Auditor's Transmittal

The Honorable Roy Cooper, Governor
The General Assembly of North Carolina
Board of Trustees, Bladen Community College

We have completed a financial statement audit of Bladen Community College for the year ended June 30, 2023, and our audit results are included in this report. You will note from the independent auditor's report that we determined that the financial statements are presented fairly in all material respects.

The results of our tests disclosed no deficiencies in internal control over financial reporting that we consider to be material weaknesses in relation to our audit scope or any instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

North Carolina General Statutes require the State Auditor to make audit reports available to the public. Copies of audit reports issued by the Office of the State Auditor may be obtained through one of the options listed in the back of this report.

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of Bladen Community College (College), a component unit of the State of North Carolina, and its discretely presented component unit, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of the other auditors, the accompanying financial statements present fairly, in all material respects, the respective financial position of Bladen Community College, and its discretely presented component unit, as of June 30, 2023, and the respective changes in financial position and, where applicable, cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of Bladen Community College Foundation, Inc., the College's discretely presented component unit. Those financial statements were audited by other auditors, whose report thereon has been furnished to us, and our opinions, insofar as they relate to the amounts included for Bladen Community College Foundation, Inc., are based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (GAGAS), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the College and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The College's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United

States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the College's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and GAGAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and GAGAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the College's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and other required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 1, 2024 on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

Management's Discussion and Analysis

The following discussion and analysis provides an overview of Bladen Community College's (College) financial statements for the fiscal year ended June 30, 2023, with comparative data for the fiscal year ended June 30, 2022. The overview is based upon the information contained in the financial statements accompanying this discussion and analysis. Since Management's Discussion and Analysis is designed to focus on current activities, resulting changes, and currently known facts, it should be read in conjunction with the College's basic financial statements and the related notes to the financial statements. The College understands the responsibility for the completeness and fairness of this information rests with the College.

Overview of the Financial Statements

This annual report consists of three statements: Statement of Net Position; Statement of Revenues, Expenses, and Changes in Net Position; and Statement of Cash Flows. These financial statements are prepared in accordance with Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*, as amended by GASB Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis for Public College and Universities*. These statements offer short-term and long-term financial information about the College's activities. They are prepared under the accrual basis of accounting, whereby revenues are recognized when earned and expenses are recorded when an obligation has been incurred. In summary, the reporting format is intended to condense and simplify the user's analysis of costs of various college services to students and the public. The three statements and their financial focus are discussed below.

The Statement of Net Position presents the financial position of the College at year-end. It includes all assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. The Statement of Net Position is presented in a classified format and is classified by current and noncurrent. Over time, increases and decreases in net position are an indicator of the improvement or erosion of the College's financial health when considered with nonfinancial facts such as enrollment levels and the condition of facilities.

The Statement of Revenues, Expenses, and Changes in Net Position focuses on both the gross costs and the net costs of the College's activities, which are supported mainly by state, local, federal, and other revenues. This statement presents the revenues earned and expenses incurred during the year. Activities are reported as either operating or nonoperating. A community college's dependency on state aid and gifts could result in operating deficits because the financial reporting model classifies state aid and gifts as nonoperating revenues. The utilization of capital assets is reflected in the financial statements as depreciation and amortization, which amortizes the cost of an asset over its expected useful life.

The Statement of Cash Flows presents the sources from which the College received cash and uses for which the cash was spent. The activity includes cash inflows and outflows summarized by operating, noncapital financing, and capital financing, and helps measure the ability to meet financial obligations as they mature. The direct method is used to present the Cash Flow Statement.

The Notes to the Financial Statements provide additional information that is essential to a full understanding of the data provided.

The financial statements also include a Statement of Financial Position, Statement of Activities, and certain note disclosures for the College's discretely presented component unit,

Bladen Community College Foundation, Inc. (Foundation); however, the Foundation is not included in Management's Discussion and Analysis. More information describing the relationship between the College and Foundation can be found in Note 1A.

Financial Highlights

Similar to previous years, the College's state funding allocation of \$9,870,197.97 provided the major source of funding.

To continue serving high school students and to maintain consistent Full-Time Equivalent (FTE) funding, the College provides high school students the opportunity to take college courses through the Career and College Promise Program (CCPP). The CCPP provides seamless dual enrollment educational opportunities tuition free for eligible North Carolina high school students, allowing them to accelerate completion of college certificates, diplomas, and associate degrees that lead to college transfer or provide entry-level job skills. High school students provided the College approximately 32% of its actual enrollment and FTE funding during the 2022-2023 fiscal year.

Statement of Net Position

Below is a condensed comparative analysis between the Statement of Net Position for the fiscal year ended June 30, 2023, and the prior fiscal year.

	June 30, 2023	June 30, 2022	Change
Assets			
Current Assets:	\$ 1,783,668.87	\$ 2,204,577.25	\$ (420,908.38)
Noncurrent Assets:			
Capital Assets, Net	15,054,288.10	14,997,853.05	56,435.05
Other	1,925,112.76	441,205.54	1,483,907.22
Total Assets	<u>18,763,069.73</u>	<u>17,643,635.84</u>	<u>1,119,433.89</u>
Deferred Outflows of Resources	<u>4,060,933.00</u>	<u>2,887,496.00</u>	<u>1,173,437.00</u>
Liabilities			
Current Liabilities	735,851.15	748,957.05	(13,105.90)
Long-Term Liabilities	10,290,911.28	9,265,951.16	1,024,960.12
Total Liabilities	<u>11,026,762.43</u>	<u>10,014,908.21</u>	<u>1,011,854.22</u>
Deferred Inflows of Resources	<u>3,170,890.00</u>	<u>4,497,083.00</u>	<u>(1,326,193.00)</u>
Net Position			
Net Investment in Capital Assets	15,050,800.60	14,943,788.05	107,012.55
Restricted	1,949,761.50	610,989.85	1,338,771.65
Unrestricted	<u>(8,374,211.80)</u>	<u>(9,535,637.27)</u>	<u>1,161,425.47</u>
Total Net Position	<u>\$ 8,626,350.30</u>	<u>\$ 6,019,140.63</u>	<u>\$ 2,607,209.67</u>

The Statement of Net Position presents a fiscal snapshot of the College's financial position as of June 30, 2023. Net position, which represents the residual interest in the College's assets and deferred outflows of resources after liabilities and deferred inflows of resources are deducted, increased \$2,607,209.67 from the previous fiscal year.

Assets

Current assets include cash, receivables, and inventories. Total current assets decreased \$420,908.38 when compared to the prior fiscal year, which included inventories decreasing

\$391,660.70. This was due to the College's decision to no longer own and operate its bookstore. The College outsourced the bookstore services to Barnes & Noble.

Noncurrent assets include restricted cash and capital assets (nondepreciable and depreciable). Restricted cash increased \$1,910,547.96 when compared to the prior fiscal year. The increase to restricted cash is due mainly to the Department of Environmental Quality transferring \$1,500,000.00 to the North Carolina Community College System Office to provide a grant to the College for a water and sewer infrastructure project. See the Analysis of Net Capital Assets section further below for information on capital assets.

Liabilities

Current liabilities are considered to be paid within a one-year period, and the College's current liabilities include accounts payable and accrued liabilities, unearned revenue, funds held for others, and the current portion of long-term liabilities. There were no significant changes in current liabilities from the prior fiscal year.

Deferred Outflows/Inflows of Resources and Long-Term Liabilities

Changes in deferred outflows of resources, long-term liabilities, and deferred inflows of resources are a result of the College's participation in the Teachers' and State Employees' Retirement System, Disability Income Plan of North Carolina, and Retiree Health Benefit Fund and changes in the actuarial valuations for these plans. Further information about the plans can be found in Notes 7, 11, and 12 (Long-Term Liabilities, Pension Plans, and Other Postemployment Benefits (OPEB), respectively).

Long-term liabilities totaled \$10,290,911.28 at year-end, of which \$275,279.28 represented liabilities for compensated absences, \$4,329,481.00 represented net pension liability, and \$5,686,151.00 represented net OPEB liabilities.

Net Position

Net position results from adding the College's assets and deferred outflows of resources, then subtracting all liabilities and deferred inflows of resources. For reporting purposes, net position is separated into three categories: Net Investment in Capital Assets, Restricted – Expendable, and Unrestricted.

During the 2022-2023 fiscal year, the College saw an overall increase in net position of \$2,607,209.67. Restricted net position increased by \$1,338,771.65 which includes limited use resources of the College that are subject to externally imposed restrictions. The increase to restricted net position is due mainly to the \$1,500,000.00 grant received for the water and sewer infrastructure project that was explained in the Assets section above. Unrestricted funds include resources derived from student tuition and fees, sales and services, unrestricted gifts, deferred outflows of resources, deferred inflows of resources, other miscellaneous unrestricted income. Unrestricted net position increased \$1,161,425.47 primarily due to changes in account balances related to deferred outflows of resources, long-term liabilities, and deferred inflows of resources, as discussed above.

Analysis of Net Capital Assets

The categories of the College's capital assets are shown in the schedule below. The schedule is prepared on an accrual basis of accounting whereby assets are capitalized and depreciated and amortized. See Note 5 - Capital Assets for more information.

	<u>June 30, 2023</u>	<u>June 30, 2022</u>	<u>Change</u>
Capital Assets:			
Land	\$ 78,163.55	\$ 78,163.55	\$ -
Construction in Progress	108,711.50	-	108,711.50
Buildings	18,464,907.34	18,464,907.34	-
Machinery and Equipment	3,735,099.17	3,228,486.06	506,613.11
General Infrastructure	776,215.06	776,215.06	-
Right to Use Leased Asset Machinery and Equipment	-	104,915.00	(104,915.00)
Total	<u>23,163,096.62</u>	<u>22,652,687.01</u>	<u>510,409.61</u>
Less Accumulated Depreciation/Amortization	<u>8,108,808.52</u>	<u>7,654,833.96</u>	<u>453,974.56</u>
Net Capital Assets	<u>\$ 15,054,288.10</u>	<u>\$ 14,997,853.05</u>	<u>\$ 56,435.05</u>

Machinery and equipment had a current year increase of \$506,613.11. The increase was due to the College purchasing three vehicles and equipment for their welding program during the year.

Statement of Revenues, Expenses, and Changes in Net Position

The Statement of Revenues, Expenses, and Changes in Net Position presents the results of the College's operations. A condensed statement with prior year comparative figures is presented below:

	June 30, 2023	June 30, 2022	Change
Operating Revenues:			
Student Tuition and Fees, Net	\$ 485,457.14	\$ 612,013.43	\$ (126,556.29)
Sales and Services, Net	189,875.17	213,998.24	(24,123.07)
Other Operating Revenues	46,208.92	43,878.50	2,330.42
Total Operating Revenues	721,541.23	869,890.17	(148,348.94)
Operating Expenses:			
Salaries and Benefits	8,602,212.85	8,342,841.41	259,371.44
Supplies and Services	4,016,658.02	3,836,686.22	179,971.80
Scholarships and Fellowships	2,150,384.60	3,418,347.52	(1,267,962.92)
Utilities	230,764.22	241,486.35	(10,722.13)
Depreciation/Amortization	582,722.87	574,046.12	8,676.75
Total Operating Expenses	15,582,742.56	16,413,407.62	(830,665.06)
Operating Loss	(14,861,201.33)	(15,543,517.45)	682,316.12
Nonoperating Revenues (Expenses):			
State Aid	9,363,348.31	8,869,163.98	494,184.33
State Aid - Coronavirus	98,416.41	-	98,416.41
County Appropriations	1,277,008.00	1,069,551.00	207,457.00
Student Financial Aid	2,549,911.73	2,727,149.27	(177,237.54)
Federal Aid - COVID-19	890,233.13	5,651,660.54	(4,761,427.41)
Noncapital Contributions	989,716.05	46,189.00	943,527.05
Interest and Fees on Leases	(822.00)	-	(822.00)
Other Nonoperating Expenses	(134.24)	(11,797.27)	11,663.03
Net Nonoperating Revenues	15,167,677.39	18,351,916.52	(3,184,239.13)
Other Revenues:			
State and County Capital Aid	785,733.61	113,793.74	671,939.87
Capital Contributions	1,515,000.00	15,803.12	1,499,196.88
Total Other Revenues	2,300,733.61	129,596.86	2,171,136.75
Increase in Net Position	2,607,209.67	2,937,995.93	(330,786.26)
Net Position - Beginning of Year	6,019,140.63	3,081,144.70	2,937,995.93
Net Position - End Of Year	\$ 8,626,350.30	\$ 6,019,140.63	\$ 2,607,209.67
Reconciliation of Change in Net Position:			
Total Revenues	\$ 18,190,908.47	\$ 19,363,200.82	\$ (1,172,292.35)
Less Total Expenses	15,583,698.80	16,425,204.89	(841,506.09)
Increase in Net Position	\$ 2,607,209.67	\$ 2,937,995.93	\$ (330,786.26)

Analysis of Statement of Revenue, Expenses, and Changes in Net Position Comparison

The Statement of Revenues, Expenses, and Changes in Net Position reflects a favorable change in net position of \$2,607,209.67 from prior year. Some highlights of the changes are as follows:

- Operating revenues decreased by \$148,348.94 primarily due to a decrease of student tuition and fees, net related to a decrease of students enrolling at the College during the 2022-2023 fiscal year.
- Total operating expenses decreased by \$830,665.06 due mainly to a decrease in scholarships and fellowship expenses related to the reduction in Higher Education Emergency Relief Funds (HEERF) available to spend during the 2022-2023 fiscal year. The decrease was offset primarily by an increase in salaries and benefits due to a 4% raise awarded to College employees.
- Net nonoperating revenues decreased by \$3,184,239.13. There was a decrease of \$4,761,427.41 in federal aid – COVID-19 due to a reduction in HEERF funding during the 2022-2023 fiscal year. The decrease was offset by an increase in noncapital contributions of \$943,527.05 due to an increase of state and local grants from the Lumber River Council of Governments and the Cape Fear Valley Health System.
- Total other revenues increased by \$2,171,136.75 mostly due to an increase of \$1,499,196.88 in capital contributions. Capital contributions increased due to the College receiving a \$1,500,000.00 grant discussed previously to upgrade its water and sewer infrastructure.

Economic Outlook and Effects on Financial Reporting

As of June 30, 2023, unemployment in Bladen County was 4.4%, 1.1% higher than the State of North Carolina's unemployment percentage of 3.3%. The high percentage of unemployment in the Bladen County area contributed to the continued demand for student financial aid through the Department of Education's Pell Grant Award. Bladen and surrounding counties have experienced job losses due to plant closings and downsizings. Since the closings and downsizing, job growth has been virtually nonexistent in all sectors of the local economy. Bladen County's major industries continue to be pork processing and agri-business. Other primary employers include a chemical plant, retail, and the public sector.

The College's enrollment for the 2023-2024 fiscal year has stabilized with enrollment leveling at approximately the same as the 2020-2021 fiscal year, prior to the pandemic. The continued flexibility to transfer equipment funds to operating funds aids the College in maintaining fiscal stability. The College has seen a reduction in state funding due to a decrease in statewide budgeted FTE's for the 2023-2024 fiscal year. The College has made adjustments in scheduling and operations as well as an increased focus on recruiting, retention, and completion to accommodate the funding reductions.

The College continues to explore new opportunities related to Curriculum as well as Continuing Education, through developing new programs and providing updated workforce development courses. A new Culinary Arts, Truck Driver Training, and an expanded Electrical program aimed to serve the Hispanic population in Bladen County are expected in to come to fruition in the 2023-2024 academic year.

Request of Information

This information is designed to provide a general overview of Bladen Community College's finances. Questions concerning any of this information should be addressed to Heather Garner, Controller, Bladen Community College, 7418 NC Highway 41W, Dublin, N.C. 28332, (910) 879-5511.

The accompanying notes to the financial statements are an integral part of this statement.

Notes to the Financial Statements

Note 1 - Significant Accounting Policies

A. Financial Reporting Entity - The concept underlying the definition of the financial reporting entity is that elected officials are accountable to their constituents for their actions. As required by accounting principles generally accepted in the United States of America (GAAP), the financial reporting entity includes both the primary government and all of its component units. An organization other than a primary government serves as a nucleus for a reporting entity when it issues separate financial statements. Bladen Community College (College) is a component unit of the State of North Carolina and an integral part of the State's *Annual Comprehensive Financial Report*.

The accompanying financial statements present all funds of the College and its component unit for which the College's Board of Trustees is financially accountable. The College's component unit is discretely presented in the College's financial statements. See below for further discussion of the College's component unit. Other related foundations and similar nonprofit corporations for which the College is not financially accountable are not part of the accompanying financial statements.

Discretely Presented Component Unit - Bladen Community College Foundation, Inc. (Foundation) is a legally separate, private nonprofit corporation and is reported as a discretely presented component unit based on the nature and significance of its relationship to the College.

The Foundation acts primarily as a fundraising organization to supplement the resources that are available to the College in support of its programs. The Foundation board consists of 43 members. Although the College does not control the timing or amount of receipts from the Foundation, the majority of resources, or income thereon, that the Foundation holds and invests are restricted to the activities of the College by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of the College, the Foundation is considered a component unit of the College and is reported in separate financial statements because of the difference in its reporting model, as described below.

The Foundation reports its financial results under the Financial Accounting Standards Board (FASB) Codification. As such, certain revenue recognition criteria and presentation features are different from the Governmental Accounting Standards Board (GASB) revenue recognition criteria and presentation features. No modifications have been made to the Foundation's financial information in the College's financial reporting entity for these differences.

During the year ended June 30, 2023, the Foundation distributed \$97,385.00 to the College for both restricted and unrestricted purposes. Complete financial statements for the Foundation can be obtained from Sondra Guyton, Vice President for Institutional Advancement & Community Relations, at 7418 Hwy 41 W. Dublin, NC 28332 or by calling (910) 879-5634.

B. Basis of Presentation - The accompanying financial statements are presented in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB). Pursuant to the provisions of GASB Statement No. 34, *Basic Financial Statements - and Management's*

Discussion and Analysis - for State and Local Governments, as amended by GASB Statement No. 35, *Basic Financial Statements - and Management's Discussion and Analysis - for Public Colleges and Universities*, and GASB Statement No. 84, *Fiduciary Activities*, the full scope of the College's activities is considered to be a single business-type activity and accordingly, is reported within a single column in the basic financial statements.

- C. Basis of Accounting** - The financial statements of the College have been prepared using the economic resource measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred, regardless of the timing of the cash flows.

Nonexchange transactions, in which the College receives (or gives) value without directly giving (or receiving) equal value in exchange, include state aid, certain grants, and donations. Revenues are recognized, net of estimated uncollectible amounts, as soon as all eligibility requirements imposed by the provider have been met, if probable of collection.

- D. Cash and Cash Equivalents** - This classification includes undeposited receipts, petty cash, and cash on deposit with private bank accounts.

- E. Receivables** - Receivables consist of tuition and fees charged to students and charges for auxiliary enterprises' sales and services. Receivables also include amounts due from the federal government, state and local governments, and private sources in connection with reimbursement of allowable expenditures made pursuant to contracts and grants. Receivables are recorded net of estimated uncollectible amounts.

- F. Inventories** - Inventories, consisting of expendable supplies, are valued at cost using the last invoice cost method.

- G. Capital Assets** - Capital assets are stated at cost at date of acquisition or acquisition value at date of donation in the case of gifts. Donated capital assets acquired prior to July 1, 2015 are stated at fair value as of the date of donation. The value of assets constructed includes all material direct and indirect construction costs.

The College capitalizes assets that have a value or cost of \$5,000 or greater at the date of acquisition and an estimated useful life of more than one year.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets in the following manner:

<u>Asset Class</u>	<u>Estimated Useful Life</u>
Buildings	10-100 years
Machinery and Equipment	2-30 years
General Infrastructure	10-75 years

Right-to-use leased assets are recorded at the present value of payments expected to be made during the lease term, plus any upfront payments and ancillary charges paid to place the underlying right-to-use asset into service. Lease liabilities are capitalized as a right-to-use asset when the underlying leased asset has a cost of \$5,000 or greater and an estimated useful life of more than one year.

Amortization for right-to-use leased assets is computed using the straight-line method over the shorter of the lease term or the underlying asset's estimated useful life. If a lease agreement contains a purchase option the College is reasonably certain will be exercised, the right-to-use leased asset is amortized over the asset's estimated useful life.

- H. Restricted Assets** - Certain resources are reported as restricted assets because restrictions on asset use change the nature or normal understanding of the availability of the asset. Resources that are not available for current operations and are reported as restricted include resources restricted for the acquisition or construction of capital assets, and resources whose use is limited by external parties or statute.
- I. Accounting and Reporting of Fiduciary Activities** - Pursuant to the provisions of GASB Statement No. 84, *Fiduciary Activities*, custodial funds that are normally expected to be received and disbursed within a 3-month period or otherwise do not meet the fiduciary activity criteria defined by GASB Statement No. 84 continue to be reported in the Statement of Net Position as funds held for others and as operating activities in the Statement of Cash Flows.

There are no other trust or custodial funds meeting the criteria of a fiduciary activity that are required to be reported in separate fiduciary fund financial statements.

- J. Noncurrent Long-Term Liabilities** - Noncurrent long-term liabilities include lease liabilities, compensated absences, net pension liability, and net other postemployment benefits (OPEB) liability that will not be paid within the next fiscal year.

The net pension liability represents the College's proportionate share of the collective net pension liability reported in the State of North Carolina's 2022 *Annual Comprehensive Financial Report*. This liability represents the College's portion of the collective total pension liability less the fiduciary net position of the Teachers' and State Employees' Retirement System. See Note 11 for further information regarding the College's policies for recognizing liabilities, expenses, deferred outflows of resources, and deferred inflows of resources related to pensions.

The net OPEB liability represents the College's proportionate share of the collective net OPEB liability reported in the State of North Carolina's 2022 *Annual Comprehensive Financial Report*. This liability represents the College's portion of the collective total OPEB liability less the fiduciary net position of the Retiree Health Benefit Fund and Disability Income Plan of North Carolina. See Note 12 for further information regarding the College's policies for recognizing liabilities, expenses, deferred outflows of resources, and deferred inflows of resources related to OPEB.

- K. Compensated Absences** - The College's policy is to record the cost of vacation leave when earned. The policy provides for a maximum accumulation of unused vacation leave of 30 days which can be carried forward each July 1 or for which an employee can be paid upon termination of employment. When classifying compensated absences into current and noncurrent, leave is considered taken using a last-in, first-out (LIFO) method. Also, any accumulated vacation leave in excess of 30 days at year-end is converted to sick leave. Under this policy, the accumulated vacation leave for each employee at June 30 equals the leave carried forward at the previous June 30 plus the leave earned, less the leave taken between July 1 and June 30.

In addition to the vacation leave described above, compensated absences include the accumulated unused portion of the special annual leave bonuses awarded by the North Carolina General Assembly. The bonus leave balance on June 30 is retained by employees and transferred into the next fiscal year. It is not subject to the limitation on annual leave carried forward described above and is not subject to conversion to sick leave.

There is no liability for unpaid accumulated sick leave because the College has no obligation to pay sick leave upon termination or retirement. However, additional service credit for retirement pension benefits is given for accumulated sick leave upon retirement.

L. Deferred Outflows/Inflows of Resources - Deferred outflows of resources represent a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. Deferred inflows of resources represent an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then.

M. Net Position - The College's net position is classified as follows:

Net Investment in Capital Assets - This represents the College's total investment in capital assets, net of outstanding liabilities related to those capital assets.

Restricted Net Position - Expendable - Expendable restricted net position includes resources for which the College is legally or contractually obligated to spend in accordance with restrictions imposed by external parties.

Unrestricted Net Position - Unrestricted net position includes resources derived from student tuition and fees, sales and services, unrestricted gifts, and interest income. It also includes the net position of accrued employee benefits such as compensated absences, pension plans, and other postemployment benefits.

Restricted and unrestricted resources are tracked using a fund accounting system and are spent in accordance with established fund authorities. Fund authorities provide rules for the fund activity and are separately established for restricted and unrestricted activities. When both restricted and unrestricted funds are available for expenditure, the decision for funding is transactional based within the departmental management system in place at the College. Both restricted and unrestricted net position include consideration of deferred outflows of resources and deferred inflows of resources. See Note 8 for further information regarding deferred outflows of resources and deferred inflows of resources that had a significant effect on unrestricted net position.

N. Scholarship Discounts - Student tuition and fees revenue from College charges are reported net of scholarship discounts in the accompanying Statement of Revenues, Expenses, and Changes in Net Position. The scholarship discount is the difference between the actual charge for goods and services provided by the College and the amount that is paid by students or by third parties on the students' behalf. Student financial assistance grants, such as Pell grants, and other federal, state, or nongovernmental programs, are recorded as nonoperating revenues in the accompanying Statement of Revenues, Expenses, and Changes in Net Position. To the extent that revenues from these programs are used to satisfy tuition and fees the College has recorded a scholarship discount.

O. Revenue and Expense Recognition - The College classifies its revenues and expenses as operating or nonoperating in the accompanying Statement of Revenues, Expenses, and Changes in Net Position. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the College's principal ongoing operations. Operating revenues include activities that have characteristics of exchange transactions, such as (1) student tuition and fees, (2) sales and services of auxiliary enterprises, and (3) certain federal, state, and local grants and contracts. Operating expenses are all expense transactions incurred other than those related to capital and noncapital financing or investing activities as defined by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*.

Nonoperating revenues include activities that have the characteristics of nonexchange transactions. Revenues from nonexchange transactions that represent subsidies or gifts to the College, as well as investment income, are considered nonoperating since these are either investing, capital, or noncapital financing activities. Capital contributions are presented separately after nonoperating revenues and expenses.

P. County Appropriations - County appropriations are provided to the College primarily to fund its plant operation and maintenance function and to fund construction projects, motor vehicle purchases, and maintenance of equipment. Unexpended county current appropriations and county capital appropriations do not revert and are available for future use by the College.

Note 2 - Deposits and Investments

College - The College is required by North Carolina General Statute 147-77 to deposit any funds collected or received that belong to the State of North Carolina with the State Treasurer or with a depository institution in the name of the State Treasurer. All funds of the College, other than those required to be deposited with the State Treasurer, are deposited in board-designated official depositories and are required to be collateralized in accordance with North Carolina General Statute 115D-58.7. Official depositories may be established with any bank, savings and loan association, or trust company whose principal office is located in North Carolina. Also, the College may establish time deposit accounts, money market accounts, and certificates of deposit. The amount shown on the Statement of Net Position as cash and cash equivalents includes cash on hand totaling \$840.00, and deposits in private financial institutions with a carrying value of \$3,496,078.95 and a bank balance of \$3,743,382.81.

The North Carolina Administrative Code (20 NCAC 7) requires all depositories to collateralize public deposits in excess of federal depository insurance coverage by using one of two methods, dedicated or pooled. Under the dedicated method, a separate escrow account is established by each depository in the name of each local governmental unit and the responsibility of monitoring collateralization rests with the local unit. Under the pooling method, each depository establishes an escrow account in the name of the State Treasurer to secure all of its public deposits. This method shifts the monitoring responsibility from the local unit to the State Treasurer.

Custodial credit risk is the risk that in the event of a bank failure, the College’s deposits may not be returned to it. As of June 30, 2023, the College’s bank balance in excess of federal depository insurance coverage was covered under the pooling method.

Component Unit - Investments of the Foundation are subject to and restricted by G.S. 36E Uniform Prudent Management of Institutional Funds Act (UPMIFA) and any requirements placed on them by contract or donor agreements. Because the Foundation reports under the FASB reporting model, disclosures of the various investment risks are not required. The following is an analysis of investments by type:

Investments	Amount
Cash/Money Market Held in Brokerage Accounts	\$ 20,692
Investment in Stocks	459,466
Investment in ETFs and CEFs	46,230
Investment in Mutual Funds	579,688
Net Unsettled Purchases/Sales	(8,103)
Total Investments	<u>\$ 1,097,973</u>

Note 3 - Fair Value Measurements

Component Unit - The Fair Value Measurements Topic of the FASB Accounting Standards Codification establishes a hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quotes prices for identical assets or liabilities in active markets.

- Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial Instrument’s level within fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Assets measured at fair value on the recurring basis as of June 30, 2023 were as follows:

	Fair Value	Level 1	Level 2	Level 3
Cash/Money Market Funds	\$ 20,692	\$ 20,692	\$ -	\$ -
Stocks	459,466	459,466	-	-
ETFs & CEFs	46,230	46,230	-	-
Mutual Funds	579,688	579,688	-	-
Net Unsettled Purchases/Sales	(8,103)	(8,103)	-	-
Total Investments	\$ 1,097,973	\$ 1,097,973	\$ -	\$ -

Note 4 - Receivables

Receivables at June 30, 2023, were as follows:

	Gross Receivables	Less Allowance for Doubtful Accounts	Net Receivables
Receivables:			
Students	\$ 174,946.28	\$ 83,601.74	\$ 91,344.54
Student Sponsors	41,727.00	15,973.34	25,753.66
Intergovernmental	92,660.59	-	92,660.59
Total Receivables	\$ 309,333.87	\$ 99,575.08	\$ 209,758.79

Note 5 - Capital Assets

A summary of changes in the capital assets for the year ended June 30, 2023, is presented as follows:

	Balance July 1, 2022	Increases	Decreases	Balance June 30, 2023
Capital Assets, Nondepreciable:				
Land	\$ 78,163.55	\$ -	\$ -	\$ 78,163.55
Construction in Progress	-	108,711.50	-	108,711.50
Total Capital Assets, Nondepreciable	78,163.55	108,711.50	-	186,875.05
Capital Assets, Depreciable:				
Buildings	18,464,907.34	-	-	18,464,907.34

Buildings	6,060,639.10	283,041.09	-	6,343,680.19
Machinery and Equipment	1,076,953.79	235,182.19	23,833.31	1,288,302.67
General Infrastructure	456,221.07	20,604.59	-	476,825.66
Right-to-Use Leased Machinery and Equipment	61,020.00	43,895.00	104,915.00	-
Total Accumulated Depreciation/Amortization	7,654,833.96	582,722.87	128,748.31	8,108,808.52
Total Capital Assets, Depreciable, Net	14,919,689.50	(48,499.96)	3,776.49	14,867,413.05
Capital Assets, Net	\$ 14,997,853.05	\$ 60,211.54	\$ 3,776.49	\$ 15,054,288.10

Note 6 - Accounts Payable and Accrued Liabilities

Accounts payable and accrued liabilities at June 30, 2023, were as follows:

	<u>Amount</u>
Accounts Payable and Accrued Liabilities:	
Accounts Payable	\$ 115,890.39
Accrued Payroll	376,932.16
Contract Retainage	<u>3,487.50</u>
Total Accounts Payable and Accrued Liabilities	<u>\$ 496,310.05</u>

Note 7 - Long-Term Liabilities

A summary of changes in the long-term liabilities for the year ended June 30, 2023, is presented as follows:

	Balance July 1, 2022	Additions	Reductions	Balance June 30, 2023	Current Portion
Long-Term Liabilities					
Lease Liabilities	\$ 47,194.00	\$ -	\$ 47,194.00	\$ -	\$ -
Compensated Absences	335,085.25	353,953.56	324,768.22	364,270.59	88,991.31
Net Pension Liability	1,379,963.00	2,949,518.00	-	4,329,481.00	-
Net Other Postemployment Benefits Liability	7,636,399.00	7,369.00	1,957,617.00	5,686,151.00	-
Total Long-Term Liabilities	<u>\$ 9,398,641.25</u>	<u>\$ 3,310,840.56</u>	<u>\$ 2,329,579.22</u>	<u>\$ 10,379,902.59</u>	<u>\$ 88,991.31</u>

Additional information regarding the net pension liability is included in Note 11.

Additional information regarding the net other postemployment benefits liability is included in Note 12.

Note 8 - Net Position

Unrestricted net position has been significantly affected by transactions resulting from the recognition of deferred outflows of resources, deferred inflows of resources, and related long-term liabilities, as shown in the following table:

	<u>Amount</u>
Net Pension Liability and Related Deferred Outflows of Resources and Deferred Inflows of Resources	\$ (1,421,990.00)
Net OPEB Liability and Related Deferred Outflows of Resources and Deferred Inflows of Resources	<u>(7,703,599.00)</u>
Effect on Unrestricted Net Position	(9,125,589.00)
Total Unrestricted Net Position Before Recognition of Deferred Outflows of Resources, Deferred Inflows of Resources, and Related Long-Term Liabilities	<u>751,377.20</u>
Total Unrestricted Net Position	<u>\$ (8,374,211.80)</u>

See Notes 11 and 12 for detailed information regarding the amortization of the deferred outflows of resources and deferred inflows of resources relating to pensions and OPEB, respectively.

Note 9 - Revenues

A summary of discounts and allowances by revenue classification is presented as follows:

	Gross Revenues	Less Scholarship Discounts and Allowances	Less Allowance for Uncollectibles	Net Revenues
Operating Revenues:				
Student Tuition and Fees, Net	<u>\$ 1,520,931.29</u>	<u>\$ 1,018,777.54</u>	<u>\$ 16,696.61</u>	<u>\$ 485,457.14</u>

Note 10 - Operating Expenses by Function

The College's operating expenses by functional classification are presented as follows:

	Salaries and Benefits	Supplies and Services	Scholarships and Fellowships	Utilities	Depreciation/ Amortization	Total
Instruction	\$ 4,348,062.03	\$ 481,215.16	\$ -	\$ -	\$ -	\$ 4,829,277.19
Academic Support	879,092.84	76,907.43	-	-	-	956,000.27
Student Services	841,603.97	237,038.42	-	-	-	1,078,642.39
Institutional Support	2,171,867.40	999,822.38	-	-	-	3,171,689.78
Operations and Maintenance of Plant	137,540.94	908,897.73	-	230,764.22	-	1,277,202.89
Student Financial Aid	224,045.67	754,061.48	2,150,384.60	-	-	3,128,491.75
Auxiliary Enterprises	-	558,715.42	-	-	-	558,715.42
Depreciation/Amortization	-	-	-	-	582,722.87	582,722.87
Total Operating Expenses	<u>\$ 8,602,212.85</u>	<u>\$ 4,016,658.02</u>	<u>\$ 2,150,384.60</u>	<u>\$ 230,764.22</u>	<u>\$ 582,722.87</u>	<u>\$ 15,582,742.56</u>

Included in the scholarship and fellowship function are student financial aid operating expenses for emergency financial aid payments to eligible students. These payments are for expenses related to the disruption of campus operations due to the coronavirus of \$175,503.32 provided by the Higher Education Emergency Relief Fund (HEERF). Because of the administrative involvement by the College in providing the student awards, the related program activity is reported as nonoperating Federal Aid – COVID-19 revenue and student financial aid operating expenses. Since the purpose of the student aid is not for educational or scholarship purposes, they do not affect the scholarship discounting adjustments reported in Note 9.

Note 11 - Pension Plans**Defined Benefit Plan**

Plan Administration: The State of North Carolina administers the Teachers' and State Employees' Retirement System (TSERS) plan. This plan is a cost-sharing, multiple-employer, defined benefit pension plan established by the State to provide pension benefits for general employees and law enforcement officers (LEOs) of the State, general employees and LEOs of its component units, and employees of Local Education Agencies (LEAs) and charter schools not in the reporting entity. Membership is comprised of employees of the State (state agencies and institutions), universities, community colleges, and certain proprietary component units along with the LEAs and charter schools that elect to join the Retirement System. Benefit

provisions are established by General Statute 135-5 and may be amended only by the North Carolina General Assembly.

Benefits Provided: TSERS provides retirement and survivor benefits. Retirement benefits are determined as 1.82% of the member's average final compensation times the member's years of creditable service. A member's average final compensation is calculated as the average of a member's four highest consecutive years of compensation. General employee plan members are eligible to retire with full retirement benefits at age 65 with five years of membership service, at age 60 with 25 years of creditable service, or at any age with 30 years of creditable service. General employee plan members are eligible to retire with partial retirement benefits at age 50 with 20 years of creditable service or at age 60 with five years of membership service. Survivor benefits are available to eligible beneficiaries of general members who die while in active service or within 180 days of their last day of service and who also have either completed 20 years of creditable service regardless of age, or have completed five years of service and have reached age 60. Eligible beneficiaries may elect to receive a monthly Survivor's Alternate Benefit for life in lieu of the return of the member's contributions that is generally available to beneficiaries of deceased members. The plan does not provide for automatic post-retirement benefit increases.

Contributions: Contribution provisions are established by General Statute 135-8 and may be amended only by the North Carolina General Assembly. Plan members are required to contribute 6% of their annual pay. The contribution rate for employers is set each year by the North Carolina General Assembly in the Appropriations Act and may not be less than the contribution rate required of plan members. The TSERS Board of Trustees establishes a funding policy from which an accrued liability rate and a normal contribution rate are developed by the consulting actuary. The sum of those two rates developed under the funding policy is the actuarially determined contribution rate (ADC). The TSERS Board of Trustees may further adopt a contribution rate policy that is higher than the ADC known as the required employer contribution to be recommended to the North Carolina General Assembly. The College's contractually-required contribution rate for the year ended June 30, 2023 was 17.38% of covered payroll. Plan members' contributions to the pension plan were \$360,858.16, and the College's contributions were \$1,045,285.80 for the year ended June 30, 2023.

The TSERS plan's financial information, including all information about the plan's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fiduciary net position, is included in the State of North Carolina's fiscal year 2022 *Annual Comprehensive Financial Report*. An electronic version of this report is available on the North Carolina Office of the State Controller's website at <https://www.osc.nc.gov/> or by calling the State Controller's Financial Reporting Section at 919-707-0500.

TSERS Basis of Accounting: The financial statements of the TSERS plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the TSERS plan, and additions to/deductions from the TSERS plan's fiduciary net position have been determined on the same basis as they are reported by TSERS.

Methods Used to Value TSERS Investment: Pursuant to North Carolina General Statutes, the State Treasurer is the custodian and administrator of the retirement systems. The State Treasurer maintains various investment portfolios in its External Investment Pool. TSERS and other pension plans of the State of North Carolina participate in the Long-Term Investment, Fixed Income Investment, Equity Investment, Real Estate Investment, Alternative Investment, Opportunistic Fixed Income Investment, and Inflation Sensitive Investment portfolios. The Fixed Income Asset Class includes the Long-Term Investment and Fixed Income Investment portfolios. The Global Equity Asset Class includes the Equity Investment portfolio. The investment balance of each pension trust fund represents its share of the fair value of the net position of the various portfolios within the External Investment Pool. Detailed descriptions of the methods and significant assumptions regarding investments of the State Treasurer are provided in the 2022 *Annual Comprehensive Financial Report*.

Net Pension Liability: At June 30, 2023, the College reported a liability of \$4,329,481.00 for its proportionate share of the collective net pension liability. The net pension liability was measured as of June 30, 2022. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2021, and update procedures were used to roll forward the total pension liability to June 30, 2022. The College's proportion of the net pension liability was based on a projection of the present value of future salaries for the College relative to the projected present value of future salaries for all participating employers, actuarially-determined. As of June 30, 2022, the College's proportion was 0.02917%, which was a decrease of 0.00030 from its proportion measured as of June 30, 2021, which was 0.02947%.

Actuarial Assumptions: The following table presents the actuarial assumptions used to determine the total pension liability for the TSERS plan at the actuarial valuation date:

Valuation Date	12/31/2021
Inflation	2.5%
Salary Increases*	3.25% - 8.05%
Investment Rate of Return**	6.5%

* Salary increases include 3.25% inflation and productivity factor.

** Investment rate of return includes inflation assumption and is net of pension plan investment expense.

TSERS currently uses mortality tables that vary by age, gender, employee group (i.e. teacher, general, law enforcement officer) and health status (i.e. disabled and healthy). The current mortality rates are based on published tables and based on studies that cover significant portions of the U.S. public plan population. The mortality rates also contain a provision to reflect future mortality improvements.

The actuarial assumptions used in the December 31, 2021 valuation were based on the results of an actuarial experience review for the period January 1, 2015 through December 31, 2019.

Future ad hoc cost-of-living adjustment amounts are not considered to be substantively automatic and are therefore not included in the measurement.

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations

of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2022 (the measurement date) are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income	1.1%
Global Equity	6.5%
Real Estate	5.9%
Alternatives	7.5%
Opportunistic Fixed Income	5.0%
Inflation Sensitive	2.7%

The information in the preceding table is based on 30-year expectations developed with an investment consulting firm as part of a study that was completed in early 2022, and is part of the asset, liability, and investment policy of the North Carolina Retirement Systems. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 2.25%. Return projections do not include any excess return expectations over benchmark averages. All rates of return and inflation are annualized. The long-term expected real rate of return for the Bond Index Investment Pool as of June 30, 2022 is 0.78%.

Discount Rate: The discount rate used to measure the total pension liability was 6.5% for the December 31, 2021 valuation. The discount rate is in line with the long-term nominal expected return on pension plan investments. The calculation of the net pension liability is a present value calculation of the future net pension payments. These net pension payments assume that contributions from plan members will be made at the current statutory contribution rate and that contributions from employers will be made at the contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate: The following presents the net pension liability of the plan at June 30, 2022 calculated using the discount rate of 6.5%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.5%) or 1-percentage-point higher (7.5%) than the current rate:

<u>Net Pension Liability</u>		
<u>1% Decrease (5.5%)</u>	<u>Current Discount Rate (6.5%)</u>	<u>1% Increase (7.5%)</u>
\$ 7,654,743.00	\$ 4,329,481.00	\$ 1,584,743.00

Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: For the year ended June 30, 2023, the College recognized pension expense of \$1,002,535.00. At

June 30, 2023, the College reported deferred outflows of resources and deferred inflows of resources related to TSERS from the following sources:

Employer Balances of Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions by Classification:		
	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference Between Actual and Expected Experience	\$ 18,851.00	\$ 59,011.00
Changes of Assumptions	341,580.00	-
Net Difference Between Projected and Actual Earnings on Plan Investments	1,421,976.20	-
Change in Proportion and Differences Between Employer's Contributions and Proportionate Share of Contributions	146,467.00	7,658.00
Contributions Subsequent to the Measurement Date	<u>1,045,285.80</u>	<u>-</u>
Total	<u><u>\$ 2,974,160.00</u></u>	<u><u>\$ 66,669.00</u></u>

The amount reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to TSERS will be recognized as pension expense as follows:

Schedule of the Net Amount of the Employer's Balances of Deferred Outflows of Resources and Deferred Inflows of Resources That will be Recognized in Pension Expense:

<u>Year Ending June 30:</u>	<u>Amount</u>
2024	\$ 525,958.00
2025	463,661.00
2026	190,930.00
2027	<u>681,656.20</u>
Total	<u><u>\$ 1,862,205.20</u></u>

Note 12 - Other Postemployment Benefits

The College participates in two postemployment benefit plans, the Retiree Health Benefit Fund and the Disability Income Plan of North Carolina, that are administered by the State of North Carolina as pension and other employee benefit trust funds. Each plan's financial information, including all information about the plans' assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fiduciary net position, is included in the State of North Carolina's fiscal year 2022 *Annual Comprehensive Financial Report*. An electronic version of this report is available on the North Carolina Office of the State Controller's website at <https://www.osc.nc.gov/> or by calling the State Controller's Financial Reporting Section at 919-707-0500.

A. Summary of Significant Accounting Policies and Plan Asset Matters

Basis of Accounting: The financial statements of these plans were prepared using the accrual basis of accounting. Employer contributions are recognized when due and the

employer has made a formal commitment to provide the contributions. Benefits are recognized when due and payable in accordance with the terms of each plan. For purposes of measuring the net other postemployment benefits (OPEB) liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of each plan, and additions to/deductions from each plans' fiduciary net position have been determined on the same basis as they are reported by the plans.

Methods Used to Value Plan Investments: Pursuant to North Carolina General Statutes, the State Treasurer is the custodian and administrator of the other postemployment benefit funds. The State Treasurer maintains various investment portfolios in its External Investment Pool. The Retiree Health Benefit Fund participates in the External Investment Pool. The Disability Income Plan is invested in the Short-Term Investment Portfolio of the External Investment Pool and the Bond Index External Investment Pool. The investment balance of each other employee benefit trust fund represents its share of the fair value of the net position of the various portfolios within the pool. Detailed descriptions of the methods and significant assumptions regarding investments of the State Treasurer are provided in the *2022 Annual Comprehensive Financial Report*.

B. Plan Descriptions

1. Health Benefits

Plan Administration: The State of North Carolina administers the North Carolina State Health Plan for Teachers and State Employees, referred to as the State Health Plan (the Plan), a healthcare plan exclusively for the benefit of employees of the State, the University of North Carolina System, community colleges, and certain other component units. In addition, Local Education Agencies (LEAs), charter schools, and some select local governments that are not part of the State's financial reporting entity also participate. Health benefit programs and premium rates are determined by the State Treasurer upon approval of the Plan Board of Trustees.

The Retiree Health Benefit Fund (RHBF) has been established by Chapter 135-7, Article 1 of the General Statutes as a fund to provide health benefits to retired and disabled employees and their applicable beneficiaries. RHBF is a cost-sharing, multiple-employer, defined benefit healthcare plan, exclusively for the benefit of former employees of the State, the University of North Carolina System, and community colleges. In addition, LEAs, charter schools, and some select local governments that are not part of the State's financial reporting entity also participate.

By statute, RHBF is administered by the Board of Trustees of the Teachers' and State Employees' Retirement System (TSERS). RHBF is supported by a percent of payroll contribution from participating employing units. Each year the percentage is set in legislation, as are the maximum per retiree contributions from RHBF to the Plan. The State Treasurer, with the approval of the Plan Board of Trustees, then sets the employer contributions (subject to the legislative cap) and the premiums to be paid by retirees, as well as the health benefits to be provided through the Plan.

Benefits Provided: Plan benefits received by retired employees and disabled employees from RHBF are OPEB. The healthcare benefits for retired and disabled employees who are not eligible for Medicare are the same as for active employees as

described in Note 13. The plan options change when the former employees become eligible for Medicare. The benefits provided include medical and pharmacy coverage for employees and their dependents. Non-Medicare eligible members have two self-funded options administered by the State Health Plan while Medicare members have three options, including one self-funded option and two fully-insured Medicare Advantage/Prescription Drug Plan options. Self-funded medical and pharmacy claims costs are shared between the covered member and the State Health Plan. If the self-funded plan is elected by a Medicare eligible member, the coverage is secondary to Medicare. Fully-insured claims include cost sharing from covered members with the remaining balance paid by the fully-insured carrier.

Those former employees who are eligible to receive medical benefits from RHBF are long-term disability beneficiaries of the Disability Income Plan of North Carolina and retirees of TSERS, the Consolidated Judicial Retirement System (CJRS), the Legislative Retirement System (LRS), the University Employees' Optional Retirement Program (ORP), and a small number of local governments, with five or more years of contributory membership service in their retirement system prior to disability or retirement, with the following exceptions: for employees first hired on or after October 1, 2006, and members of the North Carolina General Assembly first taking office on or after February 1, 2007, future coverage as retired employees and retired members of the North Carolina General Assembly is subject to the requirement that the future retiree have 20 or more years of retirement service credit in order to receive coverage on a noncontributory basis. Employees first hired on or after October 1, 2006 and members of the North Carolina General Assembly first taking office on or after February 1, 2007 with 10 but less than 20 years of retirement service credit are eligible for coverage on a partially contributory basis. For such future retirees, the State will pay 50% of the Plan's total noncontributory premium. Employees first hired on or after October 1, 2006 and members of the North Carolina General Assembly first taking office on or after February 1, 2007 with five but less than 10 years of retirement service credit are eligible for coverage on a fully contributory basis.

Section 35.21 (c) & (d) of Session Law 2017-57 repealed retiree medical benefits for employees first hired on or after January 1, 2021. The legislation amended Chapter 135, Article 3B of the General Statutes to require that retirees must earn contributory retirement service in the TSERS (or in an allowed local system unit), CJRS, or LRS prior to January 1, 2021, and not withdraw that service, in order to be eligible for retiree medical benefits under the amended law. Consequently, members first hired on and after January 1, 2021 will not be eligible to receive retiree medical benefits.

RHBF's benefit and contribution provisions are established by Chapter 135-7, Article 1, and Chapter 135, Article 3B of the General Statutes and may be amended only by the North Carolina General Assembly. RHBF does not provide for automatic post-retirement benefit increases.

Contributions: Contribution rates to RHBF, which are intended to finance benefits and administrative expenses on a pay-as-you-go basis, are determined by the North Carolina General Assembly in the Appropriations Act. The College's contractually-required contribution rate for the year ended June 30, 2023 was 6.89% of covered payroll. The College's contributions to the RHBF were \$414,385.45 for the year ended June 30, 2023.

In fiscal year 2021, the Plan transferred \$187.0 million to RHBF as a result of cost savings to the Plan over a span of six years. For financial reporting purposes, the transfer was recognized as a nonemployer contributing entity contribution. The contribution was allocated among the RHBF employers and recorded as noncapital contributions. For the fiscal year ended June 30, 2023, the College recognized noncapital contributions for RHBF of \$43,159.00

2. Disability Income

Plan Administration: As discussed in Note 13, short-term and long-term disability benefits are provided through the Disability Income Plan of North Carolina (DIPNC), a cost-sharing, multiple-employer defined benefit plan, to the eligible members of TSERS which includes employees of the State, the University of North Carolina System, community colleges, certain participating component units and LEAs which are not part of the State's reporting entity, and the University Employees' ORP. By statute, DIPNC is administered by the Department of State Treasurer and the Board of Trustees of TSERS.

Benefits Provided: Long-term disability benefits are payable as an OPEB from DIPNC after the conclusion of the short-term disability period or after salary continuation payments cease, whichever is later, while the employee is disabled and does not meet the TSERS conditions for unreduced service retirement. An employee is eligible to receive long-term disability benefits provided the following requirements are met: (1) the employee has five or more years of contributing membership service in TSERS or the University Employees' ORP, earned within 96 months prior to becoming disabled or cessation of salary continuation payments, whichever is later; (2) the employee must make application to receive long-term benefits within 180 days after the conclusion of the short-term disability period or after salary continuation payments cease or after monthly payments for Workers' Compensation cease (excluding monthly payments for permanent partial benefits), whichever is later; (3) the employee must be certified by the Medical Board to be mentally or physically disabled for the further performance of his/her usual occupation; (4) the disability must have been continuous, likely to be permanent, and incurred at the time of active employment; (5) the employee must not be eligible to receive an unreduced retirement benefit from TSERS; and (6) the employee must terminate employment as a permanent, full-time employee. A general employee is eligible to receive an unreduced retirement benefit from TSERS after: (1) reaching the age of 65 and completing five years of membership service; (2) reaching the age of 60 and completing 25 years of creditable service; or (3) completing 30 years of creditable service, at any age.

For employees who had five or more years of membership service as of July 31, 2007, during the first 36 months of the long-term disability period, the monthly long-term disability benefit is equal to 65% of one-twelfth of an employee's annual base rate of compensation last payable to the participant or beneficiary prior to the beginning of the short-term disability period, plus the like percentage of one-twelfth of the annual longevity payment and local supplements to which the participant or beneficiary would be eligible. The monthly benefits are subject to a maximum of \$3,900 per month reduced by any primary Social Security disability benefits, by an amount equal to the monthly primary Social Security retirement benefit to which the employee might be entitled should the employee be at least age 62, and by monthly payments for Workers' Compensation to which the participant or beneficiary may be entitled, but the benefits

payable shall be no less than \$10 a month. After the first 36 months of the long-term disability, the long-term benefit is calculated in the same manner as described above except the monthly benefit is reduced by an amount equal to a monthly primary Social Security disability benefit to which the participant or beneficiary might be entitled had Social Security disability benefits been awarded. When an employee qualifies for an unreduced service retirement allowance from TSERS, the benefits payable from DIPNC will cease, and the employee will commence retirement under TSERS or the University Employees' ORP.

For employees who had less than five years of membership service as of July 31, 2007, and meet the requirements for long-term disability on or after August 1, 2007, benefits are calculated in the same manner as described above except that after the first 36 months of the long-term disability, no further long-term disability benefits are payable unless the employee has been approved and is in receipt of primary Social Security benefits.

Benefit and contribution provisions are established by Chapter 135, Article 6, of the General Statutes and may be amended only by the North Carolina General Assembly. The plan does not provide for automatic post-retirement benefit increases.

Contributions: Although DIPNC operates on a calendar year, disability income benefits are funded by actuarially determined employer contributions that are established in the Appropriations Act by the North Carolina General Assembly and coincide with the State's fiscal year. The College's contractually-required contribution rate for the year ended June 30, 2023 was 0.10% of covered payroll. The College's contributions to DIPNC were \$6,014.30 for the year ended June 30, 2023.

C. Net OPEB Liability

Retiree Health Benefit Fund: At June 30, 2023, the College reported a liability of \$5,678,782.00 for its proportionate share of the collective net OPEB liability for RHBF. The net OPEB liability was measured as of June 30, 2022. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2021, and update procedures were used to roll forward the total OPEB liability to June 30, 2022. The College's proportion of the net OPEB liability was based on a projection of the present value of future salaries for the College relative to the projected present value of future salaries for all participating employers, actuarially-determined. As of June 30, 2022, the College's proportion was 0.02391%, which was a decrease of 0.00079 from its proportion measured as of June 30, 2021, which was 0.02470%.

Disability Income Plan of North Carolina: At June 30, 2023, the College reported a liability of \$7,369.00 for its proportionate share of the collective net OPEB liability for DIPNC. The net OPEB liability was measured as of June 30, 2022. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2021, and update procedures were used to roll forward the total OPEB liability to June 30, 2022. The College's proportion of the net OPEB liability was based on a projection of the present value of future salaries for the College relative to the projected present value of future salaries for all participating employers, actuarially-determined. As of June 30, 2022, the College's proportion was 0.02477%, which was a decrease of 0.00042 from its proportion measured as of June 30, 2021, which was 0.02519%.

Actuarial Assumptions: The total OPEB liabilities for RHBF and DIPNC were determined by actuarial valuations as of December 31, 2021, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified. The total OPEB liabilities were then rolled forward to June 30, 2022 utilizing update procedures incorporating the actuarial assumptions.

	Retiree Health Benefit Fund	Disability Income Plan of N.C.
Valuation Date	12/31/2021	12/31/2021
Inflation	2.5%	2.5%
Salary Increases*	3.25% - 8.05%	3.25% - 8.05%
Investment Rate of Return**	6.5%	3.0%
Healthcare Cost Trend Rate - Medical***	6% grading down to 5% by 2027	N/A

* Salary increases include 3.25% inflation and productivity factor.

** Investment rate of return is net of OPEB plan investment expense, including inflation.

*** Disability Income Plan of NC eliminated employer reimbursements from the Plan (which included State Health Plan premiums) effective July 1, 2019.

N/A - Not Applicable

The OPEB plans currently use mortality tables that vary by age, gender, employee group (i.e. teacher, other educational employee, general employee, or law enforcement officer) and health status (i.e. disabled or not disabled). The current mortality rates are based on published tables and studies that cover significant portions of the U.S. public plan population. The healthy mortality rates also contain a provision to reflect future mortality improvements.

The projected long-term investment returns and inflation assumptions are developed through review of current and historical capital markets data, sell-side investment research, consultant whitepapers, and historical performance of investment strategies. Fixed income return projections reflect current yields across the U.S. Treasury yield curve and market expectations of forward yields projected and interpolated for multiple tenors and over multiple year horizons. Global public equity return projections are established through analysis of the equity risk premium and the fixed income return projections. Other asset categories and strategies' return projections reflect the foregoing and historical data analysis. These projections are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. DIPNC is primarily invested in the Bond Index Investment Pool as of June 30, 2022.

Best estimates of real rates of return for each major asset class included in RHBF's target asset allocation as of June 30, 2022 (the measurement date) are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return
Fixed Income	1.1%
Global Equity	6.5%
Real Estate	5.9%
Alternatives	7.5%
Opportunistic Fixed Income	5.0%
Inflation Sensitive	2.7%

The information in the preceding table is based on 30-year expectations developed with an investment consulting firm as part of a study that was completed in early 2022, and is part of the asset, liability, and investment policy of the North Carolina Retirement Systems. The long-term nominal rates of return underlying the real rates of return are arithmetic annualized figures. The real rates of return are calculated from nominal rates by multiplicatively subtracting a long-term inflation assumption of 2.25%. Return projections do not include any excess return expectations over benchmark averages. All rates of return and inflation are annualized. The long-term expected real rate of return for the Bond Index Investment Pool as of June 30, 2022 is 0.78%.

Actuarial valuations of the plans involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The results of the valuations fluctuate from year to year as actual experience differs from assumptions. This includes demographic experiences (i.e., mortality and retirement) that differ from expected. This also includes financial experiences (i.e., member medical costs and contributions) that vary from expected trends. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

The actuarial assumptions used for RHBF are consistent with those used to value the pension benefits of TSERS where appropriate. These assumptions are based on the most recent pension valuations available. The discount rate used for RHBF reflects a pay-as-you-go approach.

Projections of benefits for financial reporting purposes of the plans are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. Historically, the benefits have been funded solely by employer contributions applied equally to all retirees. Currently, as described above, benefits are dependent on membership requirements.

The actuarial methods and assumptions used for DIPNC include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Prior to July 1, 2019, employers received a reimbursement from DIPNC for employer costs, including the employer's share of the State Health Plan premiums, incurred during the second six months of the first year of a member's short-term disability coverage. With the elimination of the reimbursement to employers, State Health Plan premiums are no longer reimbursed by DIPNC for the benefits that were effective on or after July 1, 2019.

The actuarial assumptions used in the December 31, 2021 valuations were generally based on the results of an actuarial experience study prepared as of December 31, 2019,

as amended for updates to certain assumptions (such as medical claims and medical trend rate assumptions) implemented based on annual reviews that have occurred since that experience study.

Discount Rate: The discount rate used to measure the total OPEB liability for RHBF was 3.54% at June 30, 2022 compared to 2.16% at June 30, 2021. The projection of cash flow used to determine the discount rate assumed that contributions from employers would be made at the current statutorily determined contribution rate. Based on the above assumptions, the plan’s fiduciary net position was not projected to be available to make projected future benefit payments to current plan members. As a result, a municipal bond rate of 3.54% was used as the discount rate used to measure the total OPEB liability. The 3.54% rate is based on the Bond Buyer 20-year General Obligation Index as of June 30, 2022.

The discount rate used to measure the total OPEB liability for DIPNC was 3.08% at June 30, 2022 compared to 3.0% at June 30, 2021. The projection of cash flow used to determine the discount rate assumed that contributions from plan members would be made at the current contribution rate and that contributions from employers would be made at statutorily required rates, actuarially determined. Based on those assumptions, the plan’s fiduciary net position was not projected to be available to make all projected future benefit payments to the current plan members. In order to develop the blended discount rate of 3.08%, 3.0% was used during the period that the plan was projected to have a fiduciary net position, and a municipal bond rate of 3.54% was used during the period that the plan was projected to have no fiduciary net position. The 3.54% rate is based on the Bond Buyer 20-year General Obligation Index as of June 30, 2022.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate: The following presents the College’s proportionate share of the net OPEB liability of the plans, as well as what the plans’ net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current discount rate:

		Net OPEB Liability		
		<u>1% Decrease (2.54%)</u>	<u>Current Discount Rate (3.54%)</u>	<u>1% Increase (4.54%)</u>
RHBF	\$	6,687,879.25	\$ 5,678,782.00	\$ 4,852,970.62
		<u>1% Decrease (2.08%)</u>	<u>Current Discount Rate (3.08%)</u>	<u>1% Increase (4.08%)</u>
DIPNC	\$	9,073.50	\$ 7,369.00	\$ 5,659.45

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates: The following presents the net OPEB liability of the plans, as well as what the plans’ net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

Net OPEB Liability					
		Current Healthcare Cost Trend Rates			
1% Decrease (Medical - 4% - 5%, Pharmacy - 4% - 8.5%, Med. Advantage - 0% - 4%, Administrative - 2%)				1% Increase (Medical - 6% - 7%, Pharmacy - 6% - 10.5%, Med. Advantage - 0% - 6%, Administrative - 4%)	
RHBF	\$	4,673,797.21	\$	5,678,782.00	\$ 6,975,782.91

Effective with the actuarial valuation as of December 31, 2021, the liability for the State's potential reimbursement of costs incurred by employers was removed because the reimbursement by DIPNC was eliminated for disabilities occurring on or after July 1, 2019. Thus sensitivity to changes in the healthcare cost trend rates is not applicable for DIPNC.

OPEB Expense: For the fiscal year ended June 30, 2023, the College recognized OPEB expense as follows:

OPEB Plan	Amount
RHBF	\$ (983,825.00)
DIPNC	11,807.00
Total OPEB Expense	\$ (972,018.00)

Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB: At June 30, 2023, the College reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

**Employer Balances of Deferred Outflows of Resources
Related to OPEB by Classification:**

	RHBF	DIPNC	Total
Differences Between Actual and Expected Experience	\$ 55,133.00	\$ 8,260.00	\$ 63,393.00
Changes of Assumptions	454,660.00	474.00	455,134.00
Net Difference Between Projected and Actual Earnings on OPEB Plan Investments	49,175.55	9,598.70	58,774.25
Changes in Proportion and Differences Between Employer's Contributions and Proportionate Share of Contributions	82,608.00	6,464.00	89,072.00
Contributions Subsequent to the Measurement Date	414,385.45	6,014.30	420,399.75
Total	\$ 1,055,962.00	\$ 30,811.00	\$ 1,086,773.00

**Employer Balances of Deferred Inflows of Resources
Related to OPEB by Classification:**

	RHBF	DIPNC	Total
Differences Between Actual and Expected Experience	\$ 15,714.00	\$ -	\$ 15,714.00
Changes of Assumptions	2,584,547.00	1,365.00	2,585,912.00
Changes in Proportion and Differences Between Employer's Contributions and Proportionate Share of Contributions	502,595.00	-	502,595.00
Total	\$ 3,102,856.00	\$ 1,365.00	\$ 3,104,221.00

Amounts reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as reductions of the net OPEB liabilities related to RHBF and DIPNC in the fiscal year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as OPEB expense as follows:

**Schedule of the Net Amount of the Employer's Balances of
Deferred Outflows of Resources and Deferred Inflows of
Resources That will be Recognized in OPEB Expense:**

Year Ending June 30:	RHBF	DIPNC
2024	\$ (765,532.00)	\$ 5,222.00
2025	(591,827.00)	5,756.00
2026	(665,504.00)	4,136.00
2027	(438,416.45)	3,423.00
2028	-	1,507.00
Thereafter	-	3,387.70
Total	\$ (2,461,279.45)	\$ 23,431.70

Note 13 - Risk Management

The College is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These exposures to loss are handled via a combination of methods, including participation in state-administered insurance programs, purchase of commercial insurance, and self-retention of certain risks. There have been no significant reductions in insurance coverage from the previous year and settled claims have not exceeded coverage in any of the past three fiscal years.

A. Public Entity Risk Pool

State Public Education Property Insurance Fund

Fire and other property losses are covered by the State Public Education Property Insurance Fund (Fund), a state-administered public entity risk pool. The Fund is financed by premiums and interest collected through membership participation and retains a \$10,000,000 deductible per occurrence. Reinsurance is purchased by the Fund to cover catastrophic events in excess of the \$10,000,000 deductible. Membership insured property

is covered under an all risk coverage contract. Each member selects the deductible that will be applicable to their losses, and this deductible ranges from \$1,000 to \$5,000. Building and contents are valued under a replacement cost basis. No coinsurance penalties apply. There have been no significant reductions in insurance coverage from the previous year and settled claims have not exceeded coverage in any of the past three fiscal years.

B. Employee Benefit Plans

1. State Health Plan

College employees are provided comprehensive major medical care benefits. Coverage is funded by contributions to the State Health Plan (Plan), a discretely presented component unit of the State of North Carolina. The Plan is funded by employer and employee contributions. The Plan has contracted with third parties to process claims. See Note 12, Other Postemployment Benefits, for additional information regarding retiree health benefits.

2. Death Benefit Plan of North Carolina

Term life insurance (death benefits) of \$25,000 to \$50,000 is provided to eligible workers who enroll in the Teachers' and State Employees' Retirement System. This Death Benefit Plan is administered by the State Treasurer and funded via employer contributions. The employer contribution rate was 0.13% for the current fiscal year.

3. Disability Income Plan

Short-term and long-term disability benefits are provided to College employees through the Disability Income Plan of North Carolina (DIPNC), part of the State's Pension and Other Employee Benefit Trust Funds. Short-term benefits are paid by the College for up to twelve months. The Board of Trustees of the DIPNC may extend the short-term disability benefits for up to an additional twelve months. During the extended period of short-term disability benefits, payments are made directly by the DIPNC to the beneficiary. As discussed in Note 12, long-term disability benefits are payable as other postemployment benefits from DIPNC after the conclusion of the short-term disability period or after salary continuation payments cease, whichever is later, for as long as an employee is disabled.

C. Other Risk Management and Insurance Activities

1. Automobile

State-owned vehicles are covered by liability insurance through a private insurance company and handled by the North Carolina Department of Insurance. The liability limits for losses are \$1,000,000 per claim and \$10,000,000 per occurrence. The College pays premiums to the North Carolina Department of Insurance for the coverage. Liability insurance for other College-owned vehicles is covered by contracts with private insurance companies.

2. Public Officers' and Employees' Liability Insurance

The risk of tort claims of up to \$1,000,000 per claimant is retained under the authority of the State Tort Claims Act. In addition, the State provides excess public officers' and employees' liability insurance up to \$2,000,000 per claim and \$10,000,000 in the aggregate per fiscal year via contract with private insurance companies. The North Carolina Community College System Office pays the premium, based on a composite rate, directly to the private insurer.

3. Employee Dishonesty and Computer Fraud

The College is protected for losses from employee dishonesty and computer fraud for employees paid in whole or in part from state funds. This coverage is with a private insurance company and is handled by the North Carolina Department of Insurance. The North Carolina Community College System Office is charged a premium by the private insurance company. Coverage limit is \$5,000,000 per occurrence. The private insurance company pays 90% of each loss less a \$100,000 deductible. Losses for the employees paid from county and institutional funds are covered under a private insurance policy.

4. Statewide Workers' Compensation Program

The State Board of Community Colleges makes the necessary arrangements to carry out the provisions of the Workers' Compensation Act which are applicable to employees whose wages are paid in whole or in part from state funds. The College purchases workers' compensation insurance for employees whose salaries or wages are paid by the Board in whole or in part from county or institutional funds.

Additional details on the state-administered risk management programs are disclosed in the State's *Annual Comprehensive Financial Report*, issued by the Office of the State Controller.

Note 14 - Commitments

The College has established an encumbrance system to track its outstanding commitments on construction projects. Outstanding commitments on construction contracts were \$536,725.09 at June 30, 2023.

Bladen Community College
Notes to Required Supplementary Information
Schedule of College Contributions
Cost-Sharing, Multiple-Employer, Defined Benefit Pension Plan
For the Fiscal Year Ended June 30, 2023

Changes of Benefit Terms:

Cost of Living Increase

Teachers' and State Employees' Retirement System	2021	2020	2019	2018	2017	2016	2015	2014	2013	2012
	N/A	N/A	N/A	N/A	1.00%	N/A	N/A	N/A	1.00%	N/A

Beginning in fiscal year 2015, with the implementation of GASB Statement No. 68, the above table reflects Cost of Living Adjustments (COLAs) in the period of the legislative session or Board of Trustees meeting when it was passed. The COLA is effective as of July 1 of that period and the fiscal year end plan liability is affected at June 30 of that year because the COLA is included in the actuarial assumptions used to calculate the plan net pension liability.

Effective July 1, 2017, the definition of law enforcement officer related to TSERS members was changed by the General Assembly to include Probation/Parole officers for retirement benefit purposes. The change includes officers with respect to service rendered on or after July 1, 2017, and provides for unreduced retirement at age 55 with five years of service as a law enforcement officer or reduced retirement at age 50 with 15 years of service as a law enforcement officer.

Effective July 1, 2017, retirees and beneficiaries of deceased retirees receiving benefits from the TSERS as of July 1, 2016, received a 1% cost-of-living adjustment. Retirees and beneficiaries of retirees with retirement effective dates between July 1, 2016 and before June 30, 2017 received a prorated amount. These benefit enhancements reflect legislation enacted by the North Carolina General Assembly.

In December 2021, for the fiscal year ended June 30, 2022, retirees and beneficiaries of deceased retirees receiving benefits from the TSERS as of September 1, 2021, received a one-time cost-of-living supplement payment, equal to 2% of the beneficiary's annual retirement allowance.

Benefit recipients of the TSERS will receive a one-time benefit supplement payment equal to 4% of the member's annual benefit amount, paid by October 2022, as granted by the North Carolina General Assembly for the fiscal year ended June 30, 2023. The one-time supplement does not change the ongoing monthly benefits, and absent additional action by governing authorities, the payments will not recur in future years.

Methods and Assumptions Used in Calculations of Actuarially Determined Contributions: An actuarial valuation is performed for each year for the plan. The actuarially determined contribution rates in the Schedule of College Contributions are calculated by the actuary as a projection of the required employer contribution for the fiscal year beginning 18 months following the date of the valuation results. See Note 11 for more information on the specific assumptions for the plan. The actuarially determined contributions for those items with covered payroll were determined using the actuarially determined contribution rate from the actuary and covered payroll as adjusted for timing differences and other factors such as differences in employee class. Other actuarially determined contributions are disclosed in the schedule as expressed by the actuary in reports to the plans.

Changes of Assumptions: In January 2021, the actuarial assumptions for the TSERS were updated to more closely reflect actual experience.

In 2020, the North Carolina Retirement Systems' consulting actuaries performed the quinquennial investigation of the TSERS actual demographic and economic experience (known as the "Experience Review"). The Experience Review provides the basis for selecting the actuarial assumptions and methods used to determine plan liabilities and funding requirements. The most recent experience review examined the TSERS experience during the period between January 1, 2015, and December 31, 2019. Based on the findings, the Boards of Trustees of the TSERS adopted a number of new actuarial assumptions and methods. The most notable changes to the assumptions include updates to the mortality tables and mortality improvements. These assumptions were adjusted to be based on the Pub-2010 mortality tables reflecting the mortality projection scale MP-2019, released by the Society of Actuaries in 2019. In addition, the assumed rates of retirement, salary increases, and rates of termination from active employment were updated to more closely reflect actual experience.

The discount rate for the TSERS was lowered from 7.00% to 6.50% effective for the December 31, 2020 valuation, with the resulting effect on minimum actuarially determined employer contribution rates (or amounts) to be gradually recognized over a five-year period beginning July 1, 2022.

The Notes to Required Supplementary Information reflect information included in the State of North Carolina's 2022 *Annual Comprehensive Financial Report*.

Bladen Community College
Notes to Required Supplementary Information
Schedule of College Contributions
Cost-Sharing, Multiple-Employer, Defined Benefit OPEB Plans
For the Fiscal Year Ended June 30, 2023

Changes of Benefit Terms: Effective January 1, 2016, benefit terms related to copays, out-of-pocket maximums, and deductibles were changed for three of five options of the Retiree Health Benefit Fund (RHBF). Most of the changes were an increase in the amount from the previous year.

Effective January 1, 2017, benefit terms related to copays, coinsurance maximums, out-of-pocket maximums, and deductibles were changed for two of five options of the RHBF. Most of the changes were an increase in the amount from the previous year.

Effective January 1, 2019, benefit terms related to copays, out-of-pocket maximums, and deductibles were changed for one of four options of the RHBF. Out-of-pocket maximums increased while certain specialist copays decreased related to option benefits.

Effective January 1, 2020, benefit terms related to copays, out-of-pocket maximums, and deductibles were changed for the 70/30 PPO option of the RHBF. Only the copays were adjusted for 80/20 PPO option of the RHBF.

Effective January 1, 2021, members first hired on and after January 1, 2021 will not be eligible to receive retiree medical benefits.

Effective January 1, 2022, the structure of employer contributions to the RHBF was altered by legislation. Previously, non-Medicare-eligible retirees had the same employer contribution rate as active employees. As a result of the legislative change, non-Medicare-eligible retirees have the same employer contribution rate as Medicare-eligible retirees.

Beginning with the Disability Income Plan of North Carolina (DIPNC) actuarial valuation as of December 31, 2017, the valuation included a liability for the State's potential reimbursement of costs incurred by employers for income benefits and health insurance premiums during the second six months of the first year of employee's short-term disability benefit period. Effective with the actuarial valuation as of December 31, 2021, this liability was removed from the actuarial valuation because the reimbursement from DIPNC was eliminated for disabilities occurring on or after July 1, 2019.

Method and Assumptions Used in Calculations of Actuarially Determined Contributions: An actuarial valuation is performed for each plan each year. The actuarially determined contribution rates in the Schedule of College Contributions are calculated by the actuary as a projection of the required employer contribution for the fiscal year beginning six months preceding the date of the valuation results for the RHBF. The actuarially determined contribution rates in the Schedule of College Contributions are calculated by the actuary as a projection of the required employer contribution for the fiscal year beginning 18 months following the date of the valuation results for the DIPNC. See Note 12 for more information on the specific assumptions for each plan. The actuarially determined contributions were determined using the actuarially determined contribution rate from the actuary and covered payroll as adjusted for timing differences and other factors such as differences in employee class. Other actuarially determined contributions are disclosed in the schedule as expressed by the actuary in reports to the plans.

Changes of Assumptions: Consistent with prior years, for the actuarial valuation measured as of June 30, 2022 for the RHBF, a number of actuarial assumptions were reviewed and updated. The discount rate for the RHBF was updated to 3.54%, from 2.16% as of June 30, 2021. This update was to reflect the Bond Buyer 20-year General Obligation Index as of fiscal year end. Medical and prescription drug claims costs were changed based on most recent experience, and medical and prescription drug trend rates were changed to the current schedule. Enrollment assumptions were updated to model expected migrations among RHBF plan options over the next five years. The terms of the Pharmacy Benefits Management contract effective January 1, 2023 were incorporated in the valuation.

For the actuarial valuation measured as of June 30, 2022 for DIPNC, the discount rate was updated to 3.08%, from 3.00% as of June 30, 2021. This was a result of an update to reflect the Bond Buyer 20-year General Obligation Index as of fiscal year end, combined with the determination that the plan's fiduciary net position was not projected to be available to make all projected future benefit payments to the current plan members.

In 2020, the North Carolina Retirement Systems' consulting actuaries performed the quinquennial investigation of each retirement system's actual demographic and economic experience (known as the "Experience Review"). The Experience Review provides the basis for selecting the actuarial assumptions and methods used to determine plan liabilities and funding requirements. The most recent experience review examined each plan's experience during the period between January 1, 2015, and December 31, 2019. Based on the findings, the Boards of Trustees of the TSERS and the Committee on Actuarial Valuation of Retired Employees' Health Benefits adopted a number of new actuarial assumptions and methods for the RHBF and the DIPNC. The most notable changes to the assumptions include updates to the mortality tables and mortality improvements. These assumptions were adjusted to be based on the Pub-2010 mortality tables reflecting the mortality projection scale MP-2019, released by the Society of Actuaries in 2019. In addition, the assumed rates of retirement, salary increases, and rates of termination from active employment were updated to more closely reflect actual experience. Also in 2020, disability rates were adjusted to the non-grandfathered assumptions used in the TSERS actuarial valuation to better align with the anticipated incidence of disability.

For the DIPNC actuarial valuation as of December 31, 2018, for individuals who may become disabled in the future, the Social Security disability income benefit (which is an offset to the DIPNC benefit) was updated to be based on assumed Social Security calculation parameters in the year of the disability. The assumed costs related to the Patient Protection and Affordable Care Act regarding the Health Insurance Provider Fee for the fully insured plans and Excise Tax were removed when those pieces were repealed in December 2019 and first recognized in the 2020 OPEB report.

The Notes to Required Supplementary Information reflect information included in the State of North Carolina's 2022 *Annual Comprehensive Financial Report*.

Independent Auditor's Report

North Carolina Office of the State Auditor

Jessica N. Holmes, State Auditor

www.auditor.nc.gov

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other matters based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Board of Trustees
Bladen Community College
Dublin, North Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Bladen Community College (College), a component unit of the State of North Carolina, and its discretely presented component unit, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the College's basic financial statements, and have issued our report thereon dated March 1, 2024. Our report includes a reference to other auditors who audited the financial statements of Bladen Community College Foundation, Inc., as described in our report on the College's financial statements. The financial statements of Bladen Community College Foundation, Inc. were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting or compliance and other matters associated with Bladen Community College Foundation, Inc.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the College's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations, during our audit we did not identify any

deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
