OFFICE OF THE STATE AUDITOR  
BETH A. WOOD, CPA

## VOLUNTEER FIRE DEPARTMENT FUND

DEPARTMENT OF INSURANCE

PERFORMANCE AUDIT  
MARCH 2023

**NCOSA**  
The Taxpayers' Watchdog

# EXECUTIVE SUMMARY

---

## **OBJECTIVES**

The objectives of this audit were to determine (1) the amount of Volunteer Fire Department Fund grants awarded and disbursed, and (2) whether the Department of Insurance (DOI) awarded and disbursed Volunteer Fire Department Fund grants in accordance with state law and DOI policies. If not, determine the causes and impact.

## **BACKGROUND**

In 1987, N.C.G.S. § 58-87-1 established the Volunteer Fire Department Fund<sup>1</sup> within DOI for the purpose of providing grants to volunteer fire departments to **purchase equipment** and **make capital improvements** necessary to provide fire protection services.

DOI is responsible for the administration of the Volunteer Fire Department Fund which includes four Volunteer Fire Department Fund Grants:

1. Fire Grants.
2. Base Allocation Grants.<sup>2</sup>
3. Supplemental Grants.
4. Emergency Reserve Grants.

As the administering agency of the Volunteer Fire Department Fund, DOI is responsible for awarding and disbursing grants to eligible volunteer fire departments from all parts of North Carolina.

The Current Operations Appropriations Act of 2022, Session Law 2022-74, Section 22.1.(a) required the Office of the State Auditor to conduct a performance audit of the Volunteer Fire Department Fund.

## **KEY FINDINGS**

During the period January 1, 2021, through October 31, 2022, DOI awarded \$56.2 million of Volunteer Fire Department Fund grants. As of November 30, 2022, \$41.1 million (73%) was disbursed to volunteer fire departments.

See Appendices B-D for detailed list of grant recipients and amounts awarded and disbursed.

---

<sup>1</sup> Funding for the Volunteer Fire Department Fund comes from 20% of the proceeds of the additional 0.74% tax that insurance companies pay on property insurance premiums. (N.C.G.S. § 105-228.5(d)(3)).

<sup>2</sup> Authorized by the Current Operations Appropriations Act of 2021, S.L. 2021-180, § 30.2.(b) for the 2021-2022 fiscal year and the Current Operations Appropriations Act of 2022, S.L. 2022-74, § 30.3.(a) for the 2022-2023 fiscal year. Funded through appropriations from the State Fiscal Recovery Fund and the state's general fund.

# EXECUTIVE SUMMARY (CONCLUDED)

---

The audit also found that:

- DOI awarded \$56.2 million of Volunteer Fire Department Fund grants with **limited** verification that volunteer fire departments that were awarded grants were eligible to receive grants, and \$18.5 million<sup>3</sup> with **limited** verification that the volunteer fire departments were the most in need<sup>4</sup> of receiving grant funds.
- DOI did not disburse Fire Grants to volunteer fire departments in accordance with DOI policy. DOI policy required DOI to obtain supporting documentation prior to disbursing Fire Grant funds to volunteer fire departments.

As a result, there was an increased risk DOI **did not** award grants fairly and equitably to eligible volunteer fire departments. Additionally, there was an increased risk that Fire Grants **were not used** to purchase equipment or make capital improvements necessary to provide fire protection services.

## **KEY RECOMMENDATIONS**

- DOI should independently verify volunteer fire department self-reported information to ensure grant funds are awarded to eligible volunteer fire departments selected based on need.
- DOI management should ensure adequate staff are available to verify recipient self-reported information to ensure grant funds are awarded only to eligible volunteer fire departments.
- DOI management should disburse Fire Grants to volunteer fire departments in accordance with DOI policy.
- DOI management should ensure adequate staff are available to administer Volunteer Fire Department Grant Program grants to ensure funds are disbursed in accordance with DOI policy.

## **MATTER FOR FURTHER CONSIDERATION**

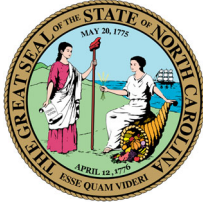

DOI management should ensure that DOI's Grant Management System assigns scores to Fire Grant applications in accordance with DOI policy.

---

<sup>3</sup> A subset of the \$56.2 million total grants awarded during the period.

<sup>4</sup> Only applicable for \$18.5 million of Volunteer Fire Department Fund Fire Grants. DOI assigns volunteer fire department application scores using a point system based on several criteria. The fewer points a volunteer fire department receives, the more likely it will be to receive a grant award.

## AUDITOR'S TRANSMITTAL

---

The Honorable Roy Cooper, Governor  
Members of the North Carolina General Assembly  
Mike Causey, Commissioner and State Fire Marshal, Department of Insurance  
Davie W. Summey, Division Chief of Ratings/Inspections, Grants, GIS & AFFF Fire and  
Rescue Services, Department of Insurance

Ladies and Gentlemen:

We are pleased to submit this performance audit report titled *Volunteer Fire Department Fund*. The audit objectives were to determine (1) the amount of Volunteer Fire Department Fund grants awarded and disbursed, and (2) whether the Department of Insurance (DOI) awarded and disbursed Volunteer Fire Department Fund grants in accordance with state law and DOI policies. If not, determine the causes and impact.

The Department of Insurance's Commissioner, Mike Causey, reviewed a draft copy of this report. His written comments are included starting on page 70.

This audit was conducted in accordance with Chapter 147, Article 5A of the *North Carolina General Statutes*.

We appreciate the courtesy and cooperation received from management and the employees of the Department of Insurance during our audit.

Respectfully submitted,

A handwritten signature in cursive script that reads "Beth A. Wood".

Beth A. Wood, CPA  
State Auditor

# BACKGROUND

In 1987, N.C.G.S. § 58-87-1 established the Volunteer Fire Department Fund<sup>5</sup> within the Department of Insurance (DOI) for the purpose of providing grants to volunteer fire departments to **purchase equipment** and **make capital improvements** necessary to provide fire protection services.

DOI is responsible for the administration of the Volunteer Fire Department Fund which includes four grants:

1. Fire Grants.
2. Base Allocation Grants.<sup>6</sup>
3. Supplemental Grants.
4. Emergency Reserve Grants.

### **Fire Grants**

Fire Grants are provided to volunteer fire departments for the purpose of purchasing equipment and making capital improvements necessary to provide fire protection services.

#### *Award*

DOI is responsible for awarding Fire Grants annually to **eligible** fire departments from all parts of North Carolina based on need.<sup>7</sup>

Volunteer fire departments must submit an online application and provide information that indicates their need for grant money.

To be eligible for a Fire Grant, volunteer fire departments must (1) consist of volunteer members,<sup>8</sup> and (2) be certified by DOI.<sup>9</sup>

To determine the **need** of grant applicants, DOI's Grant Management System scores volunteer fire department applications using a non-subjective point system based on several criteria. The criteria include:

- Number of volunteer and paid positions.
- Financial status (including municipal and county funding received).
- Per capita income.
- County population density.
- Number and age of vehicles.
- Type of requested equipment.

<sup>5</sup> Funding for the Volunteer Fire Department Fund comes from 20% of the proceeds of the additional 0.74% tax that insurance companies pay on property insurance premiums. (N.C.G.S. § 105-228.5(d)(3)).

<sup>6</sup> Authorized by the Current Operations Appropriations Act of 2021, S.L. 2021-180, § 30.2.(b) for the 2021-2022 fiscal year and the Current Operations Appropriations Act of 2022, S.L. 2022-74, § 30.3.(a) for the 2022-2023 fiscal year. Funded through appropriations from the State Fiscal Recovery Fund and the state's general fund.

<sup>7</sup> N.C.G.S. § 58-87-1(a1).

<sup>8</sup> With the exception that the unit may have paid members to fill the equivalent of six full-time paid positions.

<sup>9</sup> DOI conducts inspections to rate fire departments. Ratings are based on receiving and handling of fire alarms, equipment, operations, training, and water supply.

The fewer points a volunteer fire department receives, the more likely it will be to receive a grant award.

Once all grant applications for a given fiscal year were scored, DOI selects the applications with the lowest total score until all available Fire Grants are exhausted.

The grants include the following terms:<sup>10</sup>

- Amount - Not to exceed \$30,000.
- Matching Funds – Volunteer fire departments may be required to match the grant based on the amount of municipal and county funding received by the fire department.
- Frequency – Volunteer fire departments may receive no more than one grant per fiscal year.
- Use of Funds - may only be used for purposes outlined in legislation.
  - Equipment purchases.
  - Payment of highway use taxes on those purchases.
  - Costs of putting property acquired from the Department of Defense through the Firefighter Property and federal Excess Property programs in service.
  - Capital expenditures necessary to provide fire protection services.

### *Disbursement*

In order for volunteer fire departments to receive a disbursement of the Fire Grants funds they were awarded; volunteer fire departments are first required to submit invoices or other documentation to DOI that demonstrated that funds were expended or planned to be expended<sup>11</sup> for an allowable purpose.<sup>12</sup>

### **Other Volunteer Fire Department Fund Grants**

In December 2021, S.L. 2021-180 authorized three additional grants to be awarded and disbursed to eligible volunteer fire departments: (1) Base Allocation Grants, (2) Supplemental Grants,<sup>13</sup> and (3) Emergency Reserve Grants.<sup>14</sup>

---

<sup>10</sup> N.C.G.S. § 58-87-1.

<sup>11</sup> Volunteer fire departments are allowed to submit purchase orders or estimates for planned purchases of vehicles such as fire trucks.

<sup>12</sup> According to N.C.G.S. § 58-87-1(a1)(3), these include: “equipment purchases, payment of highway use taxes on those purchases, costs of putting property acquired from the Department of Defense through the Firefighter Property (FFP) and federal Excess Property (FEPP) programs in service, or capital expenditures necessary to provide fire protection services.”

<sup>13</sup> S.L. 2021-180, § 30.2.(c), which authorized Supplemental Grants, was repealed and replaced by S.L. 2022-74, § 30.4.

<sup>14</sup> Base Allocation and Emergency Reserve grants were authorized for the 2021-2023 biennium. Supplemental grants were authorized for the 2022-2023 fiscal year.

- **Base Allocation Grants** – Grants in the amount of \$10,000 to be awarded from \$8 million in State Fiscal Recovery Funds<sup>15</sup> and \$1.5 million in additional appropriations to help mitigate the financial impact of the COVID-19 pandemic and its impact on the volunteer fire department's ability to conduct fundraising and generate revenue. The grants were authorized to be awarded during the 2021-2023 fiscal biennium.<sup>16</sup>
- **Supplemental Grants** – Grants in the amount of \$35,000 to be awarded from \$36.6 million in nonrecurring appropriations and disbursed to volunteer fire departments, rescue, or Emergency Medical Services (EMS) units to be used for purposes related to the operations and functions of the volunteer fire department or unit. The grants were only authorized to be awarded during the 2022-2023 fiscal year.
- **Emergency Reserve Grants** – Grants not to exceed \$50,000 to be awarded and disbursed from the Volunteer Fire Department Fund to volunteer fire departments in the event of an emergency.<sup>17</sup> The grants are authorized in each fiscal year of the 2021-2023 fiscal biennium.

These grants have the same eligibility requirements as Fire Grants. However, these grants are not awarded to volunteer fire departments based on need. Additionally, these grants do not require volunteer fire departments to provide (1) matching funds, or (2) invoices or other documentation that demonstrated that funds were expended or planned to be expended<sup>18</sup> for an allowable purpose.

See Appendix A for summary of Volunteer Fire Department Fund grants administered by DOI.

Current Operations Appropriations Act of 2022, S.L. 2022-74, § 22.1.(a), required the Office of the State Auditor to conduct a performance audit of the Volunteer Fire Department Fund.

#### **Key terms discussed in this report include:**

*Volunteer Fire Department* - A fire department made up of volunteers who perform fire suppression and other related emergency services for a local jurisdiction.

*Volunteer Fire Department Fund* – The fund established by the State of North Carolina in DOI to provide grants to volunteer fire departments to purchase equipment and make capital improvements.

*DOI Grant Management System* - The computer system used by DOI to collect grant application information from volunteer fire departments through an online portal and to automatically score grant applications for award based on the volunteer department's need.

<sup>15</sup> Established by S.L. 2021-25 to provide funding to respond to the public health emergency with respect to the COVID-19 public health emergency and its negative economic impacts.

<sup>16</sup> S.L. 2022-74, § 30.3.(a) appropriated \$1.5 million in nonrecurring funds to award base allocation grants to volunteer fire departments in the 2022-2023 fiscal year if they applied for one in the 2021-2022 fiscal year and did not receive a grant.

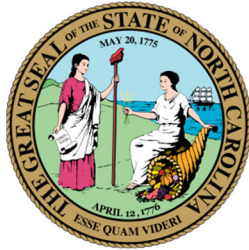

<sup>17</sup> Defined by N.C.G.S. § 166A-19.3(6). "An occurrence or imminent threat of widespread or severe damage, injury, or loss of life or property resulting from any natural or man-made accidental, military, paramilitary, terrorism, weather-related, public health, explosion-related, riot-related cause, or technological failure or accident, including, but not limited to, a cyber incident, an explosion, a transportation accident, a radiological accident, or a chemical or other hazardous material incident."

<sup>18</sup> Volunteer fire departments are allowed to submit purchase orders or estimates for planned purchases of vehicles such as fire trucks.

**Responsible parties discussed in this report include:**

*Department of Insurance (DOI)* – In addition to regulating the insurance industry, DOI houses the Office of the State Fire Marshal which provides training to fire and rescue personnel, helps improve building codes, and awards grants to fire and rescue departments for equipment.

Responsible for administering the Volunteer Fire Department Fund.

# **OBJECTIVES, SCOPE, AND METHODOLOGY**

The objectives of this audit were to determine (1) the amount of Volunteer Fire Department Fund grants awarded and disbursed, and (2) whether the Department of Insurance (DOI) awarded and disbursed Volunteer Fire Department Fund grants in accordance with state law and DOI policies. If not, determine the causes and impact.

The audit scope included Volunteer Fire Department Fund grants awarded for the period January 1, 2021, through October 31, 2022, and disbursed as of November 30, 2022.

To achieve the audit objectives, auditors:

- Reviewed relevant laws and regulations.
- Interviewed DOI personnel.
- Reviewed DOI policies and procedures for administering the Volunteer Fire Department Fund and awarding and disbursing grants to recipients.
- Reconciled awarded grants to DOI's Grant Management System.
- Reviewed grant applications and other information from DOI's Grant Management System.
- Reviewed Volunteer Fire Department Fund balances and reconciled to the amount of grants awarded.

Auditors also performed the following tests:

### **Grant Awards**

1. Eligibility - Auditors tested all 2,617<sup>19</sup> (100%) Volunteer Fire Department Fund grants awarded to determine whether the volunteer fire departments that were awarded grants met the eligibility requirements to be awarded a grant.<sup>20</sup>
2. Based on Need - Auditors tested all 968 (100%) Volunteer Fire Department Fund Fire Grants awarded to determine whether DOI awarded the grants based on need.<sup>21</sup>

Base Allocation and Supplemental Grants awarded were not included in this test as these grants were not required to be awarded based on need.

### **Grant Disbursements**

Auditors tested 110 of 779 (14%) Volunteer Fire Department Fund Fire Grants awarded and disbursed by DOI to determine whether DOI obtained supporting documentation (i.e. invoices, receipts, etc.) from volunteer fire departments that demonstrated the volunteer fire department's use or planned use<sup>22</sup> of grant funds prior to DOI's disbursement of grant funds.

<sup>19</sup> Includes all Volunteer Fire Department Fund grants awarded during the period of January 1, 2021, through October 31, 2022. Eligible volunteer fire departments were able to be awarded more than one type of grant.

<sup>20</sup> According to volunteer fire department self-reported applicant information. Auditors did not verify volunteer fire department applicant information to determine whether it was accurate. This was **not included** in the scope of this audit.

<sup>21</sup> Ibid.

<sup>22</sup> Volunteer fire departments are allowed to submit purchase orders or estimates for planned purchases of vehicles such as fire trucks.

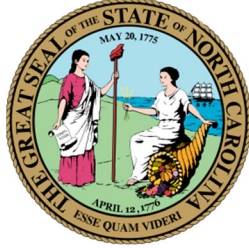

Base Allocation and Supplemental Grants disbursed were not included in this test as DOI's policy did not require volunteer fire departments to submit documentation prior to DOI's disbursement of these grant funds.

Whenever sampling was used, auditors applied a non-statistical approach. Therefore, results could not be projected to the population. This approach was determined to adequately support audit conclusions.

Because of the test nature and other inherent limitations of an audit, together with limitations of any system of internal and management controls, this audit would not necessarily disclose all performance weaknesses or lack of compliance.

This audit was designed to identify, for those programs, activities, or functions included within the scope of the audit, deficiencies in internal controls significant to our audit objectives. As a basis for evaluating internal control, auditors applied the internal control guidance contained in professional auditing standards. However, our audit does not provide a basis for rendering an opinion on internal control, and consequently, we have not issued such an opinion.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

# **RESULTS AND CONCLUSIONS**

During the period January 1, 2021, through October 31, 2022, the Department of Insurance (DOI) awarded \$56.2 million of Volunteer Fire Department Fund grants. As of November 30, 2022, \$41.1 million (73%) was disbursed to volunteer fire departments. See **Table 1** below.

**Table 1 – Volunteer Fire Department Fund Grants Awarded and Disbursed**

Grant	Awarded			Disbursed		
	Number	Amount	Average	Number	Amount	Average
2021 Fire Grants	554	\$ 9,858,970	\$ 17,796	545	\$ 9,006,189	\$ 16,525
2022 Fire Grants	414	8,612,564	20,803	234	3,986,200	17,035
Base Allocation Grants	798	7,980,000	10,000	798	7,980,000	10,000
Supplemental Grants	851	29,785,000	35,000	575	20,125,000	35,000
Emergency Reserve Grants <sup>23</sup>	0	0	N/A	0	0	N/A
<b>Total</b>	<b>2,617</b>	<b>\$ 56,236,534</b>		<b>2,152</b>	<b>\$ 41,097,388</b>	

**Source:** DOI data and auditor analysis.

See Appendices B-D for detailed list of grant recipients and amounts awarded and disbursed.

The audit also found that:

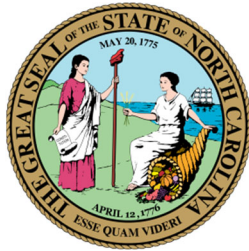

- DOI awarded \$56.2 million of Volunteer Fire Department Fund grants with **limited** verification that volunteer fire departments that were awarded grants were eligible to receive grants, and \$18.5 million<sup>24</sup> with **limited** verification that the volunteer fire departments were the most in need<sup>25</sup> of receiving grant funds.
- DOI did not disburse Volunteer Fire Department Fund Fire Grants (Fire Grants) to volunteer fire departments in accordance with DOI policy. DOI policy required DOI to obtain supporting documentation prior to disbursing Fire Grant funds to volunteer fire departments.

As a result, there was an increased risk DOI **did not** award grants fairly and equitably to eligible volunteer fire departments. Additionally, there was an increased risk that Fire Grants were not used for the intended purpose, i.e., to **purchase equipment** or **make capital improvements** necessary to provide fire protection services.

<sup>23</sup> As of October 31, 2022, **no** Emergency Reserve Grants have been awarded or disbursed by DOI.

<sup>24</sup> A subset of the \$56.2 million total grants awarded during the period.

<sup>25</sup> Only applicable for \$18.5 million of Volunteer Fire Department Fund Fire Grants. DOI assigns volunteer fire department application scores using a point system based on several criteria. The fewer points a volunteer fire department receives, the more likely it will be to receive a grant award.

# **FINDINGS, RECOMMENDATIONS, AND RESPONSES**

## 1. VOLUNTEER FIRE DEPARTMENT FUND GRANTS AWARDED AND DISBURSED

The Current Operations Appropriations Act of 2022, S.L. 2022-74, § 22.1.(a), required the Office of the State Auditor to conduct a performance audit of the Volunteer Fire Department Fund. Specifically, for **Fire Grants**, **Base Allocation Grants**,<sup>26</sup> **Supplemental Grants**, and **Emergency Reserve Grants**, OSA was required to determine the:

1. Name of each grant recipient.
2. County in which the recipient is located.
3. Actual amount of each grant.
4. Total number of grants awarded to each recipient.
5. Average amount of the grants awarded.

### Fire Grants

Fire Grants<sup>27</sup> were awarded to volunteer fire departments for the purpose of purchasing equipment and making capital improvements necessary to provide fire protection services.

During the period January 1, 2021, through October 31, 2022, the Department of Insurance (DOI) **awarded** \$18.5 million of Fire Grant funds to 968 volunteer fire departments for an **average** of \$19,082 per volunteer fire department. As of November 30, 2022, \$13.0 million (70%) was **disbursed** to 779 volunteer fire departments for an **average** of \$16,678 per volunteer fire department. See **Table 2** below.

**Table 2 – Fire Grants Awarded and Disbursed**

Grant	Awarded			Disbursed		
	Number	Amount	Average	Number	Amount	Average
2021 Fire Grants	554	\$ 9,858,970	\$ 17,796	545	\$ 9,006,189	\$ 16,525
2022 Fire Grants	414	8,612,564	20,803	234	3,986,200	17,035
<b>Total</b>	<b>968</b>	<b>\$ 18,471,534</b>	<b>\$ 19,082</b>	<b>779</b>	<b>\$ 12,992,389</b>	<b>\$ 16,678</b>

**Source:** DOI data and auditor analysis.

Volunteer fire departments were not awarded more than **one** Fire Grant each award year as required by state law.<sup>28</sup>

See **Appendix B** for detailed list of Fire Grant recipients and amounts awarded and disbursed.

<sup>26</sup> Authorized by the Current Operations Appropriations Act of 2021, S.L. 2021-180, § 30.2.(b) for the 2021-2022 fiscal year and the Current Operations Appropriations Act of 2022, S.L. 2022-74, § 30.3.(a) for the 2022-2023 fiscal year. Funded through appropriations from the State Fiscal Recovery Fund and the state's general fund.

<sup>27</sup> N.C.G.S. § 58-87-1(a1).

<sup>28</sup> N.C.G.S. § 58-87-1(a1)(4).

### **Base Allocation Grants**

Base Allocation Grants<sup>29</sup> were awarded to volunteer fire departments to help mitigate the financial impact of the COVID-19 pandemic and its impact on the volunteer fire department's ability to conduct fundraising and generate revenue.

During the period January 1, 2021, through October 31, 2022, DOI **awarded** \$8.0 million of Base Allocation Grant funds to 798 volunteer fire departments for an **average** of \$10,000 per volunteer fire department. As of November 30, 2022, \$8.0 million (100%) was **disbursed** to 798 volunteer fire departments for an **average** of \$10,000 per volunteer fire department. See **Table 3** below.

**Table 3 – Base Allocation Grants Awarded and Disbursed**

Grant	Awarded			Disbursed		
	Number	Amount	Average	Number	Amount	Average
Base Allocation Grants	798	\$ 7,980,000	\$ 10,000	798	\$ 7,980,000	\$ 10,000

**Source:** DOI data and auditor analysis.

Volunteer fire departments were not awarded more than **one** Base Allocation Grant.

See **Appendix C** for detailed list of Base Allocation Grant recipients and amounts awarded and disbursed.

### **Supplemental Grants**

Supplemental Grants<sup>30</sup> are awarded to volunteer fire departments, rescue, or emergency medical services (EMS) units to be used for purposes related to the operations and functions of the volunteer fire department or unit.

During the period January 1, 2021, through October 31, 2022, DOI **awarded** \$29.8 million of Supplemental Grant funds to 851 recipients for an **average** of \$35,000 per recipient. As of November 30, 2022, \$20.1 million (68%) was **disbursed** to 575 recipients for an **average** of \$35,000 per recipient. See **Table 4** below.

**Table 4 – Supplemental Grants Awarded and Disbursed**

Grant	Awarded			Disbursed		
	Number	Amount	Average	Number	Amount	Average
Supplemental Grants	851	\$ 29,785,000	\$ 35,000	575	\$ 20,125,000	\$ 35,000

**Source:** DOI data and auditor analysis.

Volunteer fire departments, rescue, or EMS units were not awarded more than **one** Supplemental Grant.

See **Appendix D** for detailed list of Supplemental Grant recipients and amounts awarded and disbursed.

<sup>29</sup> The Current Operations Appropriations Act of 2021, S.L. 2021-180, § 30.2.(b) and the Current Operations Appropriations Act of 2022, S.L. 2022-74, § 30.3.(a).

<sup>30</sup> S.L. 2022-74, § 30.3.(a).

### **Emergency Reserve Grants**

Emergency Reserve Grants<sup>31</sup> are awarded to volunteer fire departments in the event of an emergency<sup>32</sup> to provide funds for the purchase of equipment and make capital improvements necessary to provide fire protection services.

As of October 31, 2022, **no** Emergency Reserve Grants have been awarded or disbursed by DOI.

---

## **2. VOLUNTEER FIRE DEPARTMENT FUND GRANTS AWARDED WITH LIMITED VERIFICATION OF ELIGIBILITY AND NEED**

---

The Department of Insurance (DOI) awarded \$56.2 million of Volunteer Fire Department Fund grants with **limited verification** that volunteer fire departments that were awarded grants were eligible to receive grants or were the most in need<sup>33</sup> of grant funds. As a result, there was an increased risk DOI **did not** award grants fairly and equitably<sup>34</sup> to eligible volunteer fire departments. According to DOI management, it performed **limited verification** to determine whether volunteer fire departments were eligible to receive grants or were the most in need because it did not have the resources to do so. However, state law<sup>35</sup> required DOI to **administer** the Volunteer Fire Department Fund and award Volunteer Fire Department Fund grants to eligible volunteer fire departments selected based on need.<sup>36</sup>

### **Limited Verification Volunteer Fire Departments Awarded Grants Were Eligible or the Most in Need**

DOI awarded \$56.2 million of Volunteer Fire Department Fund grants during the period of January 1, 2021, through October 31, 2022, with limited verification that the volunteer fire departments awarded the grants were eligible. Additionally, DOI performed limited verification that volunteer fire departments awarded \$18.5 million<sup>37</sup> of Volunteer Fire Department Fund Fire Grants (Fire Grants) were the most in need of receiving the grants. Specifically, DOI did not independently verify that all information self-reported by volunteer fire departments in their grant applications was accurate.

To be awarded Volunteer Fire Department Fund grants, volunteer fire departments had to submit an online application.

---

<sup>31</sup> The Current Operations Appropriations Act of 2021, S.L. 2021-180, § 30.2(d).

<sup>32</sup> Defined by N.C.G.S. § 166A-19.3(6). "An occurrence or imminent threat of widespread or severe damage, injury, or loss of life or property resulting from any natural or man-made accidental, military, paramilitary, terrorism, weather-related, public health, explosion-related, riot-related cause, or technological failure or accident, including, but not limited to, a cyber incident, an explosion, a transportation accident, a radiological accident, or a chemical or other hazardous material incident."

<sup>33</sup> Only applicable for \$18.5 million of Volunteer Fire Department Fund Fire Grants. DOI assigns volunteer fire department application scores using a point system based on several criteria. The fewer points a volunteer fire department receives, the more likely it will be to receive a grant award.

<sup>34</sup> Ibid.

<sup>35</sup> N.C.G.S. § 58-87-1.

<sup>36</sup> Based on need is specific to \$18.5 million of Volunteer Fire Department Fund Fire Grants. DOI assigns volunteer fire department application scores using a point system based on several criteria. The fewer points a volunteer fire department receives, the more likely it will be to receive a grant award.

<sup>37</sup> A subset of the \$56.2 million total grants awarded during the period.

The information submitted by volunteer fire departments in their applications was used to (1) indicate whether the volunteer fire department was **eligible** for grant funds, and (2) prioritize the volunteer fire departments based on its **need** for grant funds.<sup>38</sup>

To be **eligible** for a Volunteer Fire Department Fund grant, volunteer fire departments must (1) consist of volunteer members,<sup>39</sup> and (2) be certified by DOI.<sup>40</sup>

To determine the **need** of grant applicants for Fire Grants, DOI's Grant Management System scores volunteer fire department applications using a non-subjective point system based on several criteria. The criteria include:

- Number of volunteer and paid positions.
- Financial status (including municipal and county funding received).
- Per capita income.
- County population density.
- Number and age of vehicles.
- Type of requested equipment.

The fewer points a volunteer fire department received, the more likely it would be to receive a Fire Grant award.

Once all grant applications for a given fiscal year were scored, DOI selected the applications with the lowest total score until all available Fire Grants were exhausted.

However, most information used for awarding grants and determining the volunteer fire department's eligibility and need was **self-reported** by the volunteer fire departments.<sup>41</sup> DOI did not independently verify all volunteer fire department applicant information to determine whether it was accurate. For example, except in limited circumstances, DOI did not independently verify volunteer fire department:

- DOI certification status.
- Number of volunteer and paid positions.
- Financial status (including municipal and county funding received).

### **Resulted in Increased Risk Volunteer Fire Department Funds Not Distributed Fairly and Equitably to Eligible Recipients/with Greatest Need**

Without independent verification of volunteer fire department application self-reported information, DOI does not know whether \$56.2 million Volunteer Fire Department Fund grant funds were awarded only to volunteer fire departments that met the **eligibility** requirements required by state law.

---

<sup>38</sup> Based on need is only applicable for Volunteer Fire Department Fund Fire Grants. DOI assigns volunteer fire department application scores using a point system based on several criteria. The fewer points a volunteer fire department receives, the more likely it will be to receive a grant award.

<sup>39</sup> With the exception that the unit may have paid members to fill the equivalent of six full-time paid positions.

<sup>40</sup> DOI conducts inspections to rate fire departments. Ratings are based on receiving and handling of fire alarms, equipment, operations, training, and water supply.

<sup>41</sup> Per capita income and county population density information is obtained from the North Carolina Office of State Budget and Management.

And since DOI did not verify all self-reported information used to score and award volunteer fire department Fire Grant applications, DOI cannot provide reasonable assurance that \$18.5 million<sup>42</sup> of Fire Grants were awarded fair and equitably to the volunteer fire departments **with the greatest need**.

As a result, other eligible volunteer fire departments that needed funds may not have received the grant funds. From the period January 1, 2021, through October 31, 2022, there were 284 volunteer fire departments that applied for Fire Grants but did not receive funds.

### **Caused by DOI's Lack of Resources and Lack of Allocation of Resources**

DOI management stated it did not **verify** all self-reported information used to determine whether volunteer fire departments were eligible to receive grants and were most in need because it did not have adequate staff to verify recipient self-reported information nor did they reassign other DOI staff.

Instead, DOI required the volunteer fire departments to attest that their information was correct as part of the application process.

In effect, DOI's method for determining the eligibility for Volunteer Fire Department Fund grants was simply to obtain the volunteer fire department's word that it met eligibility requirements.

### **State Law Required DOI to Award Grants to Eligible Volunteer Fire Departments Based on Need**

State law<sup>43</sup> required DOI to **administer** the Volunteer Fire Department Fund and award Volunteer Fire Department Fund grants to eligible volunteer fire departments selected based on need.<sup>44</sup>

Without verifying volunteer fire department application self-reported information, it would be difficult to ensure that the provisions of state law were being carried out including awarding grants to eligible volunteer fire departments with the greatest need.

## **RECOMMENDATIONS**

DOI should independently verify volunteer fire department self-reported information to ensure grant funds are awarded to eligible volunteer fire departments selected based on need.

DOI management should ensure adequate staff are available to verify recipient self-reported information to ensure grant funds are awarded only to eligible volunteer fire departments.

## **AGENCY RESPONSE**

See page 70 for DOI's response to this finding.

<sup>42</sup> A subset of the \$56.2 million total grants awarded during the period.

<sup>43</sup> N.C.G.S. § 58-87-1.

<sup>44</sup> Based on need is only applicable for Volunteer Fire Department Fund Fire Grants. DOI assigns volunteer fire department application scores using a point system based on several criteria. The fewer points a volunteer fire department receives, the more likely it will be to receive a grant award.

### 3. VOLUNTEER FIRE DEPARTMENT FUND FIRE GRANTS NOT DISBURSED IN ACCORDANCE WITH DEPARTMENT OF INSURANCE POLICY

The Department of Insurance (DOI) did not disburse \$495,315<sup>45</sup> of Volunteer Fire Department Fund Fire Grants (Fire Grants) to volunteer fire departments in accordance with DOI policy. DOI policy required DOI to obtain supporting documentation prior to disbursing Fire Grant funds to volunteer fire departments. As a result, there was an increased risk that Fire Grants were not used to **purchase equipment** or **make capital improvements** necessary to provide fire protection services. DOI management stated it did not disburse all awarded Fire Grants in accordance with DOI policy because of the increase in the number of grants that DOI was required to administer.

#### **\$495,315 of Volunteer Fire Department Fund Fire Grants Not Disbursed in Accordance with DOI Policy**

DOI did not disburse Fire Grants in accordance with DOI policy.

For volunteer fire departments to receive a disbursement of the Fire Grants funds they were awarded; volunteer fire departments must first submit documentation to DOI that demonstrated that funds were expended or planned to be expended<sup>46</sup> for an allowable purpose.<sup>47</sup>

However, DOI disbursed \$495,315<sup>48</sup> of Fire Grant funds to volunteer fire departments without documentation that supported the volunteer fire department's reported use of the funds.

Auditors tested 110 of 779 (14%) Fire Grants<sup>49</sup> disbursed as of November 30, 2022, and found 28 (25%) were not disbursed in accordance with DOI policy. Specifically,

- 18 of 110 (16%) Fire Grants totaling \$330,193 were disbursed for amounts that **did not agree** to supporting documentation.
- 10 of 110 (9%) Fire Grants totaling \$165,122 were disbursed without **all the required** supporting documentation from the volunteer fire department.

**NOTE:** The 28 grants identified above were only those errors identified in the sample and may not include all that exist in the entire population of 779 Fire Grants disbursed as of November 30, 2022.

<sup>45</sup> Amount represents the total of grants awarded in which at least one error in DOI's disbursement process was identified.

<sup>46</sup> Volunteer fire departments are allowed to submit purchase orders or estimates for planned purchases of vehicles such as fire trucks.

<sup>47</sup> According to N.C.G.S. § 58-87-1(a1)(3), these include: "equipment purchases, payment of highway use taxes on those purchases, costs of putting property acquired from the Department of Defense through the Firefighter Property (FFP) and federal Excess Property (FEPP) programs in service, or capital expenditures necessary to provide fire protection services."

<sup>48</sup> Amount represents the total of grants awarded in which at least one error in DOI's disbursement process was identified.

<sup>49</sup> Fire Grants were the only type of Volunteer Fire Department Fund grant that required documentation to be submitted prior to grant funds being disbursed.

**Increased Risk of Grant Funds Not Used for Intended Purpose**

Since DOI disbursed awarded Fire Grant funds to volunteer fire departments without documentation that supported the use of the funds, there is an increased risk that the Fire Grant funds were not used to purchase equipment or make capital improvements necessary to provide fire protection services.

State law<sup>50</sup> required Fire Grants to be used for specific purposes. Specifically,

The grant may be used only for equipment purchases, payment of highway use taxes on those purchases, costs of putting property acquired from the Department of Defense through the Firefighter Property (FFP) and federal Excess Property (FEPP) programs in service, or capital expenditures necessary to provide fire protection services.

However, since documentation was not received prior to the disbursement of grant funds, DOI does not know whether Fire Grant funds were used in accordance with state law. For example, DOI has no way to know whether:

- Fire Department A purchased 12 oxygen tanks for \$13,130.
- Fire Department B purchased 20 radios for \$8,284.
- Fire Department C purchased a multi-gas detector for \$2,638.

The above were actual “stated” uses of the grant funds for three volunteer fire departments. However, the documentation to support the “stated” expenditures was nonexistent or did not support the “stated” expenditures.

**Caused by Increase in Number of Grants Administered**

According to DOI management, some Fire Grants were disbursed without documentation that supported the volunteer fire department’s reported expenditures because of an increase in the number of grants DOI was required to administer.

Prior to November 2021,<sup>51</sup> DOI administered the following grants: (1) Fire Grants, (2) Volunteer Rescue/EMS Fund, (3) Lloyds of London, and (4) Blue Cross and Blue Shield.

When S.L. 2021-180 was enacted, it required DOI to administer three additional Volunteer Fire Department Fund grants. These included: Base Allocation Grants,<sup>52</sup> Supplemental Grants, and Emergency Reserve Grants. In total, the number of total grants DOI awarded and administered increased by 1,522 (215%) in 2022. See **Table 5** on the following page.

<sup>50</sup> N.C.G.S. § 58-87-1(a1)(3).

<sup>51</sup> The date that the Current Operations Appropriations Act of 2021, S.L. 2021-180, was enacted.

<sup>52</sup> Authorized by the Current Operations Appropriations Act of 2021, S.L. 2021-180, § 30.2.(b) for the 2021-2022 fiscal year and the Current Operations Appropriations Act of 2022, S.L. 2022-74, § 30.3.(a) for the 2022-2023 fiscal year. Funded through appropriations from the State Fiscal Recovery Fund and the state’s general fund.

**Table 5 – Increase in Volunteer Fire Department Grants Awarded**

Grant	Award Year 2021	Award Year 2022	Change (%)
Fire Grant	554	414	(140)
Rescue/EMS Fund Grant	117	161	44
Blue Cross Blue Shield	50	*	(50)
Lloyds of London	*	49	49
Base Allocation	*	798	798
Supplemental	*	851	851
Emergency Reserve	*	0	0
<b>Total</b>	<b>721</b>	<b>2,273</b>	<b>1,552 (215%)</b>

**Source: DOI data and auditor analysis.**

\* Grant type was not authorized during the award year.

Despite the increase in grants administered, DOI management stated they did not increase staff or shift existing staff to account for the increase in grants.

#### **DOI Policy Required Disbursed Fire Grants to be Supported by Documentation**

DOI's Grants and Governmental Services Policy required volunteer fire departments to submit documentation supporting the volunteer fire department's use of the funds in order for the Fire Grants to be disbursed to the volunteer fire department. According to DOI's policy:

Invoices and proof of payments must be submitted.... If nothing is received, then the [volunteer fire] department will forfeit the grant.

#### **RECOMMENDATIONS**

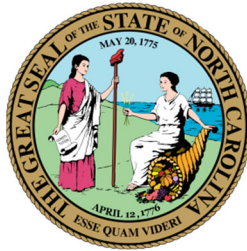

DOI management should disburse Fire Grants to volunteer fire departments in accordance with DOI policy.

DOI management should ensure adequate staff are available to administer Volunteer Fire Department Fund grants to ensure funds are disbursed in accordance with DOI policy.

#### **AGENCY RESPONSE**

See page 72 for DOI's response to this finding.

# **MATTERS FOR FURTHER CONSIDERATION**

During an audit, the Office of the State Auditor staff may uncover potential issues that are outside of the audit objectives. Although the issues may not have been part of the planned objectives, the issues are of such significance that they should be presented to those charged with governance and relevant stakeholders. Below is such an issue.

**Department of Insurance Should Ensure Their Grant Management System Assigns Scores in Accordance with Policy**

Department of Insurance (DOI) management should ensure that DOI's Grant Management System assigns scores to Volunteer Fire Department Fund Fire Grant (Fire Grant) applications in accordance with DOI policy.

To receive Fire Grant awards from the Volunteer Fire Department Fund, volunteer fire departments had to submit an online application and provide information that indicated their **need** for grant money. DOI's Grant Management System assigned scores using a non-subjective point system based on several criteria. The fewer points a volunteer fire department received, the more likely it would be to receive a grant award. The categories included:

- Number of volunteer and paid positions.
- Financial status (including municipal and county funding received).
- Per capita income.
- County population density.
- Number and age of vehicles.
- Type of requested equipment.

However, auditors found that DOI's Grant Management System assigned **less** points to volunteer fire departments with municipal and county funding than it should have. Specifically, it assigned volunteer fire departments one point if its salaries were paid by a municipality or county, when DOI's policy states they should have been assigned two points.

According to DOI, the Grant Management System assigned incorrect scores because DOI personnel input incorrect award criteria in the Grant Management System for municipal and county funding for the 2020 and 2021 grant cycles.

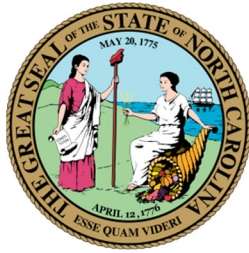

The scoring error affected 49 of 968<sup>53</sup> (5%) volunteer fire departments that were awarded Fire Grants from January 1, 2021, through October 31, 2022.

When auditors recalculated the points correctly based on DOI policy, they found that it did not impact whether the volunteer fire departments should or should not have received a Fire Grant.

However, if not fixed, there is an increased risk that award results could be impacted in the future and Fire Grants may not be awarded to volunteer fire departments with the greatest **need**.

---

<sup>53</sup> Included 2021 and 2022 Fire Grants awarded.

# APPENDICES

## Appendix A

**Summary of Volunteer Fire Department Fund Grants**

Grant	Grant Purpose	Amount	Frequency	Eligibility Requirements	Allowable Use of Funds
<b>Fire Grant</b>	To purchase equipment and make capital improvements necessary to provide fire protection services.	Up to \$30,000	Annually	<ol style="list-style-type: none"> <li>1. Consist of volunteer members.<sup>54</sup></li> <li>2. Be certified by DOI.<sup>55</sup></li> </ol>	<ul style="list-style-type: none"> <li>• Equipment purchases.</li> <li>• Payment of highway use taxes on those purchases.</li> <li>• Costs of putting property acquired from the Department of Defense through the Firefighter Property and federal Excess Property programs in service.</li> <li>• Capital expenditures necessary to provide fire protection services.</li> </ul>
<b>Base Allocation Grant</b>	To help mitigate the financial impact of the COVID-19 pandemic and its impact on the volunteer fire department's ability to conduct fundraising and generate revenue.	\$10,000	2021-2023 Fiscal Biennium <sup>56</sup>		
<b>Supplemental Grant</b>	For volunteer fire departments, rescue, or emergency medical services units to be used for purposes related to the operations and functions of the volunteer fire department or unit.	\$35,000	2022-2023 Fiscal Year		
<b>Emergency Reserve Grant</b>	To provide to volunteer fire departments in the event of an emergency <sup>57</sup>	Up to \$50,000	2021-2023 Fiscal Biennium		

<sup>54</sup> With the exception that the unit may have paid members to fill the equivalent of six full-time paid positions.

<sup>55</sup> DOI conducts inspections to rate fire departments. Ratings are based on receiving and handling of fire alarms, equipment, operations, training, and water supply.

<sup>56</sup> Volunteer fire departments could be awarded a base allocation grant in the 2022-2023 fiscal year if they applied for a grant in the 2021-2022 fiscal year and did not receive a grant.

<sup>57</sup> Defined by N.C.G.S. 166A-19.3.(6). An occurrence or imminent threat of widespread or severe damage, injury, or loss of life or property resulting from any natural or man-made accidental, military, paramilitary, terrorism, weather-related, public health, explosion-related, riot-related cause, or technological failure or accident, including, but not limited to, a cyber incident, an explosion, a transportation accident, a radiological accident, or a chemical or other hazardous material incident.

# **STATE AUDITOR'S RESPONSE**

The Office of the State Auditor (OSA) is required to provide additional explanation when an agency's response could potentially **cloud an issue**, **mislead** the reader, or inappropriately **minimize** the importance of the auditor's findings.

Generally Accepted Government Auditing Standards state,

When the audited entity's comments are inconsistent or in conflict with the findings, conclusions, or recommendations in the draft report, the auditors should evaluate the validity of the audited entity's comments. If the auditors disagree with the comments, they should explain in the report their reasons for disagreement.

In its response, the Department of Insurance (DOI) stated that it disagreed with the audit's second finding and included statements that could **mislead** the reader and **minimize the importance** of the auditor's findings.

**FIRST**, DOI stated:

We do not agree with this finding as written. The Department verifies eligibility and need for every grant it awards.

This is **not true**. As the audit report and DOI's own response clearly state, DOI relies on mostly **self-reported** information from volunteer fire departments when awarding grants and determining the volunteer fire department's need.<sup>1</sup>

Relying on self-reported information is **not verifying** the eligibility and need of volunteer fire departments.

Instead, as the audit report and DOI's own response clearly state, DOI required the volunteer fire departments to attest that their information was correct as part of the application process. DOI's method for verifying eligibility and need was simply to obtain the volunteer fire department's word that it met eligibility requirements.

DOI **did not** independently **verify** all volunteer fire department applicant information to determine whether it was accurate.

Without independent verification of volunteer fire department application self-reported information, there was an increased risk DOI **did not** award grants fairly and equitably to eligible volunteer fire departments.

**SECOND**, DOI stated:

...but we disagree with any inference or conclusion that it is either incorrect or improper to do so without independent verification.

This **minimizes the importance** of the auditor's findings. To be clear, DOI awarded grants without verifying that the self-reported information from volunteer fire departments was accurate.

---

<sup>1</sup> For Volunteer Fire Department Fund Fire Grants.

While it is true that there is no specific requirement from state law that required DOI to verify applicant self-reported information, state law is **specific** in that it **required** DOI to award Volunteer Fire Department Fund grants to **eligible** volunteer fire departments selected **based on need**.<sup>2</sup>

Without verifying volunteer fire department application self-reported information, how can DOI ensure that the provisions of state law were being carried out including that it awarded grants to **eligible** volunteer fire departments with the greatest **need**?

**THIRD**, DOI stated:

Additional verification requirements placed on the fire departments applying for the grants, whether it is a requirement that additional documentation be provided with the application or whether staff must visit fire departments to verify information in the application, could push smaller department to forego applying for a grant.

This **minimizes the importance** of the auditor's findings. As the report clearly states, since DOI did not verify applicant self-reported information, there is an increased risk that DOI **did not** award grants **fairly** and **equitably** to **eligible** volunteer fire departments.

Not verifying applicant self-reported information could have the same result on volunteer fire departments applying for grants. **Eligible** volunteer fire departments that **needed** grant funds may not have received grant funds due to grants being awarded to ineligible volunteer fire departments.

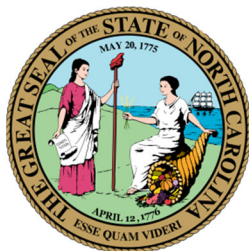

As the report states, from the period January 1, 2021, through October 31, 2022, there were 284 volunteer fire departments that applied for Volunteer Fire Department Fund Fire Grants but did not receive funds.

The **Governor**, **legislators**, and the **citizens** of North Carolina should consider these clarifications when evaluating DOI's response to this audit's findings and recommendations.

.

---

<sup>2</sup> Based on need is only applicable for Volunteer Fire Department Fund Fire Grants. DOI assigns volunteer fire department application scores using a point system based on several criteria. The fewer points a volunteer fire department receives, the more likely it will be to receive a grant award.

# **RESPONSE FROM DEPARTMENT OF INSURANCE**

**NC DEPARTMENT  
of INSURANCE**  
**MIKE CAUSEY, COMMISSIONER**

Tel 919.807.6000 Fax 919.715.8889

March 27, 2023

The Honorable Beth A. Wood, State Auditor  
Office of the State Auditor  
2 South Salisbury Street  
20601 Mail Service Center  
Raleigh, North Carolina 27699-0601

Dear Auditor Wood:

Thank you for giving the North Carolina Department of Insurance the opportunity to review and respond to the draft audit report. Below are the Department's responses to the findings and recommendations in the draft report.

**1. Volunteer Fire Department Fund Grants Awarded and Disbursed**

This finding reports the grant funds that were awarded and disbursed to fire departments. We agree with the finding.

**2. Volunteer Fire Department Fund Grants Awarded With Limited Verification of Eligibility and Need.**

We do not agree with this finding as written. The Department verifies eligibility and need<sup>1</sup> for every grant it awards and it has shared its process for making awards with the auditors. What the draft report finds is that the Department relies mostly on self-reported information in awarding grants and determining a fire department's need and that the Department did not independently verify all volunteer fire department applicant information.<sup>2</sup> This is not the same thing as awarding grants without verifying either eligibility or need. It also does not reflect the steps the Department takes in reviewing the self-reported information to determine eligibility and need. It would be more accurate to say that the Department awards grants without verifying if all self-reported information from fire departments is accurate.

We agree that the Department relies mostly on self-reported information from fire departments<sup>3</sup> in awarding grants, but we disagree with any inference or conclusion that it is either incorrect or improper to do so without independent verification. General Statute § 58-87-1 requires the Department to administer the Volunteer Fire Department Fund.<sup>4</sup> It places no limitations on using

<sup>1</sup> For Fire Grants.

<sup>2</sup> Draft Report, page 10.

<sup>3</sup> For each step of the application process, a fire department is required to attest that the information provided is correct before the next step can be started. If it is determined that any information has been falsified on a grant application, the case is referred to the Department's Criminal Investigations Division to investigate.

<sup>4</sup> G.S. § 58-87-1.

March 27, 2023  
Page 2 of 4

self-reported data and has no requirements for verifying all data used in awarding grants from the fund. The Department's administration of the fund complies with the requirements of G.S. § 58-87-1.

We also believe that it is not uncommon to make grant awards based on self-reported information contained in grant applications, either entirely or in part. An application, by its very nature, requires information to be self-reported and certainly not all information contained in a grant application – such as an applicant's name or address – must be independently verified.

While relying on self-reported information as part of the award process may increase the risk that Fire Grant funds are not distributed fairly and equitably to eligible recipients,<sup>5</sup> we believe that any increased risk is small and must be balanced against increasing administrative expenses at the expense of grant funds or making the grant application or approval process overly burdensome for the applicants. The cost of administering the fund comes from the same pot of money from which grants are awarded. Additional costs needed to cover verification beyond what is already being done will reduce the amount of funds available to be awarded as grants. Additional verification requirements placed on the fire departments applying for the grants, whether it is a requirement that additional documentation be provided with the application or whether staff must visit fire departments to verify information in the application, could push smaller departments to forego applying for a grant.

The Department's administration of these various grants has been affected by staff turnover and increased workload and changes in the law. Four grant staff members administer the Fire Grant and a separate volunteer rescue grant. Each staff member is assigned 25 NC counties for Fire Grants. Like many agencies post-COVID, the grant staff experienced turnover during 2021. Two staff members left, and two new staff members were hired but needed to be trained. In 2022, the legislative requirement to award Base Allocation Grants and Supplemental Grants during 2022 put a considerable strain on the Department's grant staff. In addition to the Fire Grants, which are awarded annually by May 15, Base Allocation Grants were required to be awarded by August 1, 2022, and Supplemental Grants were required to be awarded by October 1, 2022. Because neither of those grants had matching requirements, there were many more applicants and awards than a normal year – in 2021, 554 Fire Grants were awarded but in 2022, the total number of Fire Grants, Base Allocation Grants and Supplemental Grants awarded was 2,063. For the Fire Grants, staff also had to adjust to different matching requirements in 2022, due to a recent change to G.S. § 58-87-1.<sup>6</sup> Reassignment of other staff members to the grant management section was not considered to be a viable option due to other divisions within the OSFM also being short staffed. This has likely led to some of the human errors identified by the auditors.

---

<sup>5</sup> There was no risk that Base Allocation Grants or Supplemental Grants were not distributed fairly and equitably because sufficient funds were appropriated to ensure that any eligible fire department that applied would be awarded a grant. For both grants, the total grant awards were less than what was appropriated in S.L. 2021-180 and S.L. 2022-74.

<sup>6</sup> S.L. 2021-178.

March 27, 2023  
Page 3 of 4

### Recommendations

DOI should independently verify volunteer fire department self-reported information to ensure grant funds are awarded to eligible volunteer fire departments selected based on need.

As stated above, we disagree that all self-reported information should be independently verified. However, we do agree that there is opportunity to further verify the financial data being submitted. The Department will update the application to require that the County Finance Manager review and verify financial data before it is submitted to the Department. The Division Chief will oversee the implementation of this change prior to the next scheduled grant application period, which will be in 2024.<sup>7</sup>

The Division Chief will also work with the Grants Administrator to strengthen the application review procedures to include an internal peer review of the grant file notes. The review will ensure that the application notes are comprehensive. These changes will be implemented prior to the next scheduled grant application period.

We will also work to seek integration with new call center technology being developed for the Department. The goal will be to integrate call information from the new call center technology with the Grants Management system notes. Final implementation is dependent upon the call center project implementation schedule.

DOI management should ensure adequate staff are available to verify recipient self-reported information to ensure grant funds are awarded only to eligible volunteer fire departments.

We hope that 2022 will be the exception and not the rule when it comes to grant administration. With just the Fire Grant to award going forward, we believe that our current staffing will be adequate to handle grant awards. Based on our experience in 2022, should additional grants be created by the legislature, we would look at options for additional staffing to handle additional duties.

### **3. Volunteer Fire Department Fund Fire Grants Awarded Not Disbursed in Accordance with Department of Insurance Policy**

We have reviewed the spreadsheet provided to us with a list of the 28 grants that were audited in support of this finding and have reviewed our files for these grants. Overall, the grants reviewed identify instances where errors were made relating to the disbursement of the grant funds. The errors identified appear to be mistakes made by the grant staff – human error.

As noted in the footnote on page 12 of the draft report, the auditors have chosen to report this finding using the total amount of grants awarded, \$495,315. While, arguably, this is a way that this finding can be presented, it is important to put that number into context. The majority of the grant funds awarded were disbursed in accordance with Department policy and the discrepancy between

---

<sup>7</sup> Grant applications have already been received for the 2023 Fire Grants.

March 27, 2023  
Page 4 of 4

what was disbursed and what should have been disbursed for each of the 28 grants is comparatively small. Our calculation of the amount of funds incorrectly disbursed funds is \$28,506.04, or approximately 6% of the total amount of grants awarded.

However, as we initially said, this finding has identified grants where human error has led to incorrect disbursements. We will look at our processes and training to try and improve how funds are disbursed.

### **Recommendations**

DOI management should disburse Fire Grants to volunteer fire departments in accordance with DOI policy.

This finding has identified files where human error led to reimbursement errors that were in most cases for items like sales tax or the cost of shipping and handling. We will review current procedure and will also work to ensure that staff responsible for verifying reimbursement amounts and authorizing payments are better trained to correctly determine reimbursement amounts. The Division Chief and Grants Administrator will implement these changes prior to the next scheduled grant application period.

DOI management should ensure adequate staff are available to administer Volunteer Fire Department Fund grants to ensure funds are disbursed in accordance with DOI policy.

As discussed above, we believe we have adequate staff to manage the Fire Grant going forward but if staff becomes responsible for handling new grants, we will look at options to provide additional staff support.

### **4. Matters for Further Consideration**

#### **Department of Insurance Should Ensure Their Grant Management System Assigns Scores in Accordance with Policy**

The Division Chief and Grants Administrator will work with the Information Technology Division to correct any system deficiencies. This will be implemented during the next maintenance window for this application.

The Department appreciates the opportunity to review and provide comment on the Volunteer Fire Department Fund audit. We trust that the feedback provided herein is beneficial to the final report. Please advise if there are further questions and we will follow up accordingly.

Regards,

Mike Causey, Commissioner
