

National State Auditors Association

July, 28, 2003

Mr. Ralph Campbell, Jr., State Auditor
State of North Carolina
2 South Salisbury Street
20601 Mail Service Center
Raleigh, North Carolina 27699

Dear Mr. Campbell:

We have reviewed the system of quality control of the State of North Carolina, Office of the State Auditor in effect for the period between July 1, 2002 and June 30, 2003. A system of quality control encompasses the office's organizational structure and the policies adopted and procedures established to provide it with reasonable assurance of conforming with government auditing standards. The design of the system and compliance with it are the responsibility of the office. Our responsibility is to express an opinion on the design of the system, and the office's compliance with the system based on our review.

We conducted our review in accordance with policies and procedures for external quality control reviews established by the National State Auditors Association (NSAA). In performing our review, we obtained an understanding of the office's system of quality control for audits conducted in accordance with government auditing standards. In addition, we tested compliance with the office's quality control policies and procedures to the extent we considered appropriate. These tests covered the application of the office's policies and procedures on selected engagements. Because our review was based on selective tests, it would not necessarily disclose all weaknesses in the system of quality control or all instances or lack of compliance with it.

Because there are inherent limitations in the effectiveness of any system of quality control, departures from the system may occur and not be detected. Also, projection of any evaluation of a system of quality control to future periods is subject to the risk that the system of quality control may become inadequate because of changes in conditions, or because of the degree of compliance with the policies and procedures may deteriorate.

In our opinion, the system of quality control of the State of North Carolina, Office of the State Auditor in effect for the period July 1, 2002 through June 30, 2003 has been suitably designed and was complied with during the period to provide reasonable assurance of conforming with government auditing standards.
