**AUDITOR'S TRANSMITTAL**

---

The Honorable Beverly Eaves Perdue, Governor  
Members of the North Carolina General Assembly  
Mr. Gerald L. Fralick, State Chief Information Officer  
Office of Information Technology Services

We have completed certain audit procedures at the Office of Information Technology Services related to the State of North Carolina reporting entity as presented in the *Single Audit Report* for the year ended June 30, 2009. Our audit was performed by authority of Article 5A of Chapter 147 of the *North Carolina General Statutes*.

In the *Single Audit Report*, the State Auditor presents the results of tests of internal control and compliance with laws, regulations, contracts, and grants applicable to the State's major federal programs. Our audit procedures were conducted in accordance with auditing standards generally accepted in the United States of America, *Government Auditing Standards*, issued by the Comptroller General of the United States and the Single Audit Act.

Our audit objective was to render an opinion on the State of North Carolina's administration of major federal programs and not the Office of Information Technology Services' administration of major federal programs. However, the report included herein is in relation to our audit scope at the Office of Information Technology Services and not to the State of North Carolina as a whole.

*North Carolina General Statutes* require the State Auditor to make audit reports available to the public. Copies of audit reports issued by the Office of the State Auditor may be obtained through one of the options listed in the back of this report.

A handwritten signature in cursive script that reads "Beth A. Wood".

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH  
MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE  
IN ACCORDANCE WITH OMB CIRCULAR A-133**

---

Mr. Gerald L. Fralick  
and Management of the Office of Information Technology Services

Compliance

As part of our audit of the State of North Carolina's compliance with the types of requirements described in the *OMB Circular A-133 Compliance Supplement* that are applicable to each of its major programs for the year ended June 30, 2009, we have performed audit procedures at the Office of Information Technology Services. Our report on the State of North Carolina's compliance with requirements applicable to each major program and on internal control over compliance in accordance with OMB Circular A-133 is included in the State's *Single Audit Report*. Our federal compliance audit scope at the Office of Information Technology Services included the following:

- Billed Central Service Costs

The audit results described below are in relation to our audit scope at the Office of Information Technology Services and not to the State of North Carolina as a whole.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of compliance with those requirements.

The results of our audit procedures at the Office of Information Technology Services disclosed no instances of noncompliance that are required to be reported in accordance with OMB Circular A-133.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH  
MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE  
IN ACCORDANCE WITH OMB CIRCULAR A-133 (CONCLUDED)**

---

Internal Control Over Compliance

Management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as described above.

We noted certain other matters related to compliance with federal requirements or internal control over compliance that we reported to management of the Office of Information Technology Services in a separate letter dated March 9, 2010.

This report is intended solely for the information and use of management, State Chief Information Officer Fralick, others within the entity, the Governor, the General Assembly and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Beth A. Wood, CPA  
State Auditor

March 17, 2010
