employer, defined benefit healthcare plan, exclusively for the benefit of eligible former employees of the State, the University of North Carolina System, and community colleges. In addition, LEAs, charter schools, and some select local governments that are not part of the State's financial reporting entity also participate.

By statute, RHBF is administered by the Board of Trustees of the Teachers' and State Employees' Retirement System (TSERS). RHBF is supported by a percent of payroll contribution from participating employing units. Each year the percentage is set in legislation, as are the maximum per retiree contributions from RHBF to the Plan. The State Treasurer, with the approval of the Plan Board of Trustees, then sets the employer contributions (subject to the legislative cap) and the premiums to be paid by retirees, as well as the health benefits to be provided through the Plan.

*Benefits Provided:* Plan benefits received by retired employees and disabled employees from RHBF are OPEB. The healthcare benefits for retired and disabled employees who are not eligible for Medicare are the same as for active employees as described in Note 16. The plan options change when former employees become eligible for Medicare. Medicare retirees have the option of selecting one of two fully-insured Medicare Advantage/Prescription Drug Plan options or the self-funded Traditional 70/30 Preferred Provider Organization plan option that is also offered to non-Medicare members. If the Traditional 70/30 Plan is selected by a Medicare retiree, the self-funded State Health Plan coverage is secondary to Medicare.

Those former employees who are eligible to receive medical benefits from RHBF are long-term disability beneficiaries of the Disability Income Plan of North Carolina and retirees of TSERS, the Consolidated Judicial Retirement System, the Legislative Retirement System, the Optional Retirement Program (ORP), and a small number of local governments, with five or more years of contributory membership service in their retirement system prior to disability or retirement, with the following exceptions: for employees first hired on or after October 1, 2006, and members of the North Carolina General Assembly first taking office on or after February 1, 2007, future coverage as retired employees and retired members of the North Carolina General Assembly is subject to the requirement that the future retiree have 20 or more years of retirement service credit in order to receive coverage on a noncontributory basis. Employees first hired on or after October 1, 2006 and members of the North Carolina General Assembly first taking office on or after February 1, 2007 with 10 but less than 20 years of retirement service credit are eligible for coverage on a partially contributory basis. For such future retirees, the State will pay 50% of the State Health Plan's total noncontributory premium.

Section 35.21 (c) & (d) of Session Law 2017-57 repeals retiree medical benefits for employees first hired on or after January 1, 2021. The legislation amends Chapter 135, Article 3B of the General Statutes to require that retirees must earn contributory retirement service in the Teachers' and State Employees' Retirement System (or in an allowed local system unit), the Consolidated Judicial Retirement System, or the Legislative Retirement System prior to January 1, 2021, and not withdraw that service, in order to be eligible for retiree medical benefits under the amended law. Consequently, members first hired on and after January 1, 2021 will not be eligible to receive retiree medical benefits.

The Plan's and RHBF's benefit and contribution provisions are established by Chapter 135-7, Article 1, and Chapter 135, Article 3B of the General Statutes and may be amended only by the North Carolina General Assembly. RHBF does not provide for automatic post-retirement benefit increases.

*Contributions:* Contribution rates to RHBF, which are intended to finance benefits and administrative expenses on a pay-as-you-go basis, are determined by the North Carolina General Assembly in the Appropriations Bill. The University's contractually-required contribution rate for the year ended June 30, 2021 was 6.68% of covered payroll. The University's contributions to the RHBF were \$10,280,523 for the year ended June 30, 2021.

# 2. Disability Income

*Plan Administration:* As discussed in Note 16, short-term and long-term disability benefits are provided through the Disability Income Plan of North Carolina (DIPNC), a cost-sharing, multiple-employer, defined benefit plan, to the eligible members of TSERS which includes employees of the State, the University of North Carolina System, community colleges, certain participating component units, LEAs which are not part of the reporting entity, and the ORP. By statute, DIPNC is administered by the Department of State Treasurer and the Board of Trustees of TSERS.

Benefits Provided: Long-term disability benefits are payable as an OPEB from DIPNC after the conclusion of the short-term disability period or after salary continuation payments cease, whichever is later, for as long as an employee is disabled. An employee is eligible to receive long-term disability benefits provided the following requirements are met: (1) the employee has five or more years of contributing membership service in TSERS or the ORP, earned within 96 months prior to the end of the short-term disability period or cessation of salary continuation payments, whichever is later; (2) the employee must make application to receive long-term benefits within 180 days after the conclusion of the short-term disability period or after salary continuation payments cease or after monthly payments for Workers' Compensation cease (excluding monthly payments for permanent partial benefits), whichever is later; (3) the employee must be certified by the Medical Board to be mentally or physically disabled for the further performance of his/her usual occupation; (4) the disability must have been continuous, likely to be permanent, and incurred at the time of active employment; (5) the employee must not be eligible to receive an unreduced retirement benefit from TSERS; and (6) the employee must terminate employment as a permanent, full-time employee. An employee is eligible to receive an unreduced retirement benefit from TSERS after (1) reaching the age of 65 and completing five years of membership service, or (2) reaching the age of 60 and completing 25 years of creditable service, or (3) completing 30 years of creditable service, at any age.

For employees who had five or more years of membership service as of July 31, 2007, during the first 36 months of the long-term disability

period, the monthly long-term disability benefit is equal to 65% of one-twelfth of an employee's annual base rate of compensation last payable to the participant or beneficiary prior to the beginning of the short-term disability period, plus the like percentage of one-twelfth of the annual longevity payment and local supplements to which the participant or beneficiary would be eligible. The monthly benefits are subject to a maximum of \$3,900 per month reduced by any primary Social Security disability benefits and by monthly payments for Workers' Compensation to which the participant or beneficiary may be entitled, but the benefits payable shall be no less than \$10 a month. After the first 36 months of the long-term disability, the long-term benefit is calculated in the same manner as described above except the monthly benefit is reduced by an amount equal to a monthly primary Social Security disability benefit to which the participant or beneficiary might be entitled had Social Security disability benefits been awarded. When an employee qualifies for an unreduced service retirement allowance from TSERS, the benefits payable from DIPNC will cease, and the employee will commence retirement under TSERS or the ORP.

For employees who had less than five years of membership service as of July 31, 2007, and meet the requirements for long-term disability on or after August 1, 2007, during the first 36 months of the long-term disability period, the monthly long-term benefit shall be reduced by an amount equal to the monthly primary Social Security retirement benefit to which the employee might be entitled should the employee become age 62 during the first 36 months. This reduction becomes effective as of the first day of the month following the month of initial entitlement to Social Security benefits. After the first 36 months of the long-term disability, no further benefits are payable under the terms of this section unless the employee has been approved and is in receipt of primary Social Security disability benefits.

*Contributions:* Although DIPNC operates on a calendar year, disability income benefits are funded by actuarially determined employer contributions that are established in the Appropriations Bill by the North Carolina General Assembly and coincide with the State's fiscal year. The University's contractually-required contribution rate for the year ended June 30, 2021 was 0.09% of covered payroll. The University's contributions to DIPNC were \$138,510 for the year ended June 30, 2021.

# C. Net OPEB Liability (Asset)

*Net OPEB Liability:* At June 30, 2021, the University reported a liability of \$227,540,712 for its proportionate share of the collective net OPEB liability for RHBF. The net OPEB liability was measured as of June 30, 2020. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2019, and update procedures were used to roll forward the total OPEB liability to June 30, 2020. The University's proportion of the net OPEB liability was based on the present

value of future salaries for the University relative to the present value of future salaries for all participating employers, actuarially-determined. As of June 30, 2020, the University's proportion was 0.82024%, which was a decrease of 0.00011 from its proportion measured as of June 30, 2019, which was 0.82035%.

*Net OPEB Asset:* At June 30, 2021, the University reported an asset of \$415,950 for its proportionate share of the collective net OPEB asset for DIPNC. The net OPEB asset was measured as of June 30, 2020. The total OPEB liability used to calculate the net OPEB asset was determined by an actuarial valuation as of December 31, 2019, and update procedures were used to roll forward the total OPEB liability to June 30, 2020. The University's proportion of the net OPEB asset was based on the present value of future salaries for the University relative to the present value of future salaries for all participating employers, actuarially-determined. As of June 30, 2020, the University's proportion was 0.84553%, which was an increase of 0.01088 from its proportion measured as of June 30, 2019, which was 0.83465%.

Actuarial Assumptions: The total OPEB liabilities for RHBF and DIPNC were determined by actuarial valuations as of December 31, 2019, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified. The total OPEB liabilities were then rolled forward to June 30, 2020 utilizing update procedures incorporating the actuarial assumptions.

|   | Retiree<br>Health Benefit<br>Fund  | Disability<br>Income Plan<br>of N. C. |
|---|------------------------------------|---------------------------------------|
| Valuation Date                                  | 12/31/2019                         | 12/31/2019                            |
| Inflation                                       | 3%                                 | 3%                                    |
| Salary Increases*                               | 3.5% - 8.1%                        | 3.5% - 8.1%                           |
| Investment Rate of Return**                     | 7%                                 | 3.75%                                 |
| Healthcare Cost Trend Rate - Medical            | 6.5% grading down to<br>5% by 2024 | 6.5% grading down to<br>5% by 2024    |
| Healthcare Cost Trend Rate - Prescription Drug  | 9.5% grading down to<br>5% by 2029 | 9.5% grading down to<br>5% by 2029    |
| Healthcare Cost Trend Rate - Medicare Advantage | 5%                                 | N/A                                   |
| Healthcare Cost Trend Rate - Administrative     | 3%                                 | 3%                                    |

\* Salary increases include 3.5% inflation and productivity factor.

\*\* Investment rate of return is net of pension plan investment expense, including inflation.

N/A - Not Applicable

The OPEB plans currently use mortality tables that vary by age, gender, employee group (i.e. teacher, general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and studies that cover significant portions of the U.S. population. The healthy mortality rates also contain a provision to reflect future mortality improvements. The projected long-term investment returns and inflation assumptions are developed through a review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projects are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. DIPNC is primarily invested in the Bond Index Investment Pool as of June 30, 2020.

Best estimates of real rates of return for each major asset class included in RHBF's target asset allocation as of June 30, 2020 (the valuation date) are summarized in the following table:

|                            | Long-Term Expected  |  |  |  |
|----------------------------|---------------------|--|--|--|
| Asset Class                | Real Rate of Return |  |  |  |
| Fixed Income               | 1.4%                |  |  |  |
| Global Equity              | 5.3%                |  |  |  |
| Real Estate                | 4.3%                |  |  |  |
| Alternatives               | 8.9%                |  |  |  |
| Opportunistic Fixed Income | 6.0%                |  |  |  |
| Inflation Sensitive        | 4.0%                |  |  |  |

The information in the preceding table is based on 30-year expectations developed with the consulting actuary and is part of the asset, liability, and investment policy of the North Carolina Retirement Systems. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 3.05%. Return projections do not include any excess return expectations over benchmark averages. All rates of return and inflation are annualized. The long-term expected real rate of return for the Bond Index Investment Pool as of June 30, 2020 is 1.2%.

Actuarial valuations of the plans involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

The actuarial assumptions used for RHBF are consistent with those used to value the pension benefits of TSERS where appropriate. These assumptions are based on the most recent pension valuations available. The discount rate used for RHBF reflects a pay-as-you-go approach. Projections of benefits for financial reporting purposes of the plans are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and historical pattern of sharing of benefit costs between the employer and plan members to that point. Historically, the benefits funded solely by employer contributions applied equally to all retirees. Currently, as described earlier in the note, benefits are dependent on membership requirements.

The actuarial methods and assumptions used for DIPNC include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The actuarial assumptions used in the December 31, 2019 valuations were generally based on the results of an actuarial experience study prepared as of December 31, 2014, as amended for updates to certain assumptions (such as the long-term investment return, medical claims, and medical trend rate assumptions) implemented based on annual reviews that have occurred since that experience study.

*Discount Rate:* The discount rate used to measure the total OPEB liability for RHBF was 2.21%. The projection of cash flows used to determine the discount rate assumed that contributions from employers will be made at the current statutorily determined contribution rate. Based on the above assumptions, the plan's fiduciary net position was not projected to be available to make projected future benefit payments of current plan members. As a result, a municipal bond rate of 2.21% was used as the discount rate used to measure the total OPEB liability. The 2.21% rate is based on the Bond Buyer 20-year General Obligation Index as of June 30, 2020.

The discount rate used to measure the total OPEB liability for DIPNC was 3.75%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Net OPEB Liability (Asset) to Changes in the Discount Rate: The following presents the University's proportionate share of the net OPEB liability (asset) of the plans, as well as what the plans' net OPEB liability (asset) would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current discount rate:

| Net OPEB Liability (Asset) |    |                  |   |                       |      |                 |  |  |
|----------------------------|----|------------------|---|-----------------------|------|-----------------|--|--|
|                            | 1% | Decrease (1.21%) | 1%) Current Discount Rate (2.21%) 1% Increase (3.21%) |                       |      | ncrease (3.21%) |  |  |
| RHBF                       | \$ | 269,848,887      | \$  | 227,540,712           | \$   | 193,454,428     |  |  |
|                            | 1% | Decrease (2.75%) | Current   | Discount Rate (3.75%) | 1% l | ncrease (4.75%) |  |  |
| DIPNC                      | \$ | (359,232)        | \$  | (415,950)             | \$   | (471,019)       |  |  |

Sensitivity of the Net OPEB Liability (Asset) to Changes in the Healthcare Cost Trend Rates: The following presents the net OPEB liability (asset) of the plans, as well as what the plans' net OPEB liability (asset) would be if it were calculated using healthcare cost trend rates that are 1-percentage point lower or 1-percentage point higher than the current healthcare cost trend rates:

|       | Νε  | et OP | EB Liability (Asset)   |  |
|-------|---|-------|--|--|
|       | <br>1% Decrease<br>(Medical - 4% - 5.5%,<br>Pharmacy - 4% - 8.5%,<br>Med. | Net Difference Between Projected and<br>Actual Earnings on Plan Investments   | -                 | 70,466        |    | 70,466      |
| Changes in Proportion and Differences<br>Between Employer's Contributions and<br>Proportionate Share of Contributions | 11,200,512        | 60,114        |    | 11,260,626  |
| Total   | \$<br>112,441,799 | \$<br>163,336 | \$ | 112,605,135 |

Amounts reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability related to RHBF and an increase of the net OPEB asset related to DIPNC in the fiscal year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

#### Schedule of the Net Amount of the Employer's Balances of Deferred Outflows of Resources and Deferred Inflows of Resources That will be Recognized in OPEB Expense:

| Year Ending June 30: | RHBF |              | RHBF |         | _ | DIPNC |
|----------------------|------|--------------|------|---------|---|-------|
| 2022                 | \$   | (29,226,296) | \$   | 75,624  |   |       |
| 2023                 |      | (29,201,309) |      | 47,332  |   |       |

| 2026                 |      | (7,460,879)  |      | (3,820) |   |       |
| Thereafter           |      | -            | _    | (4,259) |   |       |
| Total                | \$   | (70,478,220) | \$   | 170,328 |   |       |

# NOTE 16 - RISK MANAGEMENT

The University is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These exposures to loss are handled via a combination of methods, including participation in state-administered insurance programs, purchase of commercial insurance, and self-retention of certain risks. There have been no significant reductions in insurance coverage from the previous year and settled claims have not exceeded coverage in any of the past three fiscal years.

# A. Employee Benefit Plans

#### 1. State Health Plan

University employees are provided comprehensive major medical care benefits. Coverage is funded by contributions to the State Health Plan (Plan), a discretely presented component unit of the State of North Carolina. The Plan is funded by employer and employee contributions. The Plan has contracted with third parties to process claims. See Note 15, Other Postemployment Benefits, for additional information regarding retiree health benefits.

# 2. Death Benefit Plan of North Carolina

Term life insurance (death benefits) of \$25,000 to \$50,000 is provided to eligible workers who enroll in the Teachers' and State Employees' Retirement System. This Death Benefit Plan is administered by the State Treasurer and funded via employer contributions. The employer contribution rate was 0.13% for the current fiscal year.

# 3. Disability Income Plan

Short-term and long-term disability benefits are provided to University employees through the Disability Income Plan of North Carolina (DIPNC), part of the State's Pension and Other Employee Benefit Trust Funds. Short-term benefits are paid by the University for up to twelve months. The Board of Trustees of the DIPNC may extend the short-term disability benefits for up to an additional twelve months. During the extended period of short-term disability benefits, payments are made directly by the DIPNC to the beneficiary. As discussed in Note 15, long-term disability benefits are payable as other postemployment benefits from DIPNC after the conclusion of the short-term disability period or after salary continuation payments cease, whichever is later, for as long as an employee is disabled.

# B. Other Risk Management and Insurance Activities

#### 1. Automobile, Fire, and Other Property Losses

The University is required to maintain all risk coverage on all state-owned buildings and contents through the State Property Fire Insurance Fund (Fund), an internal service fund of the State. Fire and lightning coverage is provided at no cost to the University for operations supported by the State's General Fund. Other operations not supported by the State's General Fund are charged for the fire and lightning coverage. Coverage for all remaining risks for all buildings is charged to the University. Losses covered by the Fund are subject to a \$25,000 per occurrence deductible.

All state-owned vehicles are covered by liability insurance through a private insurance company and handled by the North Carolina Department of Insurance. The liability limits for losses are \$1,000,000 per claim and \$10,000,000 per occurrence. The University pays premiums to the North Carolina Department of Insurance for the coverage.

#### 2. Public Officers' and Employees' Liability Insurance

The risk of tort claims of up to \$1,000,000 per claimant is retained under the authority of the State Tort Claims Act. In addition, the State provides excess public officers' and employees' liability insurance up to \$2,000,000 per claim and \$5,000,000 in the aggregate per fiscal year via contract with a private insurance company. The University pays the premium, based on a composite rate, directly to the private insurer.

#### 3. Employee Dishonesty and Computer Fraud

The University is protected for losses from employee dishonesty and computer fraud. This coverage is with a private insurance company and is handled by the North Carolina Department of Insurance. Universities are charged a premium by the private insurance company. Coverage limit is \$5,000,000 per occurrence. The private insurance company pays 90% of each loss less a \$100,000 deductible.

## 4. Statewide Workers' Compensation Program

The North Carolina Workers' Compensation Program provides benefits to workers injured on the job. All employees of the State and its component units are included in the program. When an employee is injured, the University's primary responsibility is to arrange for and provide the necessary treatment for work related injury. The University is responsible for paying medical benefits and compensation in accordance with the North Carolina Workers' Compensation Act. The University retains the risk for workers' compensation. Additional details on the state-administered risk management programs are disclosed in the State's *Annual Comprehensive Financial Report*, issued by the Office of the State Controller.

## 5. Other Insurance Held by the University

The University purchased other authorized coverage from private insurance companies through the North Carolina Department of Insurance. Policies include cyber, boiler and machinery, crime, oceanographic equipment, watercraft and watercraft pollution coverage, and professional liability.

#### NOTE 17 - COMMITMENTS AND CONTINGENCIES

- **A. Commitments** The University has established an encumbrance system to track its outstanding commitments on construction projects and other purchases. Outstanding commitments on construction contracts were \$12,317,896 and on other purchases were \$8,150,600 at June 30, 2021.
- **B.** Pending Litigation and Claims The University is a party to litigation and claims in the ordinary course of its operations. Since it is not possible to predict the ultimate outcome of these matters, no provision for any liability has been made in the financial statements. University management is of the opinion that the liability, if any, for any of these matters will not have a material adverse effect on the financial position of the University.
- **C. Other Contingent Receivables** The University has received notification of other gifts and grants for which funds have not been disbursed by the resource provider and for which conditions attached to the gift or grant have not been satisfied or, in the case of permanent endowments, cannot begin to be satisfied. In accordance with accounting principles generally accepted in the United States of America, these amounts have not been recorded on the accompanying financial statements. The purpose and amount of other contingent receivables at year-end are as follows:

| Purpose           | Amount |           |  |  |
|-------------------|--------|-----------|--|--|
| Endowment Pledges | \$     | 1,736,414 |  |  |

# NOTE 18 - HURRICANE FLORENCE

In September 2018, Hurricane Florence impacted areas of the southeastern United States, including Wilmington, NC, and specifically UNCW's campus. The hurricane caused significant damage to our facilities, infrastructure, and grounds. Dobo Hall, a science classroom and laboratory facility on the campus of UNCW, was closed and did not reopen until August 2020. The University Apartments, used for student housing, were condemned and demolished. In accordance with GASB Statement No. 42, Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries, impairment

gains and losses, related to Dobo Hall and the University Apartments, respectively, were recognized during the fiscal year ended June 30, 2019.

During the fiscal year ending June 30, 2021, the University reported disaster costs of \$3,384,095 associated with Hurricane Florence as nonoperating expenses in the Statement of Revenues, Expenses and Changes in Net Position.

The following table presents the components of total disaster costs and insurance recoveries referenced in the previous paragraphs as well as additional revenue sources related to Hurricane Florence:

| Capit  | tal As   | set Impairmen                       | ts       |  |          |  |          |  |

. . . .

. .

Financial activity related to Hurricane Florence will continue in future fiscal years. The University maintains "all-risk" insurance through the North Carolina Department of Insurance, and reimbursements are generally provided after costs are incurred. In addition, UNCW qualifies for assistance through FEMA. As a result of the insurance coverage and FEMA eligibility, UNCW anticipates reimbursements for substantially all incurred Hurricane Florence related costs.

#### NOTE 19 - THE CORONAVIRUS PANDEMIC EMERGENCY

In response to the coronavirus pandemic emergency, the federal government provided grants to the State and the University through various coronavirus program funds appropriated by (1) The Coronavirus Aid, Relief, and Economic Security Act (CARES), (2) The Coronavirus Response and Relief Supplemental Appropriations within the Federal Consolidated Appropriations Act of 2021 (CRRSA), and (3) The American Rescue Plan Act of 2021 (ARP).

The grant revenues from the various coronavirus program funds are contingent upon meeting the terms and conditions of the grant and signed agreements with the funding agencies, incurring qualifying expenditures, and are reported in the following nonoperating revenue captions of the financial statements:

**State Aid - Coronavirus** - This caption includes grant funds received directly by the State from the U.S. Department of Treasury, Coronavirus Relief Fund (CRF), and appropriated by the State to the University.

**Federal Aid - COVID-19** - This caption includes grant funds received directly by the University from the U.S. Department of Education, Higher Education Emergency Relief Funds (HEERF).

This caption also includes pass-through grant funds from the U.S. Department of Education, Elementary and Secondary School Emergency Relief (ESSER) Fund, and the Governors Emergency Education Relief (GEER) Fund.

# Summary of State and Federal Aid - COVID-19 Revenue Activities for the Fiscal Year Ended June 30, 2021:

| Program   | Total Authorized<br>Award  | 2020 Earned<br>Revenue | 2021 Earned<br>Revenue  | 2021 Unearned<br>Revenue (1) |
|---|----------------------------|------------------------|-------------------------|------------------------------|
| State Aid - Coronavirus:                              | N/A                        | \$ 4,597               | \$ 6,679,340            | \$-                          |
| Federal Aid - COVID-19:<br>HEERF Funds<br>ESSER Funds | \$ 57,209,536<br>1,124,774 | \$ 4,376,550<br>-      | \$ 39,431,998<br>50,902 | \$     6,446,345<br>-        |
| GEER Funds  | 325,957                    |                        | 313,515                 |                              |
| Total Federal Aid - COVID-19                          | N/A                        | \$ 4,376,550           | \$ 39,796,415           | \$ 6,446,345                 |

(1) The Unearned Revenue Column represents funds that have been received as of June 30th for which incurred qualifying expenditures/uses of funds or other eligibility requirements for reporting as earned revenue have not yet been met including specified grantor/provider requirements.

#### NOTE 20 - RELATED PARTIES

**Foundations** - There are four separately incorporated nonprofit foundations associated with the University. These foundations are the UNCW Student Aid Association, Inc. (Student Aid), the Foundation of the University of North Carolina at Wilmington, Inc. (Foundation), the Alumni Association of the University of North Carolina at Wilmington (Alumni), and the Friends of the University of North Carolina at Wilmington, Inc. (Friends). The University maintains a cash balance for each of the four foundations. This fiduciary relationship meets certain criteria of GASB 84 and the cash balances and related activities are reported as custodial funds in the fiduciary fund financial statements.

Student Aid fosters and promotes the education of student athletes by obtaining donations for the scholarship program at the University. The association also raises funds for the improvement and construction of physical facilities used by the University for athletic purposes, for the University's athletic scholarship fund, and to provide operational and supplementary support for the entire sports program. In addition, the association exists to encourage a fraternal spirit of loyalty and interest in the University by alumni, friends, and benefactors. Direct support from Student Aid totaled \$1,226,130 for the year ended June 30, 2021. The University maintains a cash balance for Student Aid which was \$2,312,259 as of June 30, 2021.

The Foundation assists the University by soliciting and receiving private gifts from individuals, corporations, and other organizations. These gifts support the University by providing scholarships, fellowships, faculty salary supplements, and unrestricted funds for academic programs. In addition, the Foundation can accept and liquidate non-cash gifts for the University and acquire property on the University's behalf. The Foundation's direct support to the University totaled \$1,398,777 for the year ended June 30, 2021. The University maintains a cash balance for the Foundation which was \$431,870 as of June 30, 2021.

Alumni serves to connect and involve alumni, students, and friends in the promotion and advancement of the University. Occasionally donations are made from this association to the University. This support totaled \$25,750 for the year ended June 30, 2021. The University maintains a cash balance for the Alumni which was \$388,740, as of June 30, 2021.

Friends contributes gifts to the University based on grant requests and may at a donor's request, contribute to a University academic scholarship fund. This support totaled \$9,125 for the year ended June 30, 2021. The University maintains a cash balance for Friends which was \$18,063 as of June 30, 2021.

All of these foundations are self-sustaining; however, the University does support their operations through donated support services. The University's proprietary fund financial statements do not include the assets, liabilities, net assets, or operational transactions of the foundations, except for support from each organization to the University. Separate financial statements for these foundations may be obtained from the Office of Associated Entities, 601 S. College Road, Wilmington, NC 28403-5952, or by calling (910) 962-3139.

### NOTE 21 - BLENDED COMPONENT UNITS

Condensed combining information for the University's blended component units for the year ended June 30, 2021, is presented as follows:

#### NOTE 22 - CHANGES IN FINANCIAL ACCOUNTING AND REPORTING

For the fiscal year ended June 30, 2021, the University implemented the following pronouncements issued by the Governmental Accounting Standards Board (GASB):

GASB Statement No. 84, Fiduciary Activities

GASB Statement No. 93, Replacement of Interbank Offered Rates

GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans

GASB Statement No. 98, The Annual Comprehensive Financial Report

GASB Statement No. 84 improves guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity, and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. Governments with activities meeting the criteria should present a statement of fiduciary net position and a statement of changes in fiduciary net position. An exception to that requirement is provided for a business-type activity that normally expects to hold custodial assets for 90-days or less.

GASB Statement No. 93 addresses accounting and financial reporting implications that result from the replacement of an Interbank Offered Rate (IBOR).

GASB Statement No. 97's primary objectives are to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans.

GASB Statement No. 98 establishes the term annual comprehensive financial report and its acronym ACFR. That new term and acronym replace instances of comprehensive annual financial report and its acronym in generally accepted accounting principles for state and local governments.

#### NOTE 23 - NET POSITION RESTATEMENT

The University's fiduciary activities were previously reported within the proprietary fund in single-column financial statements. Because fiduciary assets were accompanied by offsetting liabilities, these activities previously did not report a net position balance. Following the implementation of GASB Statement No. 84, the University's fiduciary activities are now reported on separate financial statements. As a result, fiduciary net position was restated to \$3,655,247 as of July 1, 2020. This restatement had no effect on the July 1, 2020 net position of the University's proprietary fund. However, on the Statement of Cash Flows, beginning cash and cash equivalents were restated for balances that are now reported on the Fiduciary Statement of Net Position.

#### NOTE 24 - SUBSEQUENT EVENT

On August 3, 2021, the UNC Board of Governors on behalf of UNCW, issued \$8,420,000 in University of North Carolina Wilmington General Revenue, Series 2021 bonds with an average interest rate of 4.0%. The bonds were executed and delivered to construct recreation fields and facilities.

Changes of Assumptions: In 2015, the North Carolina Retirement Systems' consulting actuaries performed the quinquennial investigation of each retirement system's actual demographic and economic experience (known as the "Experience Review"). The Experience Review provides the basis for selecting the actuarial assumptions and methods used to determine plan liabilities and funding requirements. The most recent Experience Review examined each plan's experience during the period between January 1, 2010, and December 31, 2014. Based on the findings, the Board of Trustees of the Teachers' and State Employees' Retirement System adopted a number of new actuarial assumptions and methods. The most notable changes to the assumptions include updates to the mortality tables and the mortality improvement projection scales to reflect reduced rates of mortality and significant increases in mortality improvements. These assumptions were adjusted to reflect the mortality projection scale MP-2015, released by the Society of Actuaries in 2015. In addition, the assumed rates of retirement, salary increases, and rates of termination from active employment were reduced to more closely reflect actual experience. The discount rate for the Teachers' and State Employees' Retirement System was lowered from 7.20% to 7.00% for the December 31, 2017 valuation. For the December 31, 2019 valuation, the discount rate was 7.00%.

The Boards of Trustees also adopted a new asset valuation method for the Teachers' and State Employees' Retirement System. For determining plan funding requirements, the plan now uses a five-year smoothing method with a reset of the actuarial value of assets to market value as of December 31, 2014.

The Notes to Required Supplementary Information reflect the most recent available information included in the State of North Carolina's 2020 Comprehensive Annual Financial Report.

Note: Changes in benefit terms, methods, and assumptions are presented in the Notes to Required Supplementary Information (RSI) schedule following the OPEB RSI tables.

# University of North Carolina Wilmington Notes to Required Supplementary Information Schedule of University Contributions Cost-Sharing, Multiple-Employer, Defined Benefit OPEB Plans For the Fiscal Year Ended June 30, 2021

*Changes of Benefit Terms:* Effective January 1, 2016, benefit terms related to copays, out-of-pocket maximums, and deductibles were changed for three of five options of the Retiree Health Benefit Fund (RHBF). Most of the changes were an increase in the amount from the previous year.

Effective January 1, 2017, benefit terms related to copays, coinsurance maximums, out-of-pocket maximums, and deductibles were changed for two of five options of the RHBF. Most of the changes were an increase in the amount from the previous year.

Effective January 1, 2019, benefit terms related to copays, out-of-pockets maximums, and deductibles were changed for one of four options of the RHBF. Out of pocket maximums increased while certain specialist copays decreased related to option benefits.

Effective January 1, 2020, benefit terms related to copays, out-of-pockets maximums, and deductibles were changed for the 70/30 PPO option of the RHBF. Only the copays were adjusted for 80/20 PPO option of the RHBF.

Additionally, the December 31, 2017 Disability Income Plan of North Carolina (DIPNC) actuarial valuation includes a liability for the State's potential reimbursement of health insurance premiums paid by employers during the second six months of the short-term disability benefit period.

Method and Assumptions Used in Calculations of Actuarially Determined Contributions: An actuarial valuation is performed for each plan each year. The actuarially determined contribution rates in the Schedule of University Contributions are calculated by the actuary as a projection of the required employer contribution for the fiscal year beginning six months following the date of the valuation results for the RHBF. The actuarially determined contribution rates in the Schedule of University Contributions are calculated by the actuary as a projection of the required employer contribution rates in the Schedule of University Contributions are calculated by the actuary as a projection of the required employer contribution for the fiscal year beginning 18 months following the date of the valuation results for the DIPNC. See Note 15 for more information on the specific assumptions for each plan. The actuarially determined contributions for those items with covered payroll were determined using the actuarially determined contribution rate from the actuary and covered payroll as adjusted for timing differences and other factors such as differences in employee class. Other actuarially determined contributions are disclosed in the schedule as expressed by the actuary in reports to the plans.

*Changes of Assumptions:* In 2015, the North Carolina Retirement Systems' consulting actuaries performed the quinquennial investigation of each retirement system's actual demographic and economic experience (known as the "Experience Review"). The Experience Review provides the basis for selecting the actuarial assumptions and methods used to determine plan liabilities and funding requirements. The most recent experience review examined each plan's experience during the period between January 1, 2010, and December 31, 2014. Based on the findings, the Boards of Trustees of the Teachers' and State Employees' Retirement System and the State Health Plan adopted a number of new actuarial assumptions and methods for the RHBF and the DIPNC. The most notable changes to the assumptions include updates to the mortality tables and the mortality improvement projection scales to reflect reduced rates of mortality and significant increases in mortality improvements. These assumptions were adjusted to reflect the mortality projection scale MP-2015, released by the Society of Actuaries in 2015. In addition, the assumed rates of retirement and rates of termination from active employment were reduced to more closely reflect actual experience.

For the actuarial valuation measured as of June 30, 2020, the discount rate for the RHBF was updated to 2.21%. In the prior year, disability rates were adjusted to the non-grandfathered assumptions used in the Teachers' and State Employees' Retirement System actuarial valuation to better align with the anticipated incidence of disability. Medical and prescription drug claim costs were changed based on most recent experience, and medical and prescription drug trend rates were changed to the current schedule. Enrollment assumptions were updated to model expected migrations among RHBF plan options over the next four years. For the DIPNC actuarial valuation as of December 31, 2018, for individuals who may become disabled in the future, the Social Security disability income benefit (which is an offset for the DIPNC benefit) was updated to be based on assumed Social Security calculation parameters in the year of disability. The assumed costs related to the Patient Protection and Affordable Care Act regarding the Health Insurance Provider Fee for the fully insured plans and Excise Tax were removed when those pieces were repealed December 2019.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees University of North Carolina Wilmington Wilmington, North Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and fiduciary activities of the University of North Carolina Wilmington (University), a constituent institution of the multi-campus University of North Carolina System, which is a component unit of the State of North Carolina, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the University's basic financial statements, and have issued our report thereon dated December 1, 2021.

#### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the University's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
